Celebrating all the beautiful browns in one child's colorful family Mama's brown is chocolate, clear, dark, and sweet. Daddy's brown is autumn leaf, or like a field of wheat. Granny's brown is like honey, and Papa's like caramel. In this loving and lovely ode to the color brown, a boy describes the many beautiful hues of his family, including his own—gingerbread. With a "knack for romantic tension and page-turning suspense, this one is a winner." The year 1920 comes in with a roar in this

rousing and suspenseful New York Times bestselling novel by Sandra Brown. Prohibition is the new law of the land, but murder, mayhem, lust, and greed are already institutions in the Moonshine Capitol of Texas (Booklist, starred review). Thatcher Hutton, a war-weary soldier on the way back to his cowboy life, jumps from a moving freight train to avoid trouble . . . and lands in more than he bargained for. On the day he arrives in Foley, Texas, a local woman goes missing. Thatcher, the only stranger in town, is suspected of her abduction, and worse. Standing between him and

exoneration are a corrupt mayor, a crooked sheriff, a notorious cathouse madam, a sly bootlegger, feuding moonshiners . . . and a young widow whose soft features conceal an iron will. What was supposed to be a fresh start for Laurel Plummer turns to tragedy. Left destitute but determined to dictate her own future, Laurel plunges into the lucrative regional industry, much to the dislike of the good ol' boys, who have ruled supreme. Her success quickly makes her a target for cutthroat competitors, whose only code of law is reprisal. As violence erupts, Laurel and—now deputy—Thatcher

find themselves on opposite sides of a moonshine war, where blood flows as freely as whiskey. Includes a Reading Group Guide. "What Brothers Do" is the true story of two brothers. The first is Captain Patrick Brown, a highly decorated and well respected member of the New York City Fire Department, who was killed in the World Trade Center attacks of 9/11. The second is Michael Brown, a former New York City firefighter and presently a Las Vegas emergency medicine physician. The story takes the reader on Michael's journey back to New York and Ground Zero in the desperate search

for his brother and his experiences through post 9/11 New York. Michael is told by all who knew his brother that if anyone could get out of the Towers alive it would be Patrick. As he slowly loses hope of finding his brother alive, Michael changes his focus and determination to fulfilling his brother's last wishes. In his attempt to honor Patrick, Michael must work through his anger and grief and overcome serious personal challenges. But, he finds friendship and support in an inner circle of new friends, reconnects with family members and discovers that Patrick's spirit lives on. ABOUT

THE AUTHORMichael Everett Brown, M.D., is a board-certified emergency medicine physician practicing in Las Vegas, Nevada, where he resides with his wife Janet and their four dogs. Born and raised in the New York metropolitan area, he was a volunteer firefighter in Westbury, Long Island, for more than 12 years and a New York City firefighter in Harlem's Engine Company 37 for four years. He is currently a member of the Nevada Task Force One Urban Search and Rescue Team. In 2001, he received a U.S. Congressional Recognition Award for "selfless acts and commitment to

Power Supply Cookbook, Second Edition provides an easy-to-follow, step-by-step design framework for a wide variety of power supplies. With this book, anyone with a basic knowledge of electronics can create a very complicated power supply design in less than one day. With the common industry design approaches presented in each section, this unique book allows the reader to design linear, switching, and quasi-resonant switching power supplies in an

organized fashion. Formerly complicated design topics such as magnetics, feedback loop compensation design, and EMI/RFI control are all described in simple language and design steps. This book also details easy-to-modify design examples that provide the reader with a design template useful for creating a variety of power supplies. This newly revised edition is a practical, "start-to-finish" design reference. It is organized to allow both seasoned and inexperienced engineers to quickly find and apply the information they need. Features of the new edition

include updated information on the design of the output stages, selecting the controller IC, and other functions associated with power supplies, such as: switching power supply control, synchronization of the power supply to an external source, input low voltage inhibitors, loss of power signals, output voltage shut-down, major current loops, and paralleling filter capacitors. It also offers coverage of waveshaping techniques, major loss reduction techniques, snubbers, and quasi-resonant converters. Guides engineers through a step-by-step design framework for a wide variety of

power supplies, many of which can be designed in less than one day. Provides easy-to-understand information about often complicated topics, making power supply design a much more accessible and enjoyable process. A book compiled of anecdotes from other collections, arranged under the name of the person they're about. "You won't leave this hypnotic book without feeling that James Brown is still out there, howling."—The Boston Globe From the New York Times bestselling author of *The Good Lord Bird*, winner of the 2013 National Book Award for Fiction, Deacon King Kong,

and Five-Carat Soul Kill 'Em and Leave is more than a book about James Brown. Brown embodied the contradictions of American life: He was an unsettling symbol of the tensions between North and South, black and white, rich and poor. After receiving a tip that promises to uncover the man behind the myth, James McBride goes in search of the "real" James Brown. McBride's travels take him to forgotten corners of Brown's never-before-revealed history, illuminating not only our understanding of the immensely troubled, misunderstood, and complicated Godfather of Soul, but the ways in

which our cultural heritage has been shaped by Brown's enduring legacy. Praise for Kill 'Em and Leave "A tour de force of cultural reportage."—The Seattle Times "Thoughtful and probing."—The New York Times Book Review "Masterly . . . powerful."—Los Angeles Review of Books "McBride provides something lacking in most of the books about James Brown: an intimate feeling for the musician, a veracious if inchoate sense of what it was like to be touched by him. . . . It may be as close [to 'the real James Brown'] as we'll ever get."—David Hajdu, The Nation "A feat of intrepid

journalistic fortitude."—USA Today "[McBride is] the biographer of James Brown we've all been waiting for. . . . McBride's true subject is race and poverty in a country that doesn't want to hear about it, unless compelled by a voice that demands to be heard."—Boris Kachka, New York "Illuminating . . . engaging."—The Washington Post "A gorgeously written piece of reportage that gives us glimpses of Brown's genius and contradictions."—O: The Oprah Magazine The Little, Brown Essential Handbook offers students the essential information they need to develop basic writing,

MARKET: An essentials handbook suitable for use as a student reference and text for composition courses offered at the college and university level. In the tradition of Octavia Butler, here is radical self-help, society-help, and

planet-help to shape the futures we want. Change is constant. The world, our bodies, and our minds are in a constant state of flux. They are a stream of ever-mutating, emergent patterns. Rather than steel ourselves against such change, Emergent Strategy teaches us to map and assess the swirling structures and to read them as they happen, all the better to shape that which ultimately shapes us, personally and politically. A resolutely materialist spirituality based equally on science and science fiction: a wild feminist and afro-futurist ride!

adrienne maree brown, co-editor of

Octavia's Brood: Science Fiction from Social Justice Movements, is a social justice facilitator, healer, and doula living in Detroit. Caroline, known as "Lina" to her family, has always lived in the shadow of her older brother William Herschel's accomplishments. And yet when William invites Lina to join him in England to assist in his musical and astronomical pursuits—not to mention to run his bachelor household—she accepts, finding a new sense of purpose. William may be an obsessive genius, but Lina adores him, and aids him with the same fervency as a

beloved wife. When William decides to marry, however, Lina's world collapses. As she attempts to rebuild a future, we witness the dawning of an early feminist consciousness—a woman struggling to find her own place among the stars. State-of-the-art action in the air, on land and at sea as the USA is drawn into conflict with China in this compelling and authentic new tale from an acclaimed master of the modern action-thriller. Dale Brown's spectacular new international bestseller -- packed with high-action entertainment, cutting-edge technology and breathtaking scenes

of aerial combat -- looks forward to a near future where Taiwan's declaration of independence from mainland China brings a very real threat of major conflict to the Pacific. As China prepares its military response, the US president attempts to avert an international crisis by calling on his own tried and trusted secret strike force. But soon it becomes horribly apparent that with China and the USA moving ever closer to a nuclear showdown, it could be a mission too far for Patrick McLanahan, Brad Elliott, Jon Masters and their high-tech EB-52 Megafortress -- the 'Old Dog' itself.

The Fosco Ferrous Foundryman's Handbook is a practical reference book for all those concerned with making castings in any of the commonly used alloys, by any of the usual moulding methods. Metric and Imperial units are given. Wherever possible, Casting Alloy Specifications include equivalent specifications for several countries as well as international specifications. Individual chapters cover the casting of light alloys, copper-based alloys, all types of cast-iron and steel. For each group of alloys, specifications and typical applications are described, together with details of melting practice, metal treatment and casting practice. based artist who rose to prominence in the late 1990s. Originally influenced by Cubism and Abstract Expressionism, Brown has over the years developed her unique voice, which investigates the sensual qualities of oil paint and portraiture through a satirizing and celebratory process inspired both by abstraction and realism. Gentle and yet forceful, Brown's exuberant brushwork, rich palette, intense energy, and black humor have redefined some of painting's historical canons. From the disability rights advocate and creator of the #DisabledAndCute viral campaign, a

thoughtful, inspiring, and charming collection of essays exploring what it means to be black and disabled in a mostly able-bodied white America. Keah Brown loves herself, but that hadn't always been the case. Born with cerebral palsy, her greatest desire used to be normalcy and refuge from the steady stream of self-hate society strengthened inside her. But after years of introspection and reaching out to others in her community, she has reclaimed herself and changed her perspective. In *The Pretty One*, Brown gives a contemporary and relatable voice to the disabled—so often portrayed as

mute, weak, or isolated. With clear, fresh, and light-hearted prose, these essays explore everything from her relationship with her able-bodied identical twin (called “the pretty one” by friends) to navigating romance; her deep affinity for all things pop culture—and her disappointment with the media’s distorted view of disability; and her declaration of self-love with the viral hashtag #DisabledAndCute. By “smashing stigmas, empowering her community, and celebrating herself” (Teen Vogue), Brown and The Pretty One aims to expand the

conversation about disability and inspire self-love for people of all backgrounds. Now,

based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right

answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we

have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 500 companies all ask

the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and

showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership. All of us have what it takes to make it in today's competitive and changing world. You may have doubted your ability to get the job done in the past, but something else may have been in the way of your success. The key to achievement has

little to do with your education or skill level. The secret to accomplishing great things is simple: find and pursue the kind of work you are meant to do - your purpose. There are so many opportunities, it's difficult to choose, but understanding your life's real purpose will give you the power to have anything you want. So ask yourself: "What do I really want out of my life?" Les Brown will not only help you answer that question, he will also lead you step-by-step toward making each and every one of your dreams come true. Brown also tells the story of these soldiers' parents, immigrants who were forced to submit to life in concentration camps on U.S. soil. Woven throughout is the chronicle of Gordon Hirabayashi, one of a cadre of patriotic resisters who stood up against their government in defense of their own rights. Whether fighting on battlefields or in courtrooms, these were Americans under unprecedented strain, doing what
