With more questions and answers than any other edition, the Encyclopedia of Counseling, Fourth Edition, is still the only book you need to pass the NCE, CPCE, and other counseling exams. Every chapter has new and updated material and is still written in Dr. Rosenthal's lively, user-friendly style counselors know and love. The book's new and improved coverage incorporates a range of vital topics, including social media, group work in career counseling, private practice and nonprofit work, addictions, neurocounseling, research trends, the DSM-5, the new ACA and NBCC codes of ethics, and much, much more. We live in a rapidly changing world in which politics is becoming both more and less predictable at the same time: this makes political geography a particularly exciting topic to study. To make sense of the continuities and disruptions within this political world requires a strongly focused yet flexible text. This new (sixth) edition of Peter Taylor's Political Geography proves itself fit for the task of coping with a frequently and rapidly changing geo-political landscape. Co-authored again with Colin Flint, it retains the intellectual clarity, rigour and vision of previous editions, based upon its world-systems approach. Reflecting the backdrop of the current global climate, this is the Empire, globalization and climate change edition in which global political change is being driven by three related processes: the role of cities in economic and political networks; the problems facing territorially based notions of democratic politics and citizenship, and the ongoing spectre of war. This sixth edition remains a core text for students of political geography, geopolitics, international relations and political science, as well as more broadly across human geography and the social sciences. ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that youselect the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition,you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- The most acute, informed, and up-to-date account available today of Ukraine and its people, now in its fourth edition. "An interesting and provocative read, which will, one hopes, contribute to the Western understanding of what Ukraine is and why it matters."—Volodymyr Kulyk, Harvard Ukrainian Studies "A spirited and eminently learned investigation of who Ukrainians say that they are, how they came to be so, and how others view them. . . . If you re add only one book of Ukraine, this should probably be it."—Elizabeth Luchka Haigh, H-Net Reviews Rarely have the horror and tragedy of war been so graphically--and brilliantly--portrayed as in Robert Fisk's epic account of the Lebanon conflict. A Critical scrutiny of a terrible war that has yet to be resolved. The author retells the entire story of the revolution in political thought that resulted in the republican experiment under the Constitution and Bill of Rights. The fourth edition of A History of Germany, 1918-2014: A Divided Nation introduces students to the key themes of 20th century German history, tracing the dramatic social, cultural, and political tensions in Germany since 1918. Now thoroughly updated, the text includes new coverage of the Euro crisis and a review of Angela Merkel's Chancellorship. New edition of a well-known, classic survey by a leading scholar in the field, thoroughly updated for a new generation of readers Provides an overview of the turbulent history of Germany from the end of the First World War through the Third Reich and beyond, examining the character and consequences of war and genocide Treats German history from 1918 to 2014 from the perspectives of instability, division and reunification, covering East and West German history in equal depth Offers important reflections on Angela Merkel's Chancellorship as it extends into a new term Concise, substantive coverage of this period make it an ideal resource for undergraduate students "An incisive look at immigration, assimilation, and national identity" (Kirkus Reviews) and the landmark immigration law that transformed the face of the nation more than fifty years ago, as told through the stories of immigrant families in one suburban county in Virginia. In the years since the 1965 Immigration and Nationality Act, the foreign-born population of the United States has tripled. Americans today are vastly more diverse than ever. They look different, speak different languages, practice different religions, eat different foods, and enjoy different cultures. In 1950, Fairfax County, Virginia, was ninety percent white, ten percent African-American, with a little more than one hundred families who were "other." Currently the Anglo white population is less than fifty percent, and there are families of Asian, African, Middle Eastern, and Latin American origin living all over the county. "In A Nation of Nations, National Public Radio correspondent Tom Gjelten brings these changes to life" (The Wall Street Journal), following a few immigrants to Fairfax County over recent decades as they gradually "Americanize." Hailing from Korea, Bolivia, and Libya, the families included illustrate common immigrant themes: friction between minorities, economic competition and entrepreneurship, and racial and cultural stereotyping. It's been half a century since the Immigration and Nationality Act changed the landscape of America, and no book has assessed the impact or importance of this law as A Nation of Nations. With these "powerful human stories...Gjelten has produced a compelling and informative account of the impact of the 1965 reforms, one that is indispensable reading at a time when anti-immigrant demagoguery has again found its way onto the main stage of political discourse" (The Washington Post). Known for its unsurpassed narrative style and careful blending of social and political history, Nation of Nations is a leader in the movement toward a more balanced approach to teaching the American History survey. The fourth edition of this popular text offers major changes in organization, content, and style, and added pedagogical features throughout make this survey text the most inviting on the market. Packaged with the interactive eSource CD-ROM, which combines print, media, and Web-based study materials into one, easy-to-use resource that accommodates a wide variety of learning styles, Nation of Nations now offers a powerful new resource of multimedia learning tools. This newly reformatted edition of Classic Album Covers of the 60s features more than 200 of the very best—and, in some cases, entertainingly worst—covers that graced LPs throughout that groundbreaking decade. It takes readers on a lively journey from the wholesome joviality of the Very Merry Macs and Muscle Beach Party, through stylish and sophisticated jazz covers, to the coolest, wildest psychedelic designs of the late 60s—including the Beatles' Sgt. Pepper and the Incredible String Band's The 5000 Spirits. The evolving styles illustrated here provide a fascinating reflection of changing cultural trends during an era when artists sought to smash the prevailing rules—and, in so doing, laid the foundations for cover design today. A condensed version of "The American People, Fifth Edition," this engaging text examines U.S. history as revealed through the experiences of all Americans, both ordinary and extraordinary. With a thought-provoking and rich presentation, the authors explore the complex lives of Americans of all national origins and cultural backgrounds, at all levels of society, and in all regions of the country. A vibrant four-color design and compact size make this book accessible, convenient, and easy-to read. Expanded and updated, this second edition of a bestselling book challenges conventional entomological wisdom with the latest research and analytical interpretations. Encouraging independent evaluation of the data and allowing for the extrapolation of major concepts across species, this indispensable text establishes a thorough understanding of the Writing the Nation displays key literary movements and the American authors associated with the movement. Topics include late romanticism, realism, naturalism, modernism, and modern literature. Contents: Late Romanticism (1855-1870) Realism (1865-1890) Local Color (1865-1885) Regionalism (1875-1895) William Dean Howells Ambrose Bierce Henry James Sarah Orne Jewett Kate Chopin Mary E. Wilkins Freeman Charles Waddell Chesnutt Charlotte Perkins Gilman Naturalism (1890-1914) Frank Norris Stephen Crane Turn of the Twentieth Century and the Growth of Modernism (1893 - 1914) Booker T. Washington Zane Grey Modernism (1914 - 1945) The Great War Une Generation Perdue... (a Lost Generation) A Modern Nation Technology Modernist Literature Further Reading: Additional Secondary Sources Robert Frost Wallace Stevens William Carlos Williams Ezra Pound Marianne Moore T. S. This friendly book serves as your tour guide through the important events of America's past and present, introducing you to the people who helped to shape history. From pre-Columbus to the American Revolution, from Watergate to Iraq to Barack Obama, you'll discover fascinating details that you won't find in dry history texts! They're coming to America explore early civilizations, meet Native Americans, and see how the development of the English colonies led to slavery and the American Revolution From Thomas Jefferson to Abraham Lincoln examine the contributions of great Americans as well as the discovery of gold, the birth of California, the Civil War, and Manifest Destiny America grows up be there during the conquering of the West, industrial development, and the invention of the light bulb and the telephone The impact of the World Wars understand the sweeping changes these epochal events brought to America and the rest of the world The Cold War, Camelot, and Clinton take a closer look at the Korean War and communism, the fabulous '50s, JFK, Vietnam, Nixon and Watergate, Reaganomics, and the Clinton years From the '90s to now witness the birth of the microchip, the impact of hanging chads in a presidential election, the largest terrorist attack on American soil, and the growing economic crisis Open the book and find: Ten important events that defined American culture Interesting Americans, from presidents to gangsters to sports heroes How America fought to win independence from England Details about all the major wars and their long-term effects Insight into the roots of slavery Inventions that changed life for Americans The impact of the atomic bomb The Bill of Rights and the Declaration of Independence Are we now, or have we ever been, a nation? As this century comes to a close, debates over immigration policy, racial preferences, and multiculturalism challenge the consensus that formerly grounded our national culture. The question of our national identity is as urgent as it has ever been in our history. Is our society disintegrating into a collection of separate ethnic enclaves, or is there a way that we can forge a coherent, unified identity as we enter the 21st century? In this "marvelously written, wide-ranging and thought-provoking"* book, Michael Lind provides a comprehensive revisionist view of the American past and offers a concrete proposal for nation-building reforms to strengthen the American future. He shows that the forces of nationalism and the ideal of a trans-racial melting pot need not be in conflict with each other, and he provides a practical agenda for a liberal nationalist revolution that would combine a new color-blind liberalism in civil rights with practical measures for reducing class-based barriers to racial integration. A stimulating critique of every kind of orthodox opinion as well as a vision of a new "Trans-American" majority, The Next American Nation may forever change the way we think and talk about American identity. *New York Newsday Combining a chronological overview with topical development, this team of esteemed authors presents in engaging detail the rich and varied history of Missouri, a state that has played a pivotal role in the history of the nation, from the pre-Columbian period to the present. In a clear, engaging style that all students of Missouri history are certain to enjoy, the authors explore such subjects as Missouri's Indian peoples, French and Spanish settlement, slavery, the Civil War and Reconstruction, politics from territorial days to the present, cultural as well as industrial development, both world wars, historical and recent demographics, and the difficult choices that Missourians faces regarding the economy, the environment, and education as the twenty-first century unfolds. Featuring an entirely new chapter as well as new maps, photographs, newly revised Suggestions for Further Reading, and a comprehensive index, this latest edition of our popular survey text—available in paperback as well as hardcover—will continue to enlighten and engage all those who call Missouri home. The United Nations in the 21st Century provides a comprehensive yet accessible introduction to the United Nations, exploring the historical, institutional, and theoretical foundations of the UN. This popular text for courses on international organizations and international relations also discusses the political complexities facing the organization today. Thoroughly revised throughout, the fifth edition focuses on major trends since 2012, including changing power dynamics, increasing threats to peace and security, and the growing challenges of climate change and sustainability. It examines the proliferating public-private partnerships involving the UN and the debates over reforming the Security Council and the Secretary-General selection process. This edition also includes new case studies on peacekeeping and the use of force in the Democratic Republic of Congo and Mali, transnational terrorism and the emergence of ISIS, the Security Council's failure to act in Syria, the Syrian and global refugee/migrant crisis, and the conclusion of the Millennium Development Goals and framing of the Sustainable Development Goals.
