Here he expounds on how people just about everyone can take back complete control over their lives. The new technique is based on his own life experiences and the valuable lessons he learned from them. Power Plan 101 introduces everyone to the method Williams has personally used to reach his goal and plan in life which is to be happy. Nothing comes before the goal and the goal is to be happy.

The Origins Of Neuro Linguistic Programming John Grinder, 2013-05-09

The Origins of NLP brings together the recollections and thoughts of some of the main protagonists from the very early days of NLP. In 1971 Richard Bandler and Frank Pucelik were students at Kresge College at the University of California Santa Cruz. They had a strong mutual interest in Gestalt Therapy. Frank because of his traumatic time in Vietnam and because he had been working with some disaffected and drug addicted kids and Richard because he had been working with Science and Behavior Books on transcribing and editing Fritz Perls' seminal work *The Gestalt Approach and Eyewitness to Therapy*. They started a local Gestalt group and ran 2-3 sessions a week collaborating and experimenting with the language of therapy. They started achieving some brilliant results but were having problems transferring their skills to others and so Richard invited one of their college professors John Grinder to observe what they were doing in order that he would hopefully be able to deconstruct what they were doing that was so effective. John was a professor of Linguistics and was instantly impressed with the work that they were doing. He was able to add more structure and in due course the three of them formalised what is now known as the Meta Model NLP or Meta as it was known then was born.

[Time Line Therapy and the Basis of Personality](#) Tad James, 2017-10-10

Written by Tad James and Wyatt Woodsmall. *Time Line Therapy and the Basis of Personality* is a compelling study of the important elements that make up a person's core personality and a detailed exploration of and introduction to how Time Line therapy works in practice. Utilizing discoveries made by Richard Bandler, *Time Line Therapy and the Basis of Personality* expands and updates our knowledge of how people actually store their memories and sheds light on the effect that the system used for memory storage has on the individual. The authors contend that the concept of Time Line or the notion of time that you have stored in your mind shapes and structures your experience of the world and consequently shapes your personality. Time Line therapy is therefore based on the premise that the client goes back to the first time they remember a particular problem does change work utilizing Neuro Linguistic Programming NLP to eliminate irritating behaviors or issues and if necessary goes to subsequent times when their behavior or response was a problem and undertakes further change work to resolve it. Written in an informative and engaging manner, *Time Line Therapy and the Basis of Personality* offers readers the opportunity to see how Time Line therapy works providing a clear description of how to elicit the Time Line and sharing step by step methods to subsequently help the client to release a limiting decision or trauma, remove anxiety or set a future goal. All of these key aspects are explained using clear language and easy to follow.
