The Mack Within Tariq Nasheed,2005-10-04 The Art of Mackin was written by Tariq King Nasheed *The Art of Mackin'* Tariq King Flex Nasheed,2009-02 First written in 1999 and released in 2000 this updated and revised edition takes a unique yet serious look at modern male female relationships from a player s point of view *Black Players* Richard Milner,Christina Milner,2010-11 Originally published in 1973 Black Players was the first book to undertake a thorough examination of the urban pimp culture Social anthropologists Richard and Christina Milner were allowed access to the secretive and controversial world of pimps and prostitutes and allowed the players to describe themselves and the rules of the game in their own words **Intimate Activism** Cymene Howe,2013-09-09 Intimate Activism tells the story of Nicaraguan sexual rights activists who helped to overturn the most repressive antisodomy law in the Americas The law was passed shortly after the Sandinistas lost power in 1990 and to the surprise of many was repealed in 2007 In this vivid ethnography Cymene Howe analyzes how local activists balanced global discourses regarding human rights and identity politics with the contingencies of daily life in Nicaragua Though they were initially spurred by the antisodomy measure activists sought to change not only the law but also culture Howe emphasizes the different levels of intervention where activism occurs from mass media outlets and public protests to meetings of clandestine consciousness raising groups She follows the travails of queer characters in a hugely successful telenovela traces the ideological tensions within the struggle for sexual rights and conveys the voices of those engaged in becoming lesbianas and homosexuales in contemporary Nicaragua Now They Call Me Infidel Nonie Darwish,2006 A Cairo raised daughter of an Egyptian military officer describes how she was raised to hate Americans and Jewish people and submit to dictatorship her decision to relocate to America and her efforts to promote peace and tolerance at the risk of her own safety *Framing Majismo* Tara Zانardi,2016-03-08 Majismo a cultural phenomenon that embodied the popular aesthetic in Spain from the second half of the

eighteenth century served as a vehicle to regain Spanish heritage As expressed in visual representations of popular types participating in traditional customs and wearing garments viewed as historically Spanish majismo conferred on Spanish citizens the pictorial ideal of a shared national character In *Framing Majismo* Tara Zanardi explores nobles fascination with and appropriation of the practices and types associated with majismo as well as how this connection cultivated the formation of an elite Spanish identity in the late 1700s and aided the Bourbons objective to fashion themselves as the legitimate rulers of Spain In particular the book considers artistic and literary representations of the majo and the maja purportedly native types who embodied and performed uniquely Spanish characteristics Such visual examples of majismo emerge as critical and contentious sites for navigating eighteenth century conceptions of gender national character and noble identity Zanardi also examines how these bodies were contrasted with those regarded as foreign finding that foreign and national bodies were frequently described and depicted in similar ways She isolates and uncovers the nuances of bodily representation ultimately showing how the body and the emergent nation were mutually constructed at a critical historical moment for both **White**

Metropolis Michael Phillips,2010-01-01 Winner T R Fehrenbach Award Texas Historical Commission 2007 From the nineteenth century until today the power brokers of Dallas have always portrayed their city as a progressive pro business racially harmonious community that has avoided the racial ethnic and class strife that roiled other Southern cities But does this image of Dallas match the historical reality In this book Michael Phillips delves deeply into Dallas s racial and religious past and uncovers a complicated history of resistance collaboration and assimilation between the city s African American Mexican American and Jewish communities and its white power elite Exploring more than 150 years of Dallas history Phillips reveals how white business leaders created both a white racial identity and a Southwestern regional identity that excluded African Americans from power and required Mexican Americans and Jews to adopt Anglo Saxon norms to achieve what limited positions of power they held He also demonstrates how the concept of whiteness kept these groups from allying with each other and with working and middle class whites to build a greater power base and end elite control of the city Comparing the Dallas racial experience with that of Houston and Atlanta Phillips identifies how Dallas fits into regional patterns of race relations and illuminates the unique forces that have kept its racial history hidden until the publication of this book **Foundational Black American Race Baiter** Tariq Nasheed,2021-12 Foundational Black American Race

Baiter is a journal from world renowned activist and social influencer Tariq Nasheed and his perspective on race relations

The Topkapi Scroll Gülru Necipoğlu,1996-03-01 Since precious few architectural drawings and no theoretical

treatises on architecture remain from the premodern Islamic world the Timurid pattern scroll in the collection of the Topkapi Palace Museum Library is an exceedingly rich and valuable source of information In the course of her in depth analysis of this scroll dating from the late fifteenth or early sixteenth century Gülru Necipoğlu throws new light on the conceptualization recording and transmission of architectural design in the Islamic world between the tenth and sixteenth centuries Her text has particularly far reaching implications for recent discussions on vision subjectivity and the semiotics of abstract representation She also compares the Islamic understanding of geometry with that found in medieval Western art making this book particularly valuable for all historians and critics of architecture The scroll with its 114 individual geometric patterns for wall surfaces and vaulting is reproduced entirely in color in this elegant large format volume An extensive catalogue includes illustrations showing the underlying geometries in the form of incised dead drawings from which the individual patterns are generated An essay by Mohammad al Asad discusses the geometry of the muqarnas and demonstrates by means of CAD drawings how one of the scroll s patterns could be used to design a three dimensional vault

The Least Likely Man Franklin H. Portugal, 2015-02-06 How unassuming government researcher Marshall Nirenberg beat James Watson Francis Crick and other world famous scientists in the race to discover the genetic code The genetic code is the Rosetta Stone by which we interpret the 3.3 billion letters of human DNA the alphabet of life and the discovery of the code has had an immeasurable impact on science and society In 1968 Marshall Nirenberg an unassuming government scientist working at the National Institutes of Health shared the Nobel Prize for cracking the genetic code He was the least likely man to make such an earth shaking discovery and yet he had gotten there before such members of the scientific elite as James Watson and Francis Crick How did Nirenberg do it and why is he so little known In *The Least Likely Man* Franklin Portugal tells the fascinating life story of a famous scientist that most of us have never heard of Nirenberg did not have a particularly brilliant undergraduate or graduate career After being hired as a researcher at the NIH he quietly explored how cells make proteins Meanwhile Watson Crick and eighteen other leading scientists had formed the RNA Tie Club named after the distinctive ties they wore each decorated with one of twenty amino acid designs intending to claim credit for the discovery of the genetic

code before they had even worked out the details They were surprised and displeased when Nirenberg announced his preliminary findings of a genetic code at an international meeting in Moscow in 1961 Drawing on Nirenberg s lab diaries Portugal offers an engaging and accessible account of Nirenberg s experimental approach describes counterclaims by Crick Watson and Sidney Brenner and traces Nirenberg s later switch to an entirely new even more challenging field Having won the Nobel for his work on the genetic code Nirenberg moved on to the next frontier of biological research how the brain works

ministry is about prosperity and feel good religion **Slow Violence and the Environmentalism of the Poor** Rob Nixon, 2011-06-01 The violence wrought by climate change toxic drift deforestation oil spills and the environmental aftermath of war takes place gradually and often invisibly Using the innovative concept of slow violence to describe these threats Rob Nixon focuses on the inattention we have paid to the attritional lethality of many environmental crises in contrast with the sensational spectacle driven messaging that impels public activism today Slow violence because it is so readily ignored by a hard charging capitalism exacerbates the vulnerability of ecosystems and of people who are poor disempowered and often involuntarily displaced while fueling social conflicts that arise from desperation as life sustaining conditions erode In a book of extraordinary scope Nixon examines a cluster of writer activists affiliated with the environmentalism of the poor in the global South By approaching environmental justice literature from this transnational perspective he exposes the limitations of the national and local frames that dominate environmental writing And by skillfully illuminating the strategies these writer activists deploy to give dramatic visibility to environmental emergencies Nixon invites his readers to engage with some of the most pressing challenges of our time
