

(ii) What is it contrasted with?

Answer: (i) "They" refers to the students centuries ago.

(ii) "Regular" means the usual for the people in 2157. Here, regular teacher means the mechanical teacher.

(iii) The mechanical teacher is contrasted with humans as teachers of earlier times.

III. Answer each of these questions in a short paragraph (about 30 words).

Question 1. What kind of teachers did Margie and Tommy have?

Answer: Margie and Tommy had mechanical teachers. The mechanical teachers had big screens on which all the lessons were shown and questions were asked. The children were taught through computer and television screens. They did not have humans as teachers.

Question 2. Why did Margie's mother send for the County Inspector?

Answer: Margie's mother sent for the County Inspector because the mechanical teacher of Margie was not functioning properly. It kept giving Margie Geography tests and Margie was performing worse every time. Margie's mother was concerned and thus sent for the County Inspector.

Question 3. What did he do?

Answer: The County Inspector smiled at Margie and gave her an apple. He took the mechanical teacher away from her. Then he fixed the mechanical teacher. He told Margie's mother that the geography sector of the mechanical teacher was geared a little too quick and that he has slowed it up to an average ten-year level.

Question 4. Why was Margie doing badly in geography? What did the County Inspector do to help her?

Answer: Margie was doing badly in geography because the questions that were displayed on the screen of the mechanical teacher were too quick for her age.

The County Inspector slowed its speed to an average ten-year level so that Margie would be able to perform satisfactorily.

Question 5. What had once happened to Tommy's teacher?

Answer: Tommy's teacher had to be taken away altogether for a month as the history sector had blanked out completely.

Question 6. Did Margie have regular days and hours for school? If so, why?

Answer: Yes, Margie had regular days and hours for school because Margie's mother believed that little girls learned better if they learned at regular hours.

Question 7. How does Tommy describe the old kind of school?

Answer: Tommy says that the old kind of school had special buildings. All the kids went to that building for studying.

Question 8. How does he describe the old kind of teachers?

Answer: He tells Margie that the old kind of teachers were humans instead of machines. The human teacher would educate the boys and girls and give them homework and ask questions.

IV. Answer each of these questions in two or three paragraphs (100 –150 words).

Question 1: What are the main features of the mechanical teachers and the schoolrooms that Margie and Tommy have in the story?
