The Cold War Odd Arne Westad,2017-09-05 The definitive history of the Cold War and its impact around the world We tend to think of the Cold War as a bounded conflict a clash of two superpowers the United States and the Soviet Union born out of the ashes of World War II and coming to a dramatic end with the collapse of the Soviet Union But in this major new work Bancroft Prize winning scholar Odd Arne Westad argues that the Cold War must be understood as a global ideological confrontation with early roots in the Industrial Revolution and ongoing repercussions around the world In *The Cold War* Westad offers a new perspective on a century when great power rivalry and ideological battle transformed every corner of our globe From Soweto to Hollywood Hanoi and Hamburg young men and women felt they were fighting for the future of the world The Cold War may have begun on the perimeters of Europe but it had its deepest reverberations in Asia Africa and the Middle East where nearly every community had to choose sides And these choices continue to define economies and regimes across the world Today many regions are plagued with environmental threats social divides and ethnic conflicts that stem from this era Its ideologies influence China Russia and the United States Iraq

and Afghanistan have been destroyed by the faith in purely military solutions that emerged from the Cold War Stunning in its breadth and revelatory in its perspective this book expands our understanding of the Cold War both geographically and chronologically and offers an engaging new history of how today's world was created *The Cold War at Home* Philip Jenkins, 1999 One of the most significant industrial states in the country with a powerful radical tradition Pennsylvania was by the early 1950s the scene of some of the fiercest anti Communist activism in the United States Philip Jenkins examines the political and *Fundamentals of Fire Fighter Skills* David Schottke, 2014 **Origins of the Cold War** Melvyn P. Leffler, 2005 This second edition brings the collection up to date including the newest research from the Communist side of the Cold War and the most recent debates on culture race and intelligence **The Long Game** Rush Doshi, 2021-06-11 For more than a century no US adversary or coalition of adversaries not Nazi Germany Imperial Japan or the Soviet Union has ever reached sixty percent of US GDP China is the sole exception and it is fast emerging into a global superpower that could rival if not eclipse the United States What does China want does it have a grand strategy to achieve it and what should the United States do about it In *The Long Game* Rush Doshi draws from a rich base of Chinese primary sources including decades worth of party documents leaked materials memoirs by party leaders and a careful analysis of China's conduct to provide a history of China's grand strategy since the end of the Cold War Taking readers behind the Party's closed doors he uncovers Beijing's long methodical game to displace America from its hegemonic position in both the East Asia regional and global orders through three sequential strategies of displacement Beginning in the 1980s China focused for two decades on hiding capabilities and biding time After the 2008 Global Financial Crisis it became more assertive regionally following a policy of actively accomplishing something Finally in the aftermath populist elections of 2016 China shifted to an even more aggressive strategy for undermining US hegemony adopting the phrase great changes unseen in century After charting how China's long game has evolved Doshi offers a comprehensive yet asymmetric plan for an effective US response Ironically his proposed approach takes a page from Beijing's own strategic playbook to undermine China's ambitions and strengthen American order without competing dollar for dollar ship for ship or loan for loan *Apollo's Warriors* Michael E. Haas, 1998-05 Presenting a fascinating insider's view of U S A F special operations this volume brings to life the critical contributions these forces have made to the exercise of air space power Focusing in particular on the period between the Korean War the Indochina wars of 1950 1979 the accounts of numerous missions are profusely illustrated with photos maps Includes a discussion of AF operations in Europe during WWII as well as profiles of Air Commandos who performed above beyond the call of duty Reflects on the need for financial political support for restoration of the forces Bibliography Extensive photos maps Charts tables **Command Of The Air** General Giulio Douhet, 2014-08-15 In the pantheon of air power spokesmen Giulio Douhet holds center stage His writings more often cited than perhaps actually read appear as excerpts and aphorisms in the writings of numerous other air power spokesmen advocates and critics Though a highly controversial figure

the very controversy that surrounds him offers to us a testimonial of the value and depth of his work and the need for airmen today to become familiar with his thought The progressive development of air power to the point where today it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest In fact in many ways the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision Douhet together with Hugh Boom Trenchard of Great Britain and William Billy Mitchell of the United States is justly recognized as one of the three great spokesmen of the early air power era This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book published in 1921 Readers may well find much that they disagree with in this book but also much that is of enduring value The vital necessity of Douhet's central vision that command of the air is all important in modern warfare has been proven throughout the history of wars in this century from the fighting over the Somme to the air war over Kuwait and Iraq

Operation Overflight Francis Gary Powers, Curt Gentry, 2011-03 In this new edition of his classic 1970 memoir about the notorious U 2 incident pilot Francis Gary Powers reveals the full story of what actually happened in the most sensational espionage case in Cold War history After surviving the shoot down of his reconnaissance plane and his capture on May 1 1960 Powers endured sixty one days of rigorous interrogation by the KGB a public trial a conviction for espionage and the start of a ten year sentence After nearly two years the U S government obtained his release from prison in a dramatic exchange for convicted Soviet spy Rudolph Abel The narrative is a tremendously exciting suspense story about a man who was labeled a traitor by many of his countrymen but who emerged a Cold War hero

Intelligence Revolution 1960 Ingard Clausen, Edward A. Miller, 2012 Overview Provides a history of the Corona Satellite photo reconnaissance Program It was a joint Central Intelligence Agency and United States Air Force program in the 1960s It was then highly classified
