High and Mighty Keith Bradsher,2004-01-19 SUVs have taken over America s roads Ad campaigns promote them as safer and greener than ordinary cars and easy to handle in bad weather But very little about the SUV s image is accurate They poorly protect occupants and inflict horrific damage in crashes they guzzle gasoline and they are hard to control Keith Bradsher has been at the forefront in reporting the calamitous safety and environmental record of SUVs including the notorious Ford Firestone rollover controversy In *High and Mighty* he traces the checkered history of SUVs showing how they came to be classified not as passenger cars but as light trucks which are subject to less strict regulations on safety gas mileage and air pollution He makes a powerful case that these vehicles are even worse than we suspect for their occupants for other motorists for pedestrians and for the planet itself In the tradition of *Unsafe at Any Speed* and *Fast Food Nation* Bradsher s book is a damning expos of an industry that puts us all at risk whether we recognize it or not

Engines and Other Apparatus of the Milwaukee Fire Department Wayne Mutza,2020-10-01 The vehicles and other firefighting equipment of the Milwaukee Fire Department, like the department itself, are unique among the fire service. It built more of its own apparatus than any other American city, and few can match the scope and character of apparatus used to serve and protect life and property in Milwaukee. Through detailed research, firsthand narratives, and captivating photos, the author walks the reader through the fascinating history of the incredible machines that served Cream City from the mid-nineteenth century to modern times. This volume traces the ever-changing face of Milwaukee's fire-fighting and life-saving equipment in parallel with the city's own history and growth. The fire department workshop's reputation for ingenuity is shown through its adaptations to disastrous fires that brought about changes in laws, economic growth, and decline; the establishment of Milwaukee's ethnic neighborhoods; the difficult transition from horses to motorization; the wartime and post-war experience; the corporate world of apparatus manufacturers; and Milwaukee's fireboat fleet.
