The Coming Good Society William F. Schulz, Sushma Ramen, 2020-06-09 Challenge s all of us to think deeply about what kind of society we and our children and our children's children will want to live in Margaret L Huang former Executive Director Amnesty International USA A rights revolution is under way Today the range of nonhuman entities thought to deserve rights is exploding Changes in norms and circumstances require the expansion of rights What new rights for example are needed if we understand gender to be nonbinary Does living in a corrupt state violate our rights When biotechnology is used to change genetic code whose rights might be violated What rights if any protect our privacy from the intrusions of sophisticated surveillance techniques Drawing on their vast experience as human rights advocates William Schulz and Sushma Raman challenge us to

think hard about how rights evolve with changing circumstances and what rights will look like ten twenty or fifty years from now The Coming Good Society details the many frontiers of rights today and the debates surrounding them Schulz and Raman equip us with the tools to engage the present and future of rights so that we understand their importance and know where we stand Thoughtful and provocative Human Rights Quarterly A trail blazing map through the new frontiers of rights downright riveting Gloucester Times An accessible primer for anyone who wishes to understand the current limitations in our notions of rights and the future challenges for which we must prepare Kerry Kennedy President Robert F Kennedy Human Rights Schulz and Raman outline brilliantly where human rights growth may take rights in the generations to come Zeid Ra ad al Hussein former United Nations High Commissioner for Human Rights *Noises Off* Michael Frayn,2021-01-14 As finely worked as a Swiss watch and as funny as the human condition permits the zigzag brilliance of the text as the clunky lines of the farce within a farce rub against the sharp dialogue of reality The Guardian A play within a play following a touring theatre company who are rehearsing and performing a comedy called Nothing On results in a riotous double bill of comedic craft and dramatic skill Hurling along at breakneck speed it shows the backstage antics as they stumble through the dress rehearsal at Weston super Mare then on to a disastrous matinee at Ashton under Lyne followed by a total meltdown in Stockton on Tees Michael Frayn s irresistible multi award winning backstage farce has been enjoyed by millions of people worldwide since it premiered in 1982 and has been hailed as one of the greatest British comedies ever written Winner of both Olivier and Evening Standard Awards for Best Comedy This edition features a new introduction by Michael Blakemore

Pence, 2002 The phrase genetically modified food conjures images of apples with eyeballs and tomatoes with toes But the true story behind this technology is much more complex than anyone may realize Join Pence's investigation of this latest public issue and take a front row seat at what will surely become the hottest debate since human cloning *How to Build a Better Human* Gregory E. Pence, 2012-08-17 Medicine has recently discovered spectacular tools for human enhancement Yet to date it has failed to use them well in part because of ethical objections Meanwhile covert attempts flourish to enhance with steroids mind enhancing drugs and cosmetic surgery all largely unstudied scientifically The little success to date has been sporadic and financed privately In *How to Build a Better Human* prominent bioethicist Gregory E Pence argues that people if we are careful and ethical can use genetics biotechnology and medicine to improve ourselves and that we should publicly study what people are doing covertly Pence believes that we need to transcend the two common frame stories of bioethics bioconservative alarmism and uncritical enthusiasm and that bioethics should become part of the solution not the problem in making better humans

Charity and Condescension Daniel Siegel, 2012-04-22 Charity and Condescension explores how condescension a traditional English virtue went sour in the nineteenth century and considers how the failure of condescension influenced Victorian efforts to reform philanthropy and to construct new narrative models of social conciliation In the literary work of authors like Dickens Eliot and Tennyson and in the writing of reformers like Octavia Hill and Samuel Barnett condescension once a sign of the power and value of charity became an emblem of charity's limitations This book argues that despite Victorian charity's reputation for idealistic self assurance it frequently doubted its own operations and was driven by creative self critique Through sophisticated and original close readings of important Victorian texts Daniel Siegel shows how these important ideas developed even as England struggled to deal with its growing underclass and an expanding notion of the state's responsibility to its poor
