Comfortably Unaware Richard Oppenlander, 2012-11-13 In *Comfortably Unaware* Dr Richard Oppenlander tackles the crucial issue of global depletion as it relates to food choice We should all be committed he tells us to understanding the reality and consequences of our diet the footprint it makes on our environment and seek food products that are in the best interest of all living things His forthright information and stark mental images are often disturbing and that s how it should be As the guardians of Planet Earth we need to be shaken out of our complacency to stop being comfortably unaware and to understand the measures we must take to ensure the health and well being of our planet and of ourselves Oppenlander

Green Is the New Red Will Potter, 2011-04-12 At a time when everyone is going green most people are unaware that the FBI is using anti terrorism resources to target environmentalists and animal rights activists The courts are being used to push conventional boundaries of what constitutes terrorism and to hit nonviolent activists with disproportionate sentences Some have faced terrorism charges for simply chalking slogans on the sidewalk Like the Red Scare this Green Scare is about fear and intimidation using a word eco terrorist to push a political agenda instill fear and silence dissent The animal rights and environmental movements directly threaten corporate profits every time activists encourage people to go vegan to stop driving to consume fewer resources and live simply Their boycotts are damaging and corporations and the politicians who represent them know it In many ways the Green Scare like the Red Scare can be seen as a culture war a war of values Will Potter outlines the political legal extra legal and public relations strategies that are being used to threaten even acts of nonviolent civil disobedience with the label of terrorism Here is a guided tour into the world of radical activism that introduces the real people behind the headlines and tells the story of how everyday people are being prevented from speaking up for what they believe in Potter a contributor to *The Next Eco Warriors* warns that the U S government is using post 9 11 anti terrorism resources to target environmentalists and animal right activists in some cases for doing nothing but speaking up Potter warns of the crumbling of the legal wall separating terrorist from dissident or undesirable and concludes his account with a call to action and a decry of the injustice that results in the terrorist label being put on those who threaten American corporate interests *Alarming Publishers Weekly* In this hard hitting debut journalist Potter likens the Justice Department targeting of environmentalists today to McCarthyism in the 1950s A shocking expos of judicial overreach *Kirkus Reviews* Starred review Will Potter is an award winning reporter who has written for publications

including the Chicago Tribune the Dallas Morning News and Legal Affairs and has testified before the U S Congress about his reporting He is the creator of www.GreenIsTheNewRed.com where he blogs about the Green Scare *Food Choice and Sustainability* Dr. Richard Oppenlander ,2013 Food choice and sustainability tackles the critical issue of the global depletion of our natural resources drawing attention to what might seem an unlikely spot our dinner plates [Dominion](#) Matthew Scully,2003-10-08 And God said Let us make man in our image after our likeness and let them have dominion over the fish of the sea and over the fowl of the air and over the cattle and over all the earth and over every creeping thing that creepeth upon the earth Genesis 1 24 26 In this crucial passage from the Old Testament God grants mankind power over animals But with this privilege comes the grave responsibility to respect life to treat animals with simple dignity and compassion Somewhere along the way something has gone wrong In *Dominion* we witness the annual convention of Safari Club International an organization whose wealthier members will pay up to 20 000 to hunt an elephant a lion or another animal either abroad or in American safari ranches where the animals are fenced in pens We attend the annual International Whaling Commission conference where the skewed politics of the whaling industry come to light and the focus is on developing more lethal but not more merciful methods of harvesting living marine resources And we visit a gargantuan American factory farm where animals are treated as mere product and raised in conditions of mass confinement bred for passivity and bulk inseminated and fed with machines kept in tightly confined stalls for the entirety of their lives and slaughtered in a way that maximizes profits and minimizes decency Throughout *Dominion* Scully counters the hypocritical arguments that attempt to excuse animal abuse from those who argue that the Bible s message permits mankind to use animals as it pleases to the hunter s argument that through hunting animal populations are controlled to the popular and scientifically proven notions that animals cannot feel pain experience no emotions and are not conscious of their own lives The result is eye opening painful and infuriating insightful and rewarding *Dominion* is a plea for human benevolence and mercy a scathing attack on those who would dismiss animal activists as mere sentimentalists and a demand for reform from the government down to the individual Matthew Scully has created a groundbreaking work a book of lasting power and importance for all of us *Vegan Freak* Bob Torres,2010 In this informative and practical guide two seasoned vegans offer tips and advice for thriving without animal by products Sometimes funny and irreverent yet always aware of its serious message this resource for being vegan in a world that doesn t always understand or have sympathy for the lifestyle illustrates how to go vegan in three weeks or less by employing a cold tofu method convince family friends and others that there is no such thing as a vegan cult and survive restaurants grocery stores and meals with omnivores **Why We Love Dogs, Eat Pigs, and Wear Cows** Melanie Joy,2020-08 An important and groundbreaking contribution to the struggle for the welfare of animals Yuval Harari New York Times best selling author of *Sapiens A Brief History of Humankind* The book offers an absorbing look at why and how humans can so wholeheartedly devote ourselves to certain animals and then allow others to

suffer needlessly especially those slaughtered for our consumption Social psychologist Melanie Joy explores the many ways we numb ourselves and disconnect from our natural empathy for farmed animals She coins the term carnism to describe the belief system that has conditioned us to eat certain animals and not others In *Why We Love Dogs Eat Pigs and Wear Cows* Joy investigates factory farming exposing how cruelly the animals are treated the hazards that meatpacking workers face and the environmental impact of raising 10 billion animals for food each year Controversial and challenging this book will change the way you think about food forever An absorbing examination of why humans feel affection and compassion for certain animals but are callous to the suffering of others Publishers Weekly I think Gandhi would have loved *Why We Love Dogs Eat Pigs and Wear Cows* For this is a book that can change the way you think and change the way you live It will lead you from denial to awareness from passivity to action and from resignation to hope John Robbins author of *Diet for a New America* and *The Food Revolution*

The World Peace Diet Will Tuttle, 2007 Incorporating systems theory teachings from mythology and religions and the human sciences *The World Peace Diet* presents the outlines of a more empowering understanding of our world based on a comprehension of the far reaching implications of our food choices and the worldview those choices reflect and mandate The author offers a set of universal principles for all people of conscience from any religious tradition that they can follow to reconnect with what we are eating what was required to get it on our plate and what happens after it leaves our plates

The Compassionate Contrarians Catherine Amey, 2014-04 Although New Zealand s economy has long depended on the bodies and infant milk of animals this country also has a hidden history of vegetarianism While some early vegetarians were concerned with health spirituality and purity others took a broader view speaking out on issues that included peace feminism animal rights socialism prison reform and the environment Yet others set up cafes organised picnics and wrote cookbooks *The Compassionate Contrarians* uncovers the quirks of the vegetarian experience in a land of meat and dairy More importantly it acknowledges the hard work and courage of a group of idealists who dedicated their lives to creating a more just world for all sentient beings Publisher information
