Romance, passion and intrigue on a pirate ship In this book, After the Battle have explored entirely new ground to investigate 150 years of murder and present it through our 'then and now' theme of comparison photographs. Scene of crime plans and photographs from police files focus on a wide variety of murders committed between 1812, when a Prime Minister was shot in the House of Commons, to killings on the streets of London in the 1960s. Far too often it is the perpetrator who is remembered while their victims, many lying in unmarked graves, remain lost to history. So this book sets out to redress the balance by tracking down the last resting places, even going as far as to

mark two wartime graves of taxi drivers killed by American servicemen. Homicide is not a subject for the faint-hearted and many of the photographs are distressing which is why the book is made available with that warning.

Return to a state of health, and feel like yourself again! MARY SHELLEY'S Frankenstein; or, The Modern Prometheus grew out of a parlor game and a nightmare vision. The story of the book's origin is a famous one, first told in the introduction Mary Shelley wrote for the 1831 edition of the novel. The two Shelleys, Byron, Mary's stepsister Claire Clairmont, and John William Polidori (Byron's physician) spent a "wet, ungenial summer in the Swiss Alps." Byron suggested that "each write a ghost story." If one is to trust Mary Shelley's account (and James Rieger has shown the untrustworthiness of its chronology and particulars), only she and "poor Polidori" took the contest seriously. The two "illustrious poets," according to her, "annoyed by the platitude of prose, speedily relinquished their uncongenial task." Polidori, too, is made to seem careless, unable to handle his story of a "skull-headed lady." Though Mary Shelley is just as deprecating when she speaks of her own "tiresome unlucky ghost story," she also

suggests that its sources went deeper. Her truant muse became active as soon as she fastened on the "idea" of "making only a transcript of the grim terrors of my waking dream": "'I have found it! What terrified me will terrify others.'" The twelve essays in this collection attest to the endurance of Mary Shelley's "waking dream." Appropriately, though less romantically, this book also grew out of a playful conversation at a party. When several of the contributors to this book discovered that they were all closet aficionados of Mary Shelley's novel, they decided that a book might be written in which each contributor-contestant might try to account for the persistent hold that Frankenstein continues to exercise on the popular imagination. Within a few months, two films--Warhol's Frankenstein and Mel Brooks's Young Frankenstein--and the Hall-Landau and Isherwood-Bachardy television versions of the novel appeared to remind us of our blunted purpose. These manifestations were an auspicious sign and resulted in the book Endurance of Frankenstein. The Cinema of Takeshi Kitano: Flowering Blood is a detailed aesthetic, Deleuzian, and phenomenological exploration of Japan's finest currently-working film director, performer, and celebrity. The volume uniquely explores

Kitano's oeuvre through the tropes of stillness and movement, becoming animal, melancholy and loss, intensity, schizophrenia, and radical alterity; and through the aesthetic temperatures of color, light, camera movement, performance and urban and oceanic space. In this highly original monograph, all of Kitano's films are given due consideration, including *A Scene at the Sea* (1991), *Sonatine* (1993), *Dolls* (2002), and *Outrage* (2010).

Bittersweet Journeys is a poetic anthology of my heart-felt experiences ranging in time from adolescence to the present. An experiment in "painting with words," it was written for the sheer delight of unfettered expression. My best poem, "The Sound of Madness," written in a state of despair induced by persistent and disturbing voicehearing, won second prize in a national poetry competition in 2010. Join accidental sleuth, Nick Morris, in his second mystery in *The Art of Murder* series. When an offer to paint a beautiful Georgian house in the Peak District falls into Nick Morris' lap he jumps at the commission. Businessman Derek Swann is selling up and wants a landscape to remember. But Nick's plans for a quiet stay in the countryside are scuppered when he and his chalet neighbour Megan Lamplighter find a body in the woods surrounding the holiday park. Rick Parrow seemed to be a troubled young

adult, with a dark cloud following him around in recent days, so when it turns out he was murdered, Nick feels compelled to seek out the truth. What was bothering Rick in the days before his death? What exactly was his connection to the bear-like figure of Jez Cooper, who was staying in a chalet up from Nick? And who could possibly have wanted the boy dead? Nick's attention is pulled in every direction - from his work at the manor house, and its captivating housekeeper Adela - to the many unsavoury characters now circling the holiday park and paying a little too much attention to Nick's movements. Nick must act fast if he wants to get out of this in one piece!

eldest brother, you have taken care of me since I was a child, but I will never lose my child. Eldest brother, I know you are doing it for my own good, but I can't leave my child, let alone Yaoting. You help me take care of my child. My father will plead guilty, even if I die, I will go with him ..."

A Tsing Yi woman knelt down with her child in her arms, and the color of perseverance in her eyes showed itself and said firmly Life Kills follows the dark journey and twisted mind ravines of a mysterious unnamed terrorist as he goes about his business. On his flight, stewards Bubbles and Sparkles, pilots Brad and Chad, and a bunch of burnt out z-list hackster

celebrities face their own particular brands of demons. The terrorist anti-hero faces terrible choices along the way, torn between burning passion and mindless passivity; and throughout, the Inflight Infotainment system lurks, ever present but becoming a more powerful and sinister force as the story unfolds. In short snapshots, *Life Kills* ridicules the many contradictions in the way people live their lives, with an authentic humour that belies the anger boiling beneath the surface. For hipsters, boomers, and anything in between. A girl experiments with the occult to keep her family together in this psychological thriller from the New York Times–bestselling author of *Dark Corners*. In a quiet house in the London suburb of Manningtree, fifteen-year-old Pup and his emotionally damaged older sister, Dolly, have become closer than ever since the death of their mother. Pup's bookish obsession with witchcraft gives their disordered life a sense of purpose. Dolly isn't sure what to expect from the talisman Pup makes her, until their father brings home a vulgar new wife. Then, Dolly, resentful and suddenly empowered, makes a deadly wish—the first of many. In a depressed neighborhood on the other side of town, a paranoid hermit has been questioned in a series of brutal murders. Lately, he's taken

to living in a tunnel behind a fort of mattresses, where he keeps his knives. Soon, his life and the lives of Pup and Dolly will converge. As one of them struggles toward something close to sanity, the other two will descend even further into darkness. "Only Rendell can show us how chillingly easy it is for ordinary people to slide into criminal behavior," and in *The Killing Doll*, the tumble is relentless (Oprah.com). "Rendell, who perfected the art of the truly suspenseful psychological thriller" is a three-time recipient of the Edgar Award, and the author of numerous bestsellers (The Boston Globe).
