**Útrásarvíkingar!** Alaric Hall, 2020 As the global banking boom of the early twenty first century expanded towards implosion Icelandic media began calling the country s

celebrity financiers tr sarv kingar raiding vikings This new coinage encapsulated the macho medievalist nationalism which underwrote Iceland s exponential financialisation Yet within a few days in October 2008 Iceland saw all its main banks collapse beneath debts worth nearly ten times the country s GDP Hall charts how Icelandic novelists and poets grappled with the Crash over the ensuing decade As the first English language monograph devoted to twenty first century Icelandic literature it provides Anglophone readers with an introduction to one of the world s liveliest literary scenes It also contributes a key case study for understanding global artistic responses to the early twenty first century crisis of runaway unregulated capitalism exploring the struggles of writers to adapt realist forms of art to surreal times As Iceland s biggest crisis since their independence from Denmark in 1944 the effect of the Crash on the national self image was as seismic as its effects on the economy This study analyses the centrality of whiteness and the abjection of the developing world in Iceland s post colonial identity and shows how Crash writing explores the collisions of Iceland s traditional nationalist medievalism with a dystopian Orientalist medievalism associated with the Islamic world The Crash in Iceland was instantly recognised as offering important economic insights This book shows how Iceland also helps us to understand the cultural convulsions that have followed the Financial Crisis widely in the West
