Tracking originated with man's need for food; he needed to understand what he was following and what the rewards would be if he was successful. Little has changed over time about the terms of tracking. We still track game for sport and food, but we have also found other uses for tracking. Border police patrol to stop illegal immigrants from entering their country; the military tracks down wanted terrorists or enemy forces. Tracking has become a military skill. In the SAS Tracking Handbook, former SAS soldier and British Empire Medal (BEM) award-winner Barry Davies teaches not only how to survive in the outdoors with the skills of tracking, but how to use these skills from a military standpoint. Included in this book are many helpful tips on topics including: The types of dogs used for tracking. Traps for catching wild animals. Modern military tracking. Using your surroundings to your advantage. And much more. The success or failure of the modern tracker is dependent on the personal skills of the individual tracker. Training is vital in learning tracking skills, and continuous exercise the best way to interpret signs. These skills are rarely found, but they remain hidden deep within all of us. So whether you're already a skilled tracker or a novice in the field, the SAS Tracking Handbook will be your guide to mastering this old and respected art. An in-depth look at the British railway company's celebrated class of steam locomotives, with more than three hundred photos. Built by Collett in 1927 after pressure to restore the Great Western Railway's pre-eminence in motive power and cope with increasing postwar traffic to Devon and Cornwall holiday resorts, the thirty Kings were the final development of the Churchward Stars and the 1923 Castles and remained on top-link main line duty until their final replacement by the 'Western' class 52 diesel hydraulics in 1962. This book includes an insight into the thinking of some of Collett's senior staff at the end of the 1930s and the eventual transformation in the latter years with redraughting and double chimneys. As well as describing their design and construction, the book comprehensively covers their operation and performance, backed up by many recorded logs on all main GW/WR routes over which they were permitted. The author had close experience of the class when working at Old Oak Common between 1957 and 1962, and includes a chapter of his experiences with them, including many footplate trips (as a management trainee, he was greeted with glee by firemen who would hand him the shovel). The book also
