Causes Effects And Solutions To Youth Unemployment

Special Study on Economic Change: Stagflation : the causes, effects, and solutions ,1980 **Opportunity for All** MissCatriona Purfield,Mr.Harald Finger,Mrs.Karen Ongley,Mr.Benedicte Baduel,Carolina Castellanos,Ms.Gaelle Pierre,Vahram Stepanyan,Mr.Erik Roos,2018-07-17 This publication brings together a set of IMF papers that prepared as backgrounds for the various sessions of the conference and will help put into broader dissemination channels the results of this important conference An official IMF publication is well disseminated into academic and institutional libraries and book channels The IMF metadata will also make the conference papers more discoverable online *Young People and Long-Term Unemployment* Marco Giugni,Jasmine Lorenzini,Manlio Cinalli,Christian Lahusen,Simone Baglioni,2020-12-30 Young People and Long Term Unemployment examines the consequences of long term unemployment for the personal social and political lives of young adults aged 18 34 across four European cities Cologne Germany Geneva Switzerland Lyon France and Turin Italy Adopting a multidimensional theoretical framework aiming to bring together insights based on the contextual macro organizational meso and individual micro levels and combining quantitative and qualitative data and analyses it reaches a number of important conclusions First our study shows that the experience of long term unemployment has a negative impact on different dimensions of young people s lives When compared to employed youth unemployed youth are less satisfied with their lives more isolated and less independent financially Second however there are important variations across the four cities This means that in spite of widespread retrenchments in some places the welfare state still acts as a buffer against unemployment Third although young unemployed people participate in politics equally if not slightly more than employed youth the young unemployed are often disconnected from politics This is so even when they have important grievances to express in the face of high youth unemployment precarious working conditions and grim future perspectives on the labor market This book will be useful for scholars interested in unemployment politics and youth politics researchers and teachers in political science sociology and social psychology **Protecting Youth at Work** National Research Council and Institute of Medicine,Division of Behavioral and Social Sciences and Education,Commission on Behavioral and Social Sciences and Education,Committee on the Health and Safety Implications of Child Labor,1998-12-18 In Massachusetts a 12 year old girl delivering newspapers is killed when a car strikes her bicycle In Los Angeles a 14 year old boy repeatedly falls asleep in class exhausted from his evening job Although children and adolescents may benefit from working there may also be negative social effects and sometimes danger in their jobs Protecting Youth at Work looks at what is known about work done by children and adolescents and the effects of that work on their physical and emotional health and social functioning The committee recommends specific initiatives for legislators regulators researchers and employers This book provides historical perspective on working children and adolescents in America and explores the framework of child labor laws that

govern that work The committee presents a wide range of data and analysis on the scope of youth employment factors that put children and adolescents at risk in the workplace and the positive and negative effects of employment including data on educational attainment and lifestyle choices Protecting Youth at Work also includes discussions of special issues for minority and disadvantaged youth young workers in agriculture and children who work in family owned businesses

Youth Unemployment and Society Anne C. Petersen, Jeylan T. Mortimer, 2006-11-02 As societies become more technically advanced and jobs require more expertise young people are forced into a prolonged state of social marginality Employment during adolescence could provide significant experiences for growth into later work roles but most societies are not equipped to provide adolescents with meaningful work experience In Youth Unemployment and Society a group of historians psychologists economists and sociologists provide a cross national examination of trends in youth unemployment and intervention strategies in the United States and Europe Assessing the causes of aggregate societal unemployment rates the authors address factors that make individuals more vulnerable to unemployment and consider the developmental consequences of this experience The volume also examines how persistently high rates of youth unemployment affect society's values beliefs and institutions

Underdevelopment, Development and the Future of Africa Mawere, Munyaradzi, 2017-02-10 In view of the resilience of Africa's underdevelopment what do Africans make of their determined aspirations for development The continent of Africa has constantly drawn global attention most especially for both human and natural evils Underdevelopment it appears is one of the most eminent threatening evils It has plunged and promises to maintain the majority of Africa in abject poverty insecurity and vulnerability What perpetuates the ghost and gory of underdevelopment in Africa despite a proliferation of development rhetoric and initiatives How do ordinary Africans react to repeated talk and claims of development with little evidence of transformation for the better in their material circumstances This book interrogates the tenacity of underdevelopment amid calls for Africa to rise from its slumber and reclaim its position in global affairs as the mother continent of humankind It contributes to the ongoing debates on why Africa remains trapped in the clutch of underdevelopment many decades after the purported end of colonialism The book comes at a critical time in human history a time when the talk on Africa's underdevelopment is louder due to the ravages of economic downturns and dysfunctional conflicts It poses a challenge to development practitioners civil society activists statesmen economists political scientists and theorists to rethink and reconsider their role as technocrats experts and ambassadors of positive change in Africa and the world beyond

Economics of Unemployment Mary I. Marshall, 2006 The unemployment rate is the number of unemployed workers divided by the total civilian labour force which includes both the unemployed and those with jobs all those willing and able to work for pay In practice measuring the number of unemployed workers actually seeking work is notoriously difficult There are several different methods for measuring the number of unemployed workers Each method has its own biases and the different systems make comparing unemployment statistics between countries especially those with different systems difficult This book brings together diverse new research on this important area of economics

Public Policy and Technological Transformations in Africa Gedion Onyango, 2023-07-31 This book examines the links between public policy and Fourth Industrial Revolution 4IR technological developments in Africa It broadly assesses three key areas policy entrepreneurship policy tools and citizen participation in order to better understand the interfaces between public policy and technological transformations in African countries The book presents incisive case studies on topics including AI policies mobile money e budgeting digital economy digital agriculture and digital ethical dilemmas in order to illuminate technological proliferation in African policy systems Its analysis considers the broader contexts of African state politics and governance It will appeal to students instructors researchers and practitioners interested in governance and digital transformations in developing countries

On the Mysteries of Unemployment, 2013-04-09 Since the beginning of the

economic crisis of the 1980s considerable research has been dedicated to the study of the unemployment problem Nevertheless the phenomenon has not become fully understood nor are its consequences adequately prevented In this important new volume On the Mysteries of Unemployment economists and social scientists come together to offer the reader the latest insights on unemployment and policies regarding unemployment from the perspectives of both disciplines On the Mysteries of Unemployment contains four main sections Part One provides an introductory chapter and general overview Part Two contains rich contributions that provide new insights from an economic science perspective while Part Three offers a balanced view from social scientists The final section is devoted to the examination of policy issues concerning unemployment This volume unique in its field will be of interest to researchers students politicians and policy makers

New Architecture of Regional Security in Africa Usman A. Tar, Bashir Bala, 2019-11-11 This book critically explores the emerging architecture of regional security in Africa with particular reference to counterterrorism and counterinsurgency in the Lake Chad Basin Region In New Architecture of Regional Security in Africa the contributors scholars policy makers and defense security practitioners from both within and outside Africa examine the evolution dynamics and working mechanisms for peace and security or emerging regional security architecture for regional security in the region The volume will be essential reading for all academics scholars and researchers in academia and NGOs with interests in counterinsurgency and counterterrorism related issues in the Lake Chad Basin region Additionally the volume will also be useful for students of counterinsurgency counterterrorism small wars terrorism and strategic studies and defense and security studies It will also provide invaluable reference material for policy practitioners working on the activities in the contemporary operating environment within the Lake Chad Basin region This book offers innovative perspectives on the emerging architecture for regional security in Africa with a focus on how member states of the Lake Chad Basin Commission are coping with the challenges of terrorism and insurgency Edited by Usman A Tar and Bashir Bala the volume is the first to critically document regional security in the Lake Chad Basin **Youth and Minority Unemployment** Walter Edward Williams, 1977

Unemployed Youth in the UAE: Personal Perceptions, Vocational Education and Youth Employment George H. Copa, 1984 Research report on the role of the training employment relationship in effective training policies for youth employment in the USA identifies the major target group as low income socially disadvantaged youth with below average educational levels examines causes and social problems arising from youth unemployment includes vocational training career planning job placement and work experience among desirable policy components makes suggestions Bibliography **Youth Unemployment**, 1980 **Fair Labor Standards Amendments of 1977** United States. Congress. Senate. Committee on Human Resources. Subcommittee on Labor, 1977 **Youth Employment Programs in Ghana** Christabel Dadzie, Mawuko Fumey, Suleiman Namara, 2020-09-04 Unemployment and underemployment are global development challenges The situation in Ghana is no different In 2016 it was projected that given the country's growing youth population 300 000 new jobs would

need to be created each year to absorb the increasing numbers of unemployed young people Yet the employment structure of the Ghanaian economy has not changed much from several decades ago Most jobs are low skill requiring limited cognitive or technology know how reflected in low earnings and work of lower quality An additional challenge for Ghana is the need to create access to an adequate number of high quality productive jobs This report seeks to increase knowledge about Ghana s job landscape and youth employment programs to assist policy makers and key stakeholders in identifying ways to improve the effectiveness of these programs and strengthen coordination among major stakeholders Focused strategic short to medium term and long term responses are required to address current unemployment and underemployment challenges Effective coordination and synergies among youth employment programs are needed to avoid duplication of effort while the country s economic structure transforms Effective private sector participation in skills development and employment programs is recommended The report posits interventions in five priority areas that are not new but could potentially make an impact through scaling up 1 agriculture and agribusiness 2 apprenticeship skills training 3 entrepreneurship 4 high yielding areas renewable energy solar construction tourism sports and green jobs and 5 preemployment support services Finally with the fast changing nature of work due to technology and artificial intelligence Ghana needs to develop an education and training system that is versatile and helps young people to adapt and thrive in the twenty first century world of work
