

Figure 3

The curve C has parametric equations

$$x = \ln(t + 2), \quad y = \frac{1}{(t + 1)}, \quad t > -1.$$

The finite region R between the curve C and the x -axis, bounded by the lines with equations $x = \ln 2$ and $x = \ln 4$, is shown shaded in Figure 3.

(a) Show that the area of R is given by the integral

$$\int_0^2 \frac{1}{(t+1)(t+2)} dt. \tag{4}$$

(b) Hence find an exact value for this area. (6)

(c) Find a cartesian equation of the curve C , in the form $y = f(x)$. (4)

(d) State the domain of values for x for this curve. (1)

Analytic Combinatorics Philippe Flajolet,Robert Sedgewick,2009-01-15 Analytic combinatorics aims to enable precise quantitative predictions of the properties of large combinatorial structures The theory has emerged over recent decades as essential both for the analysis of algorithms and for the study of scientific models in many disciplines including probability theory statistical physics computational biology and information theory With a careful combination of symbolic enumeration methods and complex analysis drawing heavily on generating functions results of sweeping generality emerge that can be applied in particular to fundamental structures such as permutations sequences strings walks paths trees graphs and maps This account is the definitive treatment of the topic The authors give full coverage of the underlying mathematics and a thorough treatment of both classical and modern applications of the theory The text is complemented with exercises examples appendices and notes to aid understanding The book can be used for an advanced undergraduate or a graduate course or for self study

John Paul Stevens Bill Barnhart, Gene Schlickman,2010-04-21 During Justice Sonya Sotomayor s 2009 confirmation hearings the idea of biography played a high profile role in the debate How much does a person s experience affect his or her judicial opinions Should personal history be a key consideration when determining qualifications to sit on the highest court in the land In this impeccably researched book journalist Bill Barnhart and retired lawyer and former legislator Gene Schlickman paint a detailed portrait of Justice John Paul Stevens remarkable life and tenure on the Court Through vivid family history and a careful look at his work on the bench Barnhart and Schlickman offer the first biography of the second longest serving Supreme Court justice of the modern era one who has proudly earned the title of the Court s most prolific dissenter To provide a nuanced and multifaceted look at the justice Barnhart and Schlickman interviewed Stevens and an extraordinary number of Stevens friends and family members former clerks current colleagues politicians and court watchers They spoke with such public figures as former President Gerald Ford former Ford chief of staff Donald Rumsfeld and Justice Ruth Bader Ginsburg Interviews with Stevens children and one of his brothers provide personal insights into the man behind the robe Tales of his childhood of growing up in an affluent family in Chicago s Hyde Park neighborhood and of the family business including The Stevens Hotel now the Chicago Hilton and Towers create a rich portrait of the independent man and judge Intimate anecdotes from Stevens former law clerks reveal the lighter side of some of the most serious work in the country Barnhart and Schlickman also give careful consideration to Stevens career They trace his early years as a Chicago lawyer his

appointment to the federal appeals bench in Chicago and his ultimate nomination to the Supreme Court by Republican President Ford They examine his best known opinions including his emotional dissents in Texas v Johnson and Bush v Gore They trace his growth as a mold of Court decisions In an era of an increasingly politicized judiciary the story of Stevens life as a lawyer who joined the bench with no political or ideological baggage is an urgent reminder of the importance of judicial impartiality and the need to cultivate it This vibrant biography will be of interest to those fascinated by the inner workings of the Supreme Court as well as those who simply want to learn more about one of Chicago s favorite sons **Assessment Analytics in Education** Muhittin Sahin,
