to make sure everyone around her is happy which is no easy feat when dealing with a pet fish with an identity crisis a friend who believes he came from another dimension an age old family feud and a sick mom But she is on a mission Her methods might be unique but Candice will do whatever it takes to restore order to her world and make sure everyone is absolutely categorically happy again The Library Screen Scene Renee Hobbs,Liz Deslauriers,Pam Steager,2019 In the past two decades several U S states have explored ways to mainstream media literacy in school curriculum However one of the best and most accessible places to learn this necessary skill has not been the traditional classroom but rather the library In an increasing number of school public and academic libraries shared media experiences such as film screening learning to computer animate and video editing promote community and a sense of civic engagement The Library Screen Scene reveals five core practices used by librarians who work with film and media viewing creating learning collecting and connecting With examples from more than 170 libraries throughout the United States the book shows how film and media literacy education programs library services and media collections teach patrons to critically analyze moving image media uniting generations cultures and communities in the process **Copyright and Collective Authorship** Daniela Simone,2019-05-31 As technology makes it easier for people to work together large scale collaboration is becoming increasingly prevalent In this context the question of how to determine authorship and hence ownership of copyright in collaborative works is an important question to which current copyright law fails to provide a coherent or consistent answer In Copyright and Collective Authorship Daniela Simone engages with the problem of how to determine the authorship of highly collaborative works Employing insights from the ways in which collaborators understand and regulate issues of authorship the book argues that a recalibration of copyright law is necessary proposing an inclusive and contextual approach to joint authorship that is true to the legal concept of authorship but is also more aligned with creative reality **Combustion Engineering** Kenneth W. Christopher Ralston,Justin Ho,2009-09-19 This project draws together the diverse strands of the debate regarding disability in a way never before combined in a single volume After providing a representative sampling of competing philosophical approaches to the conceptualization of disability as such the volume goes on to address such themes as the complex interplay between disability and quality of life questions of social justice as it relates to disability and the personal dimensions of the disability experience By explicitly locating the discussion of various applied ethical questions within the broader theoretical context of how disability is best conceptualized the volume seeks to bridge the gap between abstract philosophical musings about the nature of disease illness and disability found in much of the philosophy of medicine literature on the one hand and the comparatively concrete but less philosophical

discourse frequently encountered in much of the disability studies literature It also critically examines various claims advanced by disability advocates as well as those of their critics In bringing together leading scholars in the fields of moral theory bioethics and disability studies this volume makes a unique contribution to the scholarly literature while also offering a valuable resource to instructors and students interested in a text that critically examines and assesses various approaches to some of the most vexing problems in contemporary social and political philosophy
