K. Ching,2012-07-16 A superb visual reference to the principles of architecture Now including interactive CD ROM For more than thirty years the beautifully illustrated Architecture Form Space and Order has been the classic introduction to the basic vocabulary of architectural design The updated Third Edition features expanded sections on circulation light views and site context along with new considerations of environmental factors building codes and contemporary examples of form space and order This classic visual reference helps both students and practicing architects understand the basic vocabulary of architectural design by examining how form and space are ordered in the built environment Using his trademark meticulous drawing Professor Ching shows the relationship between fundamental elements of architecture through the ages and across cultural boundaries By looking at these seminal ideas Architecture Form Space and Order encourages the reader to look critically at the built environment and promotes a more evocative understanding of architecture In addition to updates to content and many of the illustrations this new edition includes a companion CD ROM that brings the book's architectural concepts to life through three dimensional models and animations created by Professor Ching *Science from Sight to Insight* Alan G. Gross,Joseph E. Harmon,2013-11-25 John Dalton's molecular structures Scatter plots and geometric diagrams Watson and Crick's double helix The way in which scientists understand the world and the key concepts that explain it is undeniably bound up in not only words but images Moreover from PowerPoint presentations to articles in academic journals scientific communication routinely relies on the relationship between words

and pictures In *Science from Sight to Insight* Alan G Gross and Joseph E Harmon present a short history of the scientific visual and then formulate a theory about the interaction between the visual and textual With great insight and admirable rigor the authors argue that scientific meaning itself comes from the complex interplay between the verbal and the visual in the form of graphs diagrams maps drawings and photographs The authors use a variety of tools to probe the nature of scientific images from Heidegger s philosophy of science to Peirce s semiotics of visual communication Their synthesis of these elements offers readers an examination of scientific visuals at a much deeper and more meaningful level than ever before

Spinoza and the Politics of Renaturalization Hasana Sharp,2021-02 There have been many Spinozas over the centuries atheist romantic pantheist great thinker of the multitude advocate of the liberated individual and rigorous rationalist The common thread connecting all of these clashing perspectives is Spinoza s naturalism the idea that humanity is part of nature not above it In this sophisticated new interpretation of Spinoza s iconoclastic philosophy Hasana Sharp draws on his uncompromising naturalism to rethink human agency ethics and political practice Sharp uses Spinoza to outline a practical wisdom of renaturalization showing how ideas actions and institutions are never merely products of human intention or design but outcomes of the complex relationships among natural forces beyond our control This lack of a metaphysical or moral division between humanity and the rest of nature Sharp contends can provide the basis for an ethical and political practice free from the tendency to view ourselves as either gods or beasts Sharp s groundbreaking argument critically engages with important contemporary thinkers including deep ecologists feminists and race and critical theorists making *Spinoza and the Politics of Renaturalization* vital for a wide range of scholars

Taking Sides: Clashing Views on Legal Issues, Expanded M. Ethan Katsh,2012-11-08 *Taking Sides* volumes present current controversial issues in a debate style format designed to stimulate student interest and develop critical thinking skills Each issue is thoughtfully framed with Learning Outcomes an Issue Summary an Introduction and an Exploring the Issue section featuring Critical Thinking and Reflection Is There Common Ground and Additional Resources *Taking Sides* readers also offer a Topic Guide and an annotated listing of Internet References for further consideration of the issues An online Instructor s Resource Guide with testing material is available for each volume Using *Taking Sides* in the Classroom is also an excellent instructor resource Visit www.mhhe.com/takingsides for more details

Danny Dunn and the Homework Machine Raymond Abrashkin,Jay Williams,2016-01-21 Danny uses a computer that Professor Bulfinch has created for NASA to prepare his homework despite Professor Bulfinch s warning that Danny is to leave the machine alone With his friend Joe Pearson and his new neighbor Irene Miller Danny has some success with the machine before it is sabotaged Can Danny figure out what is wrong with the computer and fix it And will their teacher learn what s really going on with homework
