A hands-on open-and-go Montessori math curriculum. Use as a supplement to traditional, physical Montessori math materials OR as a stand-alone math curriculum. Montessori math sets a firm foundation in concrete principles before slowly progressing into abstraction. This workbook uniquely takes the Montessori concrete materials and puts them on paper, so your child can sit with a pencil, scissors, and glue, and concretely manipulate, touch, and visualize numbers, creating a strong math foundation using just this workbook. This is meant to be a first exposure to math, so we start at the very beginning. We cover conceptualizing numbers 0-100 in a Montessori sequence through many hands-on and visual activities. Using just a pencil, scissors, and glue, you can help your child conceptualize numbers 0-100 while working through the Montessori Math framework. In this first book, your child will be exposed to: ?? tactile numerals ?? the spindle box ?? number rods ?? beginning operations with number rods ?? cards and counters ?? the short bead stair ?? the addition snake game ?? teen numbers and teen number formation ?? counting by tens ?? counting all the way to one hundred using the 100 chain and the 100 board. ? Best of all, directions are included for every activity. ? Give your child the gift of understanding math. Target ages: 3-6.
