Invasion of the Prostate Snatchers Oct 27 2023 Every year almost a quarter of a million confused and frightened American men are tossed into a prostate cancer cauldron stirred by salespeople representing a multibillion-dollar industry. In this flourishing business, the radical prostatectomy is still the most widely recommended treatment option. Yet a recent and definitive study in the New England Journal of Medicine concluded that out of the fifty thousand prostate operations performed annually, more than forty thousand are unjustified. But this is no surprise given that 99 percent of all doctors treating this disease are surgeons or radiation therapists. The appalling fact is that men are still being rushed into a major operation that rarely prolongs life and more than half the time leaves them impotent. Invasion of the Prostate Snatchers is a report on the latest thinking in prostate cancer therapy: close monitoring—active surveillance rather than surgery or radiation—should be the initial treatment approach for many men. There are three stages of prostate cancer and this book will provide accurate information about how to distinguish between them: Low-Risk, which requires no immediate treatment; Intermediate-Risk, which will benefit from surgery, radiation, and/or hormonal therapy; and High-Risk, a type that does require immediate treatment with a combination of therapies. In a unique collaboration, doctor and patient provide a wholly new perspective on managing this disease. Ralph Blum's account of his personal struggle, together with Dr. Mark Scholz's presentation of new scientific advances, provides convincing evidence that this noninvasive approach can be crucial in preventing tens of thousands of men from being overtreated every year. Invasion of the Prostate Snatchers serves as an indispensable map through the medical minefield of prostate cancer.

Blum Ralph : Book of Runes(Stones) Dec 29 2023

Runes Aug 25 2023 Offers a full introduction to and survey of runes and runology: their history, how they were used, and their interpretation. Runes, often considered magical symbols of mystery and power, are in fact an alphabetic form of writing. Derived from one or more Mediterranean prototypes, they were used by Germanic peoples to write different kinds of Germanic language, principally Anglo-Saxon and the various Scandinavian idioms, and were carved into stone, wood, bone, metal, and other hard surfaces; types of inscription range from memorials to the dead, through Christian prayers and everyday messages to crude graffiti. First reliably attested in the second century AD, runes were in due course supplanted by the roman alphabet, though in Anglo-Saxon England they continued in use until the early eleventh century, in Scandinavia until the fifteenth (and later still in one or two outlying areas). This book provides an accessible, general account of runes and runic writing from their inception to their final demise. It also covers modern uses of runes, and deals with such topics as encoded texts, rune names, how runic inscriptions were made, runological method, and the history of runic research. A final chapter explains where those keen to see runic inscriptions can most easily find them. Professor MICHAEL P, BARNES is Emeritus Professor of Scandinavian Studies, University College London.

The Healing Runes Apr 01 2024 Blum and Loughan have set out to fill a gigantic void in the healing field, and they have created healing interpretations for all the Runes. The Healing Runes- Loose Book Sep 25 2023 Since the beginning of recorded history, the oracular tradition has been associated with healing and with the Divine. For Ralph H. Blum, the journey toward spiritual and emotional healing began with the 1982 publication of "The Book of Runes," Since then, millions of people have welcomed the inspiration, guidance and comfort found in his interpretation of an ancient Western Oracle-- the Runes. At this time in history, a recognition of the relationship between physical health and emotional well-being is crucial. Created specifically to support traditional forms of therapy, healing and recovery, as well as all Twelve Step programs, "The Healing Runes" offers a new interpretation of this sacred oracle for all those whose lives stand in need of healing. When you are feeling alone or afraid; when you are sick physically or emotionally; or when your best friend is away and you need sound advice-- put your hand in the bag and pick a Rune. And when you are full of joy and praise and gratitude-- pick a Rune. "The Healing Runes" provides comfort for the heart, ease for the body, peace for the mind and nourishment for the soul.

Runes for Transformation Jan 23 2021 Runes have long been used as vital tools for transformation. Runes for Transformation is unlike any other rune book on the market, with Olsen's unique techniques and applications for this ancient alphabet including affirmations, NLP, visualizations, and meditation, as well as the historical background essential to embarking on this path. A highly respected teacher and transpersonal path worker, Kaedrich Olsen posits that the time for this "deeper working" of the runes has come and this will aid readers in both personal and collective evolution. Runes for Transformation is a rich resource and excellent guide for readers to take the steps to change their lives with a boldly modern approach to the ancient runes and for "change that really matters."

The Symbolic Quest May 10 2022 This book explores the use and development of man's symbolizing capacities--those qualities that make him distinctly human. Dr. Whitmont describes the symbolic approach to a dream, which takes into account a symptom's meaning in reference to an unfolding wholeness of personality. He then presents the view that the instinctual urge for meaning is served by the symbolizing capacities, and that this urge has been repressed in our time. In the field of psychology, this symbolic approach is most fully exemplified by the theories of C. G. Jung. The author's contribution includes many differentiations and speculations, especially concerning the problems of relatedness.

Runes for Beginners Jun 10 2022 Everything You Need to Know to Begin Working With Runes The enigmatic nature of the runes is undeniable. In fact, the English word "rune" comes to us from the Norse word runa, which means "a secret," or "to whisper." As symbols, the runes mean little to the untrained eye, yet the magical energies they activate can be used for positive, impactful change in your everyday life. But what are runes, exactly? On the surface level, runes are the characters in a writing system used by the ancient Germanic peoples of Europe. But unlike our modern letters, the runic symbols had been used for magical purposes long before they were fashioned into an alphabet. This is known from runic inscriptions found on ancient artifacts as well as Germanic myth and lore handed down over the centuries. Indeed, those who work with the runes today are taking part in an age-old magical tradition established by our Northern European pagan ancestors. In *Runes for Beginners*, best-selling author Lisa Chamberlain shines the light on these ancient symbols, showing you how to discover and utilize their unique magical energies. With both an eye toward tradition and a multicultural spirit, Lisa combines an appreciation for the Germanic roots of the runes with a more eclectic Neopagan approach. Unlike many other books on the topic, *Runes for Beginners* is completely accessible to those with no experience in Northern European magical traditions, yet it doesn't ignore those traditions altogether. You will emerge from this guide with a basic understanding of the runes' role in ancient Germanic paganism, as well as a solid foundation of knowledge to build your own runic practice, regardless of your religious or spiritual path. **Foundations in Runic Magic and Divination** The runes represent various aspects of the human experience of the Universe—both tangible and intangible. Each runic symbol embodies a natural force, or type of energy, which the rune worker can attune to and then manipulate in various ways. Runes can be sent out into the Universe to manifest a magical goal, or they can be used to consult with the unseen realms about a situation at hand. In *Runes for Beginners*, you'll learn all you need to know to start working with runes, including: The history of the runes and their role within the framework of the Germanic magical worldview The origins of runic wisdom in Norse mythology An overview of the Elder Futhark, the oldest-known runic alphabet and most widely used rune system in contemporary Neopaganism Basic techniques of rune magic, including rune scripts, bind runes, and creating runic talismans How to make your own runes Instructions for traditional rune-casting as well as contemporary rune spreads Tips for successful divination The divinatory meanings and magical uses of each rune in the Elder Futhark A suggested reading list for further exploring the runes and the magical and spiritual traditions of the ancient Germanic peoples Detailed tables of correspondence for a handy condensed magical and divinatory guide By the end of this guide, you will have a working knowledge of the runes that will enable you to use them with confidence in magic and divination. However, when it comes to truly mastering the runes, the importance of time and practice can't be emphasized enough. Indeed, working with runes can truly become a lifelong journey, but *Runes for Beginners* is an excellent first step along the way. If you're ready to start exploring the runes for yourself, just scroll to the top of the page and hit the Buy button!

For so many people in desperate situations--seeking wisdom, peace, and the strength to overcome overwhelming problems--the prayer has offered a beacon of hope and helped them through their darkest hours. The prayer is attributed to American theologian, Pastor Reinhold Niebuhr and is thought to have been written during the 1940s. Now, Ralph Blum has blessed the words with five beautifully crafted rune stones and enhanced their meaning with fresh runic commentaries to make the prayer even more powerful and accessible. So whatever your situation and however impossible the odds, you too can use the Serenity Prayer to help you face your challenges and to take the first step on your own road to recovery. In the accompanying book, Blum and co-authors, Susan Loughan and Bronwyn Jones, provide full instructions for using the runes with the prayer. They present the commentaries and the counsel of each rune stone and suggest meditations and other techniques to use. The pack is completed by a cloth bag to keep the Serenity Runes safe and a portable, credit-card-sized card on which is printed the Serenity Prayer.

The Nordic Book of Runes May 22 2023 A guide to the secrets of rune-reading, an ancient predictive art, that teaches you how to lay out runes and interpret them instantly. Once the sacred alphabet of the Germanic people of Northern Europe, runes are more than 2,000 years old. Runes (meaning a secret or mystery) were words of power, once carved on amulets, rings and weapons, and found as inscriptions on tombstones. The 1st rune, Fehu, is connected with cattle, and since wealth was measured in the number of cows a person owned, it has an underlying meaning of material wealth. The 11th rune, Isa, literally means 'ice', signifying danger and the probability of slipping up. Likewise, the 17th rune, Tiwaz, shares its significance with the North Star as an aid to navigation and charting life's path. In this insightful book, each of the runes is fully described, together with the symbolic images and celestial phenomena associated with them. Methods of laying out, or 'casting' the runes are described in order to give a full and comprehensive reading to answer any question. There are six spreads to choose from, from Odin's Rune, a simple reading with one rune stone, to using up to nine runes for deeper insight into the past, present and future.
