Get real-life practice in insurance billing and coding! Corresponding to the chapters in Fordney's Insurance Handbook for the Medical Office, 12th Edition, this workbook provides realistic, hands-on exercises that help you apply concepts and develop important critical-thinking skills. Study tools include chapter overviews, key terms, chapter review exercises, and workbook assignments. A companion Evolve website includes patient simulations for additional practice in real-world billing. Online Student Software Challenge contains 10 patient cases that you can use to complete the CMS-1500 claim form. Performance objectives make learning easier by highlighting what you need to accomplish in each chapter. Key Terms and Key Abbreviations provide a quick reference to the health insurance terminology you need to know. Study outline focuses your review by listing key points for each chapter in the textbook. Self-study review exercises include matching, true/false, multiple-choice, and fill-in-the-blank questions to help you practice and remember important material. Critical-thinking assignments help you apply theory to practice, using short, real-world scenarios to prepare you for working in today's medical office. Evolve resources include the Student Software Challenge, self-assessment quizzes, and web links for further research and study. Updated content ensures that you review and practice using the latest guidelines and regulations for insurance billing and coding. A bestseller for over 25 years, this text helps users excel at all aspects of insurance billing: submitting, tracing, appealing, and transmitting claims. Its comprehensive coverage also includes important information on diagnostic coding, procedural coding, office and insurance collection strategies, Medicare, Managed Care, and more. This edition has been reviewed by industry experts and carefully updated to reflect recent changes in the industry - including the addition of special HIPAA Compliance Alerts throughout the book to help users comply with important governmental privacy regulations. Instructor resources are available; please contact your Elsevier sales representative for details. Icons help students identify each insurance payer with a specific color and graphic, making the learning process more effective. Emphasizes procedural (CPT and HCPCS) and diagnostic (ICD-9-CM) coding and documentation since they are the keystones to obtaining maximum reimbursement. Block-by-block teaching approach organized by payer category for the CMS-1500 claim form facilitates understanding, effective learning, and greater productivity. Detailed examples and samples of completed insurance forms help students see how knowledge is applied in the real world. Accompanying CD-ROM of practice software bound in the back of the book features the CMS-1500 claim form and 10 scored patient case studies with related insurance information to simulate real-life situations. Updated to reflect recent changes in the industry. Special sections highlight areas pertinent to HIPAA regulations. You will find the answer to every question that may arise regarding life insurance and how it relates to qualified plans and estate planning in Life Insurance Answer Book . This easy-to-use resource guides you expertly through all aspects of life insurance from design and structure to implementation and administration. Rules and regulations are also clearly outlined to ensure that you're complying with the applicable federal and state requirements. More than 1000 questions are thoroughly explained, covering such topics as: Legal requirements of insurance Life insurance as it relates to qualified plans Fiduciary responsibilities of employers, trustees, and administrators Regulations governing insurance contracts Department of Labor and IRS disclosure and reporting guidelines Records retention Life insurance as it relates to estate planning and other benefits and more! Gain real-world practice in insurance billing and coding! Corresponding to the chapters in Fordney's Medical Insurance, 15th Edition, this workbook provides realistic, hands-on exercises that help you apply concepts and develop critical thinking skills. Study tools include chapter overviews, key terms, chapter review exercises, and case study assignments. Additionally, this workbook helps you develop a better understanding of the differences among the insurance programs when completing and electronically transmitting the 837 P or the CMS-1500 paper claim. Key terms and abbreviations lists at the beginning of each chapter provide a quick reference to the health insurance terminology you need to know. Performance objectives make learning easy by highlighting what you need to accomplish in each chapter. Study outlines focus review by listing key points for each chapter. Self-study exercises – including matching, true/false, multiple-choice, mix and match, and fill-in-the-blank questions – help you practice important concepts. Critical Thinking Assignments in the form of short, real-world vignettes prepare you for working in a real medical office and allow you to apply theory learned from the textbook. NEW! Expanded coverage of inpatient insurance billing, including ICD-10 coding and CMS provides you with the foundation and skills needed to work in the physician office, outpatient, and inpatient setting. NEW! Ambulatory Surgical Center (ASC) billing chapter provides you with the foundation and skills needed to work in this outpatient setting. NEW! Updated information on general compliance issues, HIPAA, Affordable Care Act and coding reflects changes to the main text. *Amazon Bestseller in Life Insurance* A user-friendly guide to making expert decisions on life insurance policies Need help facing the constant barrage of information from competing life insurance companies? With thirty-five years of experience in the life insurance business, Tony Steuer delivers a practical, one-of-a-kind resource for anyone involved in choosing or monitoring a life insurance policy. This guide helps

make a complex financial product understandable for consumers and is an essential reference, textbook, and training manual for financial advisors. Using a simple question-and-answer format, Steuer covers the essential basics and the finer points of life insurance, including how to: Differentiate between types of policies Find and evaluate a policy and company Hire a trusted agent Understand the practice of underwriting Monitor a policy's performance With all the advice to help you avoid unnecessary pitfalls and unpleasant surprises, Steuer's guide will help you make informed, confident decisions and gain the maximum benefit from your life insurance policy. Corresponding to the chapters in Health Insurance Today, 7th Edition, this workbook gives you practice with the skills you will need to succeed as a health insurance professional. Practical assignments reinforce the information in the text, and engaging learning activities and exercises challenge you to apply your knowledge to real-world situations. This edition expands its focus on case studies and the use of practice management software, adding more opportunities for application in the medical office. Performance-based activities include hands-on, application-based learning exercises that provide practice in areas such as completing claim forms, posting payments to a patient's ledger, filling out Release to Return to Work forms, and filling out Medicare appeals. Critical thinking activities strengthen your ability to apply health insurance concepts to a variety of challenging situations, with Stop and Think exercises allowing you to apply critical thinking skills to solve a problem or answer a question. Chapter assessments test your knowledge with multiple choice, true/false, short answer, fill-in-the-blank, and matching questions. Problem-solving and collaborative (group) activities emphasize the importance of teamwork in the healthcare field. Case studies ask you to solve a real-world problem related to health insurance, such as completing a CMS-1500 claim form or explaining how HIPAA could affect someone recently out of work. Application exercises ask you to apply your knowledge and skills to real-world situations. In-class projects and discussion topics enhance your understanding of specific content from the text. Internet Exploration exercises in each chapter help you learn how to perform research online. Defining Chapter Terms activities help you review and understand the key terms in each chapter. NEW! Up-to-date information is included on all topics, including key topics like Medicare. NEW and expanded case studies and Internet Exploration activities are added. NEW! Additional performance objectives are included, using practice management software. NEW! Updated charts and forms are included. A complete guide to insurance billing and coding, Insurance Handbook for the Medical Office, 13th Edition covers all the plans that are most commonly encountered in clinics and physicians' offices. Its emphasis on the role of the medical insurance specialist includes areas such as diagnostic coding, procedural coding, Medicare, HIPAA, and bill collection strategies. Learning to fill in the claim form accurately is made easier by the use of icons for different types of payers, lists of key abbreviations, and numerous practice exercises. This edition provides the latest on hot topics such as ICD-10, healthcare reform, the new CMS-1500 form, and electronic claims. Trusted for more than 30 years, this proven reference from Marilyn Fordney prepares you to succeed as a medical insurance professional in any outpatient setting. Emphasis on the business of running a medical office highlights the importance of the medical insurance specialist in filing clean claims, solving problems, and collecting overdue payments. Key terms and key abbreviations are defined and emphasized, reinforcing your understanding of new concepts and terminology. Detailed tables, boxes, and illustrations call out key points and main ideas. Unique! Color-coded icons clarify information, rules, and regulations for different payers. An Evolve companion website enhances learning with performance checklists, self-assessment quizzes, and the Student Software Challenge featuring cases for different payer types and an interactive CMS-1500 form to fill in. A workbook contains learning tips, practice exercises for key terms and abbreviations, review questions, study outlines, performance objectives, a chapter with practice tests, and critical thinking activities for hands-on experience with real-world cases. Available separately. Updated coverage of key health insurance topics includes HIPAA compliance, the HITECH Act, health reform of 2010, electronic health records, electronic claims, ICD-10, NUCC standards, Physician Quality Reporting System (PQRS) Incentive Program, Meaningful Use, and CPT 2013. Updated ICD-10 coding information prepares you for the October 2014 ICD-10 implementation date. Updated content on claim forms includes block-by-block explanations and examples for the new CMS-1500 Claim Form. Updated guidelines for the filing and submission of electronic claims include sample screenshots and prepare you for the future of the medical office. Business Liability Insurance Answer Book 2012-2013 contains answers to those common insurance issues that plague business owners and managers. Intended to be an easy reference guide that non-lawyers and business people could consult for use in risk management planning, Business Liability Insurance Answer Book 2012 13 addresses the most common forms of business liability insurance. Being held personally liable for a business-related decision is the nightmare of every company manager, officer and director. As a result of the recent economic downturn, the number of cases being brought against businesses and the people who run them has surged. Business Liability Insurance Answer Book 2012 13 provides a concise roadmap to the kinds of issues being litigated, and the types of liability insurance available to protect against suit and cover losses in the event of a successful recovery. Written in a clear and direct Q&A format, Business Liability Insurance Answer Book 2012 13 is a handy softcover volume that will be of interest to lawyers and other legal professionals, as well as the corporate managers, officers, directors and other employees whose liability the type of insurance protects against." Corresponding to the chapters in Beik's Health Insurance Today, 8th Edition, this workbook lets you practice the skills you will need to succeed as a health insurance professional. Practical assignments reinforce the information in the text, and engaging learning activities and case studies challenge you to apply your knowledge to real-world situations. This edition adds up-to-date coverage of cybersecurity, COVID-19, crowdfunding for medical bills, and more. Performance-based activities include hands-on, application-based learning exercises that provide practice in areas such as completing claim forms, posting payments to a patient's ledger, filling out Release to Return to Work forms, and filling out Medicare appeals. Critical thinking activities strengthen your ability to apply health insurance concepts to a variety of challenging situations. Chapter assessments test your knowledge with multiple choice, true/false, short answer, fill-in-the-blank, and matching questions. Problem-solving and collaborative (group) activities emphasize the importance of teamwork in the healthcare field. Case studies ask you to solve real-world problems related to health insurance, such as completing a CMS-1500 claim form or explaining how HIPAA could affect someone recently out of work. Application exercises ask you to apply your knowledge and skills to real-world situations. In-class projects and discussion topics enhance your understanding of specific content from the text. Internet Exploration exercises in each chapter help you learn how to perform and evaluate research online. Defining Chapter Terms activities help you review and understand the key terms in each chapter. NEW! Additional content on cybersecurity emphasizes the importance of keeping digital information private and secure. NEW! Information on crowdfunding for medical bills discusses how this practice affects billing. NEW! Interactive VST eBook provides a seamless digital experience. NEW! Coverage of COVID-19 explores its impact on billing, reimbursement, and employment. This easy-to-use guide will help you manage a cost-effective health insurance plan and ensure that your decisions are in compliance with constantly changing health care legislation. The Health Insurance Answer Book offers instant access to information on everything from HMOs, PPOs, COBRA, OBRA, and flexible benefits to plan rating, funding, cost containment, and administration. Its question-and-answer format speeds you to realistic strategies and solutions in seconds. Because the book is updated annually, you'll be sure to stay informed on newly enacted and pending legislation. For example, you'll get concise, jargon-free coverage of the Health Insurance Portability and Accountability Act of 1996 (HIPAA), changes in the Medicare payroll tax, pharmacy benefit management, reduced reimbursements for physicians and hospitals, workers' compensation, Medigap policies, self-insurance, and third-party administration. With an emphasis on preparing and filing claims electronically, Health

Insurance Today, 4th Edition features completely updated content on ICD-10 coding, ARRA, HI-TECH, Version 5010, electronic health records, the Health Insurance Reform Act, and more. The friendly writing style and clear learning objectives help you understand and retain important information, with review questions and activities that encourage critical thinking and practical application of key concepts. Clear, attainable learning objectives help you focus on the most important information. What Did You Learn? review questions allow you to ensure you understand the material already presented before moving on to the next section. Direct, conversational writing style makes reading fun and concepts easier to understand. Imagine This! scenarios help you understand how information in the book applies to real-life situations. Stop and Think exercises challenge you to use your critical thinking skills to solve a problem or answer a question. HIPAA Tips emphasize the importance of privacy and following government rules and regulations. Chapter summaries relate to learning objectives, provide a thorough review of key content, and allow you to quickly find information for further review. Key coverage of new topics includes medical identity theft and prevention, National Quality Forum (NQF) patient safety measures, ACSX12 Version 5010 HIPAA transaction standards, EMS rule on mandatory electronic claims submission, and standards and implementation specifications for electronic health record technology. Increased emphasis on producing and submitting claims electronically gives you an edge in today's competitive job market. UPDATED! Additional ICD-10 coding content prepares you for the upcoming switch to the new coding system. NEW! Content on ARRA, HI-TECH, and the Health Insurance Reform Act ensures you are familiar with the latest health care legislation and how it impacts what you do on the job. Trusted by medical insurance specialists for more than 30 years, Insurance Handbook for the Medical Office helps you excel at all aspects of insurance billing for a full range of today's health care plans. This edition helps you keep pace with industry changes, featuring the latest information on HIPAA regulations, diagnostic coding, procedural coding, office and insurance collection strategies, Medicare, and more. The accompanying Student Workbook with CD-ROM (sold separately) lets you practice "real world" billing with patient simulations using Altapoint and the Student Software Challenge. Procedural (CPT and HCPCS) and diagnostic (ICD-9-CM) coding and documentation are emphasized, since they are the keystones to obtaining maximum reimbursement. Key terms are bolded at first mention, explained within the context of the discussion, and defined in the glossary. Separate chapters on Electronic Data Interchange and HIPAA Compliance and Privacy in Insurance Billing provide essential knowledge of electronic claims filing, informing you of submission guidelines used in the majority of medical offices today. Icons clearly identify each insurance payer with a specific color and graphic, making specific information easy to locate. Compliance features located at appropriate points throughout most chapters offer tips to ensure compliance with correct billing and coding practice, particularly HIPAA and OIG. A separate chapter on documentation in the medical office describes how proper documentation can prevent penalties and refund requests, and help you prove compliance in the case of an audit or review. Detailed examples and samples of completed insurance forms show you how to apply knowledge in the real world. Emphasis on the business of running a medical office highlights the importance of the medical insurance specialist's role in filing clean claims, solving problems that do occur, and collecting overdue payments. Service to Patient feature throughout the chapters focuses on ways to provide quality service to the patient as well as your co-workers. All content has been reviewed by industry experts and meticulously updated to reflect recent changes in insurance claim filing. In addition to the list of key terms at the beginning of each chapter, a separate list of key abbreviations clarifies common terms identified in the field primarily by their abbreviations. Key points at the end of each chapter briefly summarize important chapter content to help you better understand the subject matter. Practice the skills you'll need to succeed in health insurance billing! Corresponding to the chapters in Health Insurance Today, 3rd Edition, by Janet I. Beik, this workbook offers preparation for the tasks you'll encounter on the job. Practical assignments reinforce the information in the textbook, and learning activities and exercises ask you to apply your knowledge to real-world situations. Defining Chapter Terms ask you to define the key terms in each chapter. Chapter assessments test your knowledge of textbook content with multiple choice, true/false, short answer, and fill-in-the-blank questions. More than 60 case studies ask you to solve a real-world problem related to health insurance, such as completing a CMS-1500 claim form or explaining how HIPAA could affect someone recently out of work. Critical Thinking activities strengthen your ability to apply health insurance concepts to a variety of challenging situations. Group problem solving activities emphasize the importance of teamwork in the health care field. Internet Exploration exercises in each chapter introduce valuable health insurance resources available online. Performance objectives include hands-on, application-based learning activities with practice in areas such as completing claim forms, posting payments to a patient's ledger, filling out "Release to Return to Work" forms, and filling out Medicare appeals. Application exercises ask you to apply your knowledge and skills to real-world situations. Additional coding exercises offer more practice with coding from the ICD-9-CM and CPT manuals. Self-evaluations include a checklist of what you should have completed for each chapter. Performance evaluations in each chapter track your progress and your overall performance in the course. Updated Conquering Medicare's Challenges chapter reflects the latest changes to Medicare. Coverage of the Electronic Health Record has been added to The Role of Computers in Health Insurance chapter. ICD-10-CM and ICD-10-PCS content has been expanded to address medical coding's transition from ICD-9. Information on the latest standards for HIPAA Transaction 5010 is included. On the companion Evolve website: Medisoft version 16 exercises let you apply skills using standard medical office software (Medisoft sold separately). Electronic forms make it easy to complete workbook exercises on the computer and turn in clean claim forms to your instructor. Guided Completion software gives direction and corrects your work as you complete a CMS-1500 form block-by-block. AN EASY-TO-FOLLOW GUIDE FOR MAKING THE BEST DISABILITY INSURANCE DECISIONS Need help understanding what disability insurance is and why it's a critical way to protect your financial future? The Insurance Adjuster Success Guide is an awesome tool to use before the semester as it will help you develop a strong working Insider Language before you even enter the class. Learn the Secret to Success on the Insurance Adjuster Exam! Business Liability Insurance Answer Book provides a concise roadmap to the kinds of issues being litigated, and the types of liability insurance available to protect against suit and cover losses in the event of a successful recovery. Stay up on the latest in insurance billing and coding with Marilyn Fordney's Insurance Handbook for the Medical Office, 14th Edition. Trusted for more than 30 years, this market-leading handbook equips you to succeed as medical insurance specialist in any of today's outpatient settings. Coverage emphasizes the role of the medical insurance specialist in areas such as diagnostic coding, procedural coding, Medicare, HIPAA, and bill collection strategies. As with previous editions, all the plans that are most commonly encountered in clinics and physicians offices are incorporated into the text, as well as icons for different types of payers, lists of key abbreviations, and numerous practice exercises that assist you in accurately filling out claim forms. This new edition also features expanded coverage of ICD-10, electronic medical records, electronic claims submission, and the HIPAA 5010 - keeping you one step ahead of the latest practices and protocols of the profession. Key terms are defined and emphasized throughout the text to reinforce understanding of new concepts and terminology. Separate chapter on HIPAA Compliance in Insurance Billing, as well as Compliance Alerts throughout the text highlights important HIPAA compliance issues to ensure readers are compliant with the latest regulations. Emphasis on the business of running a medical office and the importance of the medical insurance specialist details the importance of the medical insurance specialist in the business of the medical office. Increased focus on electronic filing/claims submission prepares readers for the industry-wide transition to electronic claims submission. Separate chapter on documentation in the medical office covers the principles of medical documentation and the rationales for it. "Service to Patient" features in most chapters offer examples of good customer service. User resources on the Evolve companion website feature performance checklists, self-assessment quizzes, the Student Software Challenge (with cases on different payer types and an interactive CMS-1500 (02-12) form to fill in). NEW Expanded coverage of ICD-10 prepares users to code ICD-10 with the planned effective date of October 2015. NEW Added information on the electronic medical record and electronic claims submission - including information on the HIPAA 5010 - equips users for the transition between paper and electronic methods of medical records and links the CMS-1500 (02-12) form to the electronic submissions process. NEW SimChart for the Medical Office (SCMO) application activities on the companion Evolve website adds additional functionality to the insurance module on the SCMO roadmap." A user-friendly guide to making expert decisions on life insurance policies. Gain real-world practice in insurance billing and coding! Corresponding to the chapters in Fordney's Medical Insurance, 15th Edition, this workbook provides realistic, hands-on exercises that help you apply concepts and develop critical thinking skills. Study tools include chapter overviews, key terms, chapter review exercises, and case study assignments. Additionally, this workbook helps you develop a better understanding of the differences among the insurance programs when completing and electronically transmitting the 837 P or the CMS-1500 paper claim. Key terms and abbreviations lists at the beginning of each chapter provide a quick reference to the health insurance terminology you need to know. Performance objectives make learning easy by highlighting what you need to accomplish in each chapter.? Study outlines focus review by listing key points for each chapter. Self-study exercises - including matching, true/false, multiple-choice, mix and match, and fill-in-the-blank questions - help you

practice important concepts. Critical Thinking Assignments in the form of short, real-world vignettes prepare you for working in a real medical office and allow you to apply theory learned from the textbook. NEW! Expanded coverage of inpatient insurance billing, including ICD-10 coding and CMS provides you with the foundation and skills needed to work in the physician office, outpatient, and inpatient setting.?? NEW! Ambulatory Surgical Center (ASC) billing chapter provides you with the foundation and skills needed to work in this outpatient setting.? NEW! Updated information on general compliance issues, HIPAA, Affordable Care Act and coding reflects changes to the main text. Need help understanding what disability insurance is and why it's a critical way to protect your financial future? With decades of experience in the insurance business, Tony Steuer and Maxwell Schmitz deliver a practical resource for choosing the best disability insurance policy for you, whether you currently have a policy or not. Step-by-step, they lead you through the process of making key disability insurance decisions and understanding important factors. Corresponding to the chapters in Health Insurance Today, 7th Edition, this workbook gives you practice with the skills you will need to succeed as a health insurance professional. Practical assignments reinforce the information in the text, and engaging learning activities and exercises challenge you to apply your knowledge to real-world situations. This edition expands its focus on case studies and the use of practice management software, adding more opportunities for application in the medical office. Performance-based activities include hands-on, application-based learning exercises that provide practice in areas such as completing claim forms, posting payments to a patient's ledger, filling out Release to Return to Work forms, and filling out Medicare appeals. Critical thinking activities strengthen your ability to apply health insurance concepts to a variety of challenging situations, with Stop and Think exercises allowing you to apply critical thinking skills to solve a problem or answer a question. Chapter assessments test your knowledge with multiple choice, true/false, short answer, fill-in-the-blank, and matching questions. Problem-solving and collaborative (group) activities emphasize the importance of teamwork in the healthcare field. Case studies ask you to solve a real-world problem related to health insurance, such as completing a CMS-1500 claim form or explaining how HIPAA could affect someone recently out of work. Application exercises ask you to apply your knowledge and skills to real-world situations. In-class projects and discussion topics enhance your understanding of specific content from the text. Internet Exploration exercises in each chapter help you learn how to perform research online. Defining Chapter Terms activities help you review and understand the key terms in each chapter. NEW! Up-to-date information is included on all topics, including key topics like Medicare. NEW and expanded case studies and Internet Exploration activities are added. NEW! Additional performance objectives are included, using practice management software. NEW! Updated charts and forms are included. NEW! Additional procedures provide more practice, helping you remember the material.
