**HAUNEBU: THE SECRET FILES** David Childress,2020-01-01 David Childress popular author and star of the History Channel show Ancient Aliens brings us the incredible tale of the German flying disk known as the Haunebu Although rumors of German flying disks have been around since the late years of WWII it was not until 1989 when a German researcher named Ralf Ettl living in London received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft craft which we would classify today as UFOs or flying saucers Ettl went on to make several television documentaries based on the material in the packet and released most of the documents and photos to researchers in Austria and other parts of Europe What the Ralf Ettl document dump shows us is what many have suspected for a long time that WWII did not end in the manner in which we have been told and a remnant of the Nazi military particularly the SS continued to operate flying saucers and submarines around the world in the decades after the end of the war This activity involving a flying saucer known as the Haunebu was particularly notable in South America but it ultimately involved all the continents of the world including Antarctica Join Childress as he shows us the secret files involving the Haunebu the Vril craft the Andromeda craft and others Includes a 16 page color section Over 120 photographs and diagrams

*The Lost World of Agharti* Alec MacLellan, 2011-02-01 One of the world's oldest legends tells of a vast network of underground tunnels and passageways linking the continents to a subterranean kingdom. This utopia is said to be inhabited by an ancient race of people who have lived in seclusion for centuries, hidden from the sight of mankind but aware of everything happening on the surface of the earth. The underground country is called Agharti. Tales of this lost world survive throughout the world, and explorers have searched for it for centuries. It has fascinated figures from the English occultist Lord Bulwer-Lytton, the Russian theosophist Madame Helena Blavatsky, and most surprisingly of all, Adolf Hitler, who based part of his philosophy of world domination on the legend of the subterranean super race. Hitler was attracted to the stories of Vril Power, an amazing force that can control man and nature. He believed that possession of this power would allow his dream of a Thousand Year Reich, and he sent scientists and soldiers in search of this lost world. Alec MacLellan has pieced together the history of the Agharti and tries to discover the tunnels that lead to Agharti. Based on evidence collected all over the world and embracing subjects from the origins of the peoples of America, the occult secrets of Asia, and the lost continent of Atlantis, MacLellan provides the first assessment of what Vril Power actually was.

**Vril Or Vital Magnetism** Book Tree, 1999-07 Vril is another name for the life energy of the body, known in other cultures worldwide as mana, prana, chi, or vital force. Most of the ancient cultures of the world were aware of this important force and worked to make use of it. In today's world, especially in the West, we move along through life completely oblivious to this truly vital force. Although this force cannot be seen, it is the life force within our bodies. It takes energy from food and provides muscles with energy, which in turn allows us to move about in daily life, as well as grow and metabolize. Nourishment, digestion, and elimination are all driven by the life force. Vril also has a connection to the mind, and methods can be employed to store up its energy and use it constructively. Vril is not manufactured in the human body but can be collected and used effectively. This energy is present in water and especially in the air. This is why breathing is so important in the practice of meditation. A deeper part of us comes alive while we meditate due to increased vital energy in the body combined with the relaxation of the mind. This book is by far the best guidebook known to this mysterious and powerful force. The exact mechanics of how it works are detailed, plus methods of gathering, conserving, and using its power. The exercises given are powerful and they work. This is really more of a self-help book than a simple fact book or mystical overview. Few books have packed in so much vital information in so few pages, and out of all the books we have ever seen, we can safely say that no other book from the West reveals anything close to the important information found here on this subject.

*Valiant Thor's Book of Vrile: How to Live Long and Prosper* Valiant Thor,2018-11-06 When the noted thinker author and philanthropist Commander Valiant Thor dictated this book over a half century ago in Earth years he was just settling into his role as commander of the Venusian forces on our planet He had actually put in many decades on Earth prior to that although he was not as they say truly in charge Being a relative novice at that time Thor decided to stick to traditional protocol and studiously avoided mentioning the word Vrile in these pages It had been decided long before that by certain Venusian elders to keep that particular word and its conceptual underpinnings secret from Earthlings at least until the appropriate time Although it obviously wasn t the appropriate time the term and the belief system behind it were revealed to certain nosy Germans who had gotten heavily into the occult during World War II These Nazi necromancers had somehow hacked into the ongoing telemetric stream between Earth and Venus and illegally downloaded much of the information about Vrile The civilized world has been trying to regain its balance ever since As a result the author herein states unequivocally and for the record that Vrile has nothing to do with Nazism fascism racism hate or bigotry Like most Venusians Thor follows the teachings of Jesus Christ Tecumseh Krishna and Buddha which generally state that all men are created equal in God s sight and are loved equally by God Today in 2018 most everyone has heard about Vrile so Thor has no trouble stating that this book edited for him by his brilliant human acolyte Hilton Hotema is about one of the key aspects of Vrile rejuvenating and extending the lives of human beings There are many correlations in this area between Venusians and Earthlings Vrile is truly the essence of the active verb the powerful sentence and the narrative that moves people to action It is the energy behind the words which makes the mind react in a positive and uplifting fashion As the Buddhists say our words are actions and should be approached soberly cautiously compassionately and empathetically Vrile is about living life to the fullest and loving to the fullest In these current days of extreme political divide where lying and deception are being spread from on high much like the Nazis and KKK of old we need Vrile more than ever to counteract the Antichrist evil that seems to be sweeping the world under the false guise of making America great again Those of you who understand Vrile should have no problem understanding what Thor is saying May these words and the positive galaxial inspiration behind them guide and comfort you as you go about your daily business in our dynamic infinite and loving universe

*Nazi Moonbase* Graeme Davis, 2016-04-21 In the dying days of World War II Nazi Germany spent increasingly large amounts of its dwindling manufacturing capability on the construction of a small fleet of flying saucers capable of travel beyond the atmosphere While these saucers were too few in number to affect the eventual outcome of the war they did allow for a small but fanatical Nazi group to escape Germany first to Antarctica and then on to the moon For the first time the history of the Nazi space program has been revealed with a focus on the design construction and layout of the moonbase Using detailed maps the entire moonbase is reconstructed noting the locations of various important features such as weapon emplacements the Vril generator the air recyclers and water extractors The book also covers the various attempt by the allies to overcome this last Nazi stronghold through both subterfuge and outright battle

*A Culture of Conspiracy* Michael Barkun, 2003 Unravelling the genealogies and permutations of conspiracist worldviews this work shows how this web of urban legends has spread among sub cultures on the Internet and through mass media and how this phenomenon relates to larger changes in American culture

### **Books in Print Supplement , 1985**

**Theosophical Enlightenment** Joscelyn Godwin, 1994-10-28 This is an intellectual history of occult and esoteric currents in the English speaking world from the early Romantic period to the early twentieth century The Theosophical Society founded in 1875 by Helena P Blavatsky holds a crucial position as the place where all these currents temporarily united before again diverging The book s ambiguous title points to the author s thesis that Theosophy owed as much to the skeptical Enlightenment of the eighteenth century as it did to the concept of spiritual enlightenment with which it is more readily associated The author respects his sources sufficiently to allow that their world so different from that of academic reductionism has a right to be exhibited on its own terms At the same time he does not conceal the fact that he considers many of them deluded and deluding In the context of theosophical history this book is neither on the side of the blind votaries of Madame Blavatsky nor on that of her enemies It may therefore be expected to mildly annoy both sides
