Drawing on a decade's worth of research, Anita Crawley describes the scope of services from admissions and registration to advising and student engagement. The book includes guidelines and standards, planning and implementation, innovative practices, and describes specialized services needed by particular online student groups. "Effective student support is the single most important factor in sustaining high-quality online learning programs. Anita Crawley presents the most effective guide to achieving that success. Her book is a blueprint for building thriving online programs through comprehensive student support." Ray Schroeder, director, Center for Online Learning, Research and Service, University of Illinois Springfield "As distance learning continues to grow, this book addresses the often neglected other side of the coin: online student services. This book provides a great introduction and overview of the research, literature, and innovative practices for planning, implementing, and evaluating support services for online learners." George Steele, director, eStudent Services, OhioLearns "Anita Crawley has crafted a splendid volume on a topic of increasing importance in contemporary higher education. Her book promises to be the foundational piece for those who work with students in an online environment. Her thinking and analysis are superb and undoubtedly will provide the basis upon which to develop online programs and services in the future." John H. Schuh, Distinguished Professor of Educational Leadership and Policy Studies Emeritus, Iowa State University "Bringing together extensive examples of innovative practices, summaries of current research, and a wealth of experience in student services, Anita Crawley's comprehensive guide to supporting online students is a rich resource for institutions with existing, growing, or new online programs. Diane J. Goldsmith, former executive director, Connecticut Distance Learning Consortium High-Impact Design for Online Courses introduces higher education professionals to an eight-step course design model that leverages the unique considerations of online and hybrid modalities at each stage in the process. Though relevant to and informed by instructional designers and educational technologists, this book is specifically geared toward faculty who lack the administrative and technical supports they need to thrive in the new normal. Each chapter includes step-by-step guidance on learner analysis, course structure, appropriate activities and assessments, continuous improvement, and other key elements of a successful digital course. Teachers across disciplines and levels of experience will come away newly inspired and motivated with fresh insights into planning and drafting, practical tips for pedagogy and design, opportunities for self-reflection and course revision, and implications for learner-centered delivery.
