Jennifer Ackerman

Sex Sleep Eat Drink Dream A Day In The Life Of Your Body Jennifer Ackerman

Sex Sleep Eat Drink Dream Jennifer Ackerman,2013 Acclaimed science writer Jennifer Ackerman lends her keen eye and lively voice to this marvellous exploration of the human body Taking us through a typical day from the arousal of the senses in the morning to the reverie of sleep and dreams Ackerman reveals the human form as we ve never seen it busy cunning and miraculous Advances in genetics and medical imaging have allowed us to peer more deeply inside ourselves than ever before and one of the most amazing recent discoveries is that we are intensely rhythmic creatures The human body is like a clock actually an entire shop of clocks measuring out the seconds minutes days and seasons of life Weaving pieces of her own life with that of Everyman Ackerman shows the importance of synchronising our actions with our biological rhythms and how defying them can cause us real harm At once entertaining and deeply practical this fascinating book will make you think of your body in an entirely new way *Ah-Choo!* Jennifer Ackerman,2010-09-02 Some colds are like mice timid and annoying others like dragons accompanied by body aches and deep misery In *AH CHOO* Jennifer Ackerman explains what exactly a cold is how it works and whether it s really possible to fight one off Scientists call this the Golden Age of the Common Cold because Americans suffer up to a billion colds each year resulting in 40 million days of missed work and school and 100 million doctor visits They ve also learned over the past decade much more about what cold viruses are what they do to the human body and how symptoms can be addressed In this ode to the odious cold Ackerman sifts through the chatter about treatments what works what doesn t and what can t hurt She dispels myths such as susceptibility to colds reflects a weakened immune system And she tracks current research including work at the University of Virginia at Charlottesville a world renowned center of cold research studies where the search for a cure continues **The Bird Way** Jennifer Ackerman,2021-05-04 From the New York Times bestselling author of *The Genius of Birds* a radical investigation into the bird way of being and the recent scientific research that is dramatically shifting our understanding of birds how they live and how they think There is the mammal way and there is the bird way But the bird way is much more than a unique pattern of brain wiring and lately scientists have taken a new look at bird behaviors they have for years dismissed as anomalies or mysteries What they are finding is upending the traditional view of how birds conduct their lives how they communicate forage court breed survive They are also revealing the remarkable intelligence underlying these activities abilities we once considered uniquely our own deception manipulation cheating kidnapping infanticide but also ingenious communication between species cooperation collaboration altruism culture and play Some of these extraordinary behaviors are biological conundrums that seem to push the edges of well birdness a mother bird that kills her own infant sons and another that

selflessly tends to the young of other birds as if they were her own a bird that collaborates in an extraordinary way with one species ours but parasitizes another in gruesome fashion birds that give gifts and birds that steal birds that dance or drum that paint their creations or paint themselves birds that build walls of sound to keep out intruders and birds that summon playmates with a special call and may hold the secret to our own penchant for playfulness and the evolution of laughter Drawing on personal observations the latest science and her bird related travel around the world from the tropical rainforests of eastern Australia and the remote woodlands of northern Japan to the rolling hills of lower Austria and the islands of Alaska s Kachemak Bay Jennifer Ackerman shows there is clearly no single bird way of being In every respect in plumage form song flight lifestyle niche and behavior birds vary It is what we love about them As E O Wilson once said when you have seen one bird you have not seen them all

Parenting for Peace Marcy Axness,2012 This book emphasizes a mother s role in the development of the child s brain and emotional infrastructures

Birds by the Shore Jennifer Ackerman,2019-05-07 From the bestselling author of *The Genius of Birds* the revised and reissued edition of her beloved book of essays describing her forays along the Delaware shore For three years Jennifer Ackerman lived in the small coastal town of Lewes Delaware in the sort of blue water white sand landscape that draws summer crowds up and down the eastern seaboard *Birds by the Shore* is a book about discovering the natural life at the ocean s edge the habits of shorebirds and seabirds the movement of sand and water the wealth of creatures that survive amid storm and surf Against this landscape s rhythms Ackerman revisits her own history her mother s death her father s illness and her hopes to have children of her own This portrait of life at the ocean s edge will be relished by anyone who has walked a beach at sunset or watched a hawk hover over a winter marsh and felt part of the natural world With a quiet passion and friendly generous intelligence it explores the way that landscape shapes our thoughts and perceptions and shows that home ground is often where we feel the deepest response to the planet

Guts Kristen Johnston,2013-01-22 The actress best known for her work on *3rd Rock from the Sun* traces the story of her career and the personal difficulties that challenged her after *3rd Rock* ended

The Science of Kissing Sheril Kirshenbaum,2011-01-05 From a noted science journalist comes a wonderfully witty and fascinating exploration of how and why we kiss When did humans begin to kiss Why is kissing integral to some cultures and alien to others Do good kissers make the best lovers And is that expensive lip plumping gloss worth it Sheril Kirshenbaum a biologist and science journalist tackles these questions and more in *The Science of a Kiss* It s everything you always wanted to know about kissing but either haven t asked couldn t find out or didn t realize you should understand The book is informed by the latest studies and theories but Kirshenbaum s engaging voice gives the information a light touch Topics range from the kind of kissing men like to do as distinct from women to what animals can teach us about the kiss to whether or not the true art of kissing was lost sometime in the Dark Ages Drawing upon classical history evolutionary biology psychology popular culture and more Kirshenbaum s winning book will appeal to romantics and armchair scientists alike

Seasons of Life Leon

Kreitzman, Russell Foster, 2010-08-26 The natural world is full of rhythms How do birds know when to return to their nesting grounds What effect do the seasons have on our wellbeing and how does the season in which we are born affect our subsequent life chances How did humans get the idea that there were seasons 50 000 years ago Seasons of Life explains why the seasons occur the impact of seasonal change and how organisms have evolved to anticipate these changes For although we mask the effects of seasonal changes by warming our homes lighting our nights preserving foods and storing water we cannot hide from them **The Genius of Birds** Jennifer Ackerman, 2017-04-11 Lovely celebratory For all the belittling of bird brains Ackerman shows them to be uniquely impressive machines New York Times Book Review A lyrical testimony to the wonders of avian intelligence Scientific American An award winning science writer tours the globe to reveal what makes birds capable of such extraordinary feats of mental prowess Birds are astonishingly intelligent creatures According to revolutionary new research some birds rival primates and even humans in their remarkable forms of intelligence In The Genius of Birds acclaimed author Jennifer Ackerman explores their newly discovered brilliance and how it came about As she travels around the world to the most cutting edge frontiers of research Ackerman not only tells the story of the recently uncovered genius of birds but also delves deeply into the latest findings about the bird brain itself that are shifting our view of what it means to be intelligent At once personal yet scientific richly informative and beautifully written The Genius of Birds celebrates the triumphs of these surprising and fiercely intelligent creatures Ackerman is also the author of Birds by the Shore Observing the Natural Life of the Atlantic Coast Notes from the Shore Jennifer Ackerman, 1996-05 Ackerman delivers a book about discovering natural life at the ocean's edge Cape Henlopen at the southern tip of the Delaware Bay across from Cape May New Jersey and the habits of shorebirds and seabirds the movement of sand and water the wealth of creatures that survive amid storm and surf It weaves together science and description with personal observation and reflection exploring the way that landscape shapes our thoughts and perceptions *Stories in Stone* David B. Williams, 2019-08-19 Most people do not think to observe geology from the sidewalks of a major city but all David B Williams has to do is look at building stone in any urban center to find a range of rocks equal to any assembled by plate tectonics In *Stories in Stone* he takes you on explorations to find 3 5 billion year old rock that looks like swirled pink and black taffy a gas station made of petrified wood and a Florida fort that has withstood three hundred years of attacks and hurricanes despite being made of a stone that has the consistency of a granola bar Williams also weaves in the cultural history of stone explaining why a white fossil rich limestone from Indiana became the only building stone used in all fifty states how in 1825 the construction of the Bunker Hill Monument led to America's first commercial railroad and why when the same kind of marble used by Michelangelo clad a Chicago skyscraper it warped so much after nineteen years that all 44 000 panels of it had to be replaced This love letter to building stone brings to life the geology you can see in the structures of every city Chance in the House of Fate Jennifer Ackerman, 2001 Recent discoveries in molecular biology have shown that genes

governing life processes in widely different organisms from yeast to humans are essentially alike That is the underlying theme of this book as it looks for meaning in the natural world while exploring complex questions in molecular genetics

Ackerman a former staff writer for National Geographic and a nature author Notes from the Shore weaves her own personal experiences into this popular account of the natural history of heredity When she is pregnant with her first child Ackerman worries that the baby will inherit the gene that caused the retardation of her younger sister Topics range from development and sex determination to biological clocks and cell death and more

Darwin's Fox and My Coyote Holly Menino, 2018-12-18 A rare fox in the South American cordillera A disappearing fox on an island off California A common coyote in the Albany suburbs How do these wild carnivores live and what is it about the places they live that allows them to survive Holly Menino joins up with three young scientists to find out and along the way is drawn into a broader consideration of the science that defines these animals natural histories In the tradition of Silent Spring and A Sand County Almanac Darwin's Fox and My Coyote is thought provoking alarming and unapologetic It is most important a call to action Page 4 of cover

Everyone Eats E. N. Anderson, 2005-03-01 Everyone eats but rarely do we ask why or investigate why we eat what we eat Why do we love spices sweets coffee How did rice become such a staple food throughout so much of eastern Asia Everyone Eats examines the social and cultural reasons for our food choices and provides an explanation of the nutritional reasons for why humans eat resulting in a unique cultural and biological approach to the topic E N Anderson explains the economics of food in the globalization era food's relationship to religion medicine and ethnicity as well as offers suggestions on how to end hunger starvation and malnutrition Everyone Eats feeds our need to understand human ecology by explaining the ways that cultures and political systems structure the edible environment

Sex Sleep Eat Drink Dream Jennifer Ackerman, 2008

Irkadura Ksenia Anske, 2014-10-30 *The Nature Fix: Why Nature Makes Us Happier, Healthier, and More Creative* Florence Williams, 2017-02-07 Highly informative and remarkably entertaining Elle From forest trails in Korea to islands in Finland to eucalyptus groves in California Florence Williams investigates the science behind nature's positive effects on the brain Delving into brand new research she uncovers the powers of the natural world to improve health promote reflection and innovation and strengthen our relationships As our modern lives shift dramatically indoors these ideas and the answers they yield are more urgent than ever

Policing Methamphetamine William Campbell Garriott, 2011 In its steady march across the United States methamphetamine has become to quote former Attorney General Alberto Gonzales OC the most dangerous drug in America OCO As a result there has been a concerted effort at the local level to root out the methamphetamine problem by identifying the people at its sourceOCO those known or suspected to be involved with methamphetamine Government sponsored anti methamphetamine legislation has enhanced these local efforts formally and informally encouraging rural residents to identify meth offenders in their communities Policing Methamphetamine shows what happens in everyday lifeOCO and to everyday lifeOCO when methamphetamine becomes an object of collective concern

Drawing on interviews with users police officers judges and parents and friends of addicts in one West Virginia town William Garriott finds that this overriding effort to confront the problem changed the character of the community as well as the role of law in creating and maintaining social order Ultimately this work addresses the impact of methamphetamine and more generally the war on drugs on everyday life in the United States **Get Me Ellis Rubin!** Dary Matera, Ellis Rubin, 2006-02 Critically acclaimed memoirs of one of America's most famous colorful and controversial defense attorneys A champion for the little man this fast paced account reads like Perry Mason and covers some of the most publicized legal issues of our time including the world famous Television Intoxication case and the history making Battered Daughter Defense River Teeth David James Duncan, 2012-01-11 In his passionate luminous novels David James Duncan has won the devotion of countless critics and readers earning comparisons to Harper Lee Tom Robbins and J D Salinger to name just a few Now Duncan distills his remarkable powers of observation into this unique collection of short stories and essays At the heart of Duncan's tales are characters undergoing the complex and violent process of transformation with results both painful and wondrous Equally affecting are his nonfiction reminiscences the river teeth of the title He likens his memories to the remains of old growth trees that fall into Northwestern rivers and are sculpted by time and water These experiences shaped by his own river of time are related with the art and grace of a master storyteller In River Teeth a uniquely gifted American writer blends two forms taking us into the rivers of truth and make believe and all that lies in between
