From the author of the twenty-five-million-copy bestseller *The Shack* comes a captivating new novel destined to be one of the most talked-about books of the decade. Eve is a bold, unprecedented exploration of the Creation narrative, true to the original texts and centuries of scholarship—yet with breathtaking discoveries that challenge traditional beliefs about who we are and how we’re made. Eve opens a refreshing conversation about the equality of men and women within the context of our beginnings, helping us see each other as our Creator does—complete, unique, and not constrained by cultural rules or limitations. When a shipping container washes ashore on an island between our world and the next, John the Collector finds a young woman inside—broken, frozen, and barely alive. With the aid of Healers and Scholars, John oversees her recovery and soon discovers that her genetic code connects her to every known race. No one would guess what her survival will mean... No one but Eve, Mother of the Living, who calls her “daughter” and invites her to witness the truth about her own story—indeed, the truth about us all. As *The Shack* awakened readers to a personal, non-religious understanding of God, Eve will free us from faulty interpretations that have corrupted human relationships since the Garden of Eden. Thoroughly researched and exquisitely written, Eve is a masterpiece that will inspire readers for generations to come. Collects the lost books of the Bible, sharing stories of Jesus as a child, discussing other miracles of Mary, and other tales not included in the New Testament. In *Gates of Eden*, Ethan Coen exhibits on the printed page the striking, twisted, yet devastatingly on-target vision of modern American life familiar from his movies. The world within the world we live in comes alive in fourteen brazenly original tragicomic short stories—from the Midwest mob war that fizzles due to the principals' ineptness to the trials of a deaf private eye with a blind client to a fugitive's heartbreaking explanation for having beheaded his wife, alarming in that it almost makes sense. One of the most amazing epic stories in recent memory, the connection between ancient alien beings and human history is captured in this mesmerizing science fiction novel. A biblical passage from the Book of Genesis points the way to this connection, which recently has been tied to new excavations in Southeast Turkey, thought by several archeologists to be the site of the fabled Garden of Eden. The story ties the ancient Jewish staff of Moses to the Knights Templars, the Bilderberg Group, the American NSA, and Israeli intelligence services, all in pursuit of the secretive German Nazi Base 211 located at the South Pole in Antarctica. The American top secret Operation High Jump, which was recently partially declassified, raises many questions about the involvement of the world's governments in a cover-up of alien presence on Earth. "Elena Danaan's new book, *We Will Never Let You Down*, casts much needed light on the diplomatic negotiations between President Dwight Eisenhower and Valiant Thor—an ambassador of the Galactic Federation of Worlds—from 1958 to 1961. Now we finally have a fresh new perspective, directly from Valiant Thor himself, of the unsuccessful negotiations that were conducted. We learn about his warnings about negotiating with an alliance of alien predator races; Eisenhower's betrayal by MJ-12 in signing secret agreements with this exploitative alliance; and how the Galactic Federation has ever since been mitigating the effects of these nefarious agreements through numerous covert actions to raise human consciousness and spark a

planetary awakening. A must read for all wanting to prepare for the momentous global changes that lie ahead! " Michael Salla, Ph.D. Rescued as a child by Extraterrestrials, Elena Danaan kept contact with them all her life and wrote her story in the bestseller: "A Gift From The Stars". "We Will Never Let You Down" follows up by depicting contacts the author had with Commander Val "Valiant" Thor and her journeys in this solar system. Written at the brink of a new era, this book is a testimony of the presence and dedication of benevolent extraterrestrials protecting Earth. This book includes also precious messages from Commander Thor Han Eredyon from the Galactic Federation of Worlds, revelations about Val Thor's sojourn in the Pentagon, his relation with Dwight Eisenhower, his stay in Russia, the political background involving secret treaties with the Grey Alliance and the complex underlying Alien-Human diplomacy. Astonishing details, unknown until now, are revealed in this book. Born in France, Elena Danaan is a Fine Arts graduate, Archaeologist, Druidess, Shaman, Energy & Sound practitioner. She worked as a field Archaeologist for 20 years, mainly in Egypt. Balancing both scientific education and cognitive abilities, Elena narrates with honesty, pragmatism and simplicity, the incredible adventures she was privileged to live and share. Sanchez Travers seemed more scoundrel than scientist, but Dr. Annie Parrish needs the help of the Harvard-educated ethnobiologist to head up the Amazon in search of an extraordinary discovery. They Came To Earth Millions Of Years Ago To Spread The Poison Of Hatred, War And Catastrophe... They Are With Us Still... Human history is a seemingly endless succession of bloody conflicts and devastating turmoil. Yet, inexplicably, in the light of astonishing intellectual and technological advancement, Man's progress has been halted in one crucial area: he still indulges the primitive beast within and makes war upon his neighbors. As a result of seven years of intense research, William Bramley has uncovered the sinister thread that links humanity's darkest events -- from the wars of the ancient pharaohs to the assassination of JFK. In this remarkable, shocking and absolutely compelling work, Bramley presents disturbing evidence of an alien presence on Earth -- extraterrestrial visitors who have conspired to

dominate Humankind through violence and chaos since the beginning of time...a conspiracy which continues to this very day. No stranger to living and writing on the edge, the author shares the fruits of his productive career as "the most prodigiously talented and historically important novelist under 35," including autobiographical writing, interviews, critical essays, correspondence, and poems. Seeking Eden promotes an awareness of, and appreciation for, Georgia's rich garden heritage. Updated and expanded here are the stories of nearly thirty designed landscapes first identified in the early twentieth-century publication *Garden History of Georgia, 1733-1933*. Seeking Eden records each garden's evolution and history as well as each garden's current early twenty-first-century appearance, as beautifully documented in photographs. Dating from the mid-eighteenth to the early twentieth centuries, these publicly and privately owned gardens include nineteenth-century parterres, Colonial Revival gardens, Country Place-era landscapes, rock gardens, historic town squares, college campuses, and an urban conservation garden. Seeking Eden explores the significant impact of the women who envisioned and nurtured many of these special places; the role of professional designers, including J. Neel Reid, Philip Trammel Shutze, William C. Pauley, Robert B. Cridland, the Olmsted Brothers, Hubert Bond Owens, and Clermont Lee; and the influence of the garden club movement in Georgia in the early twentieth century. **FEATURED GARDENS:** Andrew Low House and Garden | Savannah Ashland Farm | Flintstone Barnsley Gardens | Adairsville Barrington Hall and Bulloch Hall | Roswell Battersby-Hartridge Garden | Savannah Beech Haven | Athens Berry College: Oak Hill and House o' Dreams | Mount Berry Bradley Olmsted Garden | Columbus Cator Woolford Gardens | Atlanta Coffin-Reynolds Mansion | Sapelo Island Dunaway Gardens | Newnan vicinity Governor's Mansion | Atlanta Hills and Dales Estate | LaGrange Lullwater Conservation Garden | Atlanta Millpond Plantation | Thomasville vicinity Oakton | Marietta Rock City Gardens | Lookout Mountain Salubrity Hall | Augusta Savannah Squares | Savannah Stephenson-Adams-Land Garden | Atlanta Swan House | Atlanta University of Georgia: North Campus, the President's House and

Reduced to stolen glances and secret meetings as they await a Betrothal the Council is bent on stalling, William and Bryn have to settle for happily right now, but with a man like William Hayward at her side, Bryn's hardly settling. The day John Townsend sends an army of Immortal mercenaries intent on destroying everyone Bryn loves, she must make the decision generations of star-crossed lovers before her have—live alone or die together. William's made his decision, Bryn's the one fate's waiting on. But fate will only wait so long until it makes the decision for her. Just as Kirk faces the prospect of retirement, he goes on an adventure which offers the chance of recapturing his youth. Among the Mansions of Eden is a fascinating and dishy exploration of Beverly Hills -- a rarefied community that has become a part of our country's mythos, a city renowned for its ostentatious displays of wealth. It takes you behind the gates of the rich and famous for an insider's view of the elite's rapturous and tragic attempts to realize the American Dream. From Rodeo Drive to Beverly Hills High School, *Among the Mansions of Eden* tells the city's story by capturing the individuals who are emblematic of various factions of Beverly Hills society: The cast of unforgettable characters includes the late Milton Berle, who spent his last days surrounded by aging cronies in the cavernous ballroom of the Friars Club, haunted by the ghosts of the past; Fred Hayman, a former banquet manager who opened a boutique called Giorgio and transformed Rodeo Drive from a provincial retail district to a phantasmagoric midway that caters to the world's most affluent shoppers; Gavin de Becker, a poor kid from a broken home who became the security broker to the stars; Mark Hughes, the health-supplement wunderkind who parlayed a trunkful of vitamin pills into a billion-dollar empire known as Herbalife and planned to build his own San Simeon on the last undeveloped mountaintop in Beverly Hills; Jim Forester, a teenager with an overriding passion for a righteous buzz that led him on a Dante-esque journey

through the city's underworld of pushers, delinquents, scam artists, and sleazoids; and Norm Zadeh, who used the millions he made as a hedge-fund manager to start a girlie magazine, fill a Beverly Hills mansion with curvaceous nymphets, and emulate the life of Hugh Hefner. You'll also meet a fascinating array of con artists, hucksters, and libido-crazed pleasure seekers and gun fetishists who are willing to resort to whatever means necessary to steal a piece of the Beverly Hills Dream. Among the Mansions of Eden weaves their individual stories into a spellbinding tale of wealth, fame, and the lust for land, power, and social status in the most opulent city in America. A masterpiece of Biblical scope, and the magnum opus of one of America's most enduring authors, in a commemorative hardcover edition In his journal, Nobel Prize winner John Steinbeck called *East of Eden* "the first book," and indeed it has the primordial power and simplicity of myth. Set in the rich farmland of California's Salinas Valley, this sprawling and often brutal novel follows the intertwined destinies of two families—the Trasks and the Hamiltons—whose generations helplessly reenact the fall of Adam and Eve and the poisonous rivalry of Cain and Abel. The masterpiece of Steinbeck's later years, *East of Eden* is a work in which Steinbeck created his most mesmerizing characters and explored his most enduring themes: the mystery of identity, the inexplicability of love, and the murderous consequences of love's absence. Adapted for the 1955 film directed by Elia Kazan introducing James Dean, and read by thousands as the book that brought Oprah's Book Club back, *East of Eden* has remained vitally present in American culture for over half a century. "A history of the human brain from the big bang, fifteen billion years ago, to the day before yesterday . . . It's a delight."—The New York Times Dr. Carl Sagan takes us on a great reading adventure, offering his vivid and startling insight into the brain of man and beast, the origin of human intelligence, the function of our most haunting legends—and their amazing links to recent discoveries. "How can I persuade every intelligent person to read this important and elegant book? . . . He talks about all kinds of things: the why of the pain of human childbirth . . . the reason for sleeping and dreaming . . . chimpanzees taught to

communicate in deaf and dumb language . . . the definition of death . . . cloning . . . computers . . . intelligent life on other planets. . . . Fascinating . . . delightful."—The Boston Globe "In some lost Eden where dragons ruled, the foundations of our intelligence were laid. . . . Carl Sagan takes us on a guided tour of that lost land. . . . Fascinating . . . entertaining . . . masterful."—St. Louis Post-Dispatch *West of Eden* is the definitive story of Hollywood, told, in their own words, by the people on the inside: Lauren Bacall, Arthur Miller, Dennis Hopper, Frank Gehry, Ring Lardner, Joan Didion, Stephen Sondheim – all interviewed by Jean Stein, who grew up in the Forties in a fairytale mansion in the Hollywood Hills. The book takes us from the discovery of oil in the Twenties with the story of the tycoon Edward Doheny (*There Will Be Blood*) and traces the growth of corruption through the syndicates, the mob, and the movie studios – from the beginnings of the film industry to the end, with News Corp. and Rupert Murdoch (who bought the Stein mansion in 1985). *West of Eden* is about money, power, fame and terrible secrets: the doomed Hollywood of the late Fifties, early Sixties – 'the rotten heart of paradise'. Like her last book, the best-selling *Edie*, this is an oral history told through brilliantly edited interviews. As this is Hollywood, it's a book full of sex, drugs and celebrity glamour; but because it's built from the firsthand accounts of people who were actually there, many of them writers, actors and artists, it's also strangely claustrophobic, seductive, and completely compelling. A "certainly weird . . . strangely wonderful . . . [and] often irresistible" search to find the real Garden of Eden (The New York Times Book Review). Where, precisely, was God's Paradise? St. Augustine had a theory. So did medieval monks, John Calvin and Christopher Columbus. But when Darwin's theory of evolution changed our understanding of human origins, shouldn't the desire to put a literal Eden on the map have faded away? Not so fast. This "gloriously researched, pluckily written historical and anecdotal assay of humankind's age-old quixotic quest for the exact location of the Biblical garden" (Elle) explores an obsession that has consumed scientists and theologians alike for centuries. To this day, the search continues, taken up by amateur explorers, clergymen, scholars, engineers and

educators—romantic seekers all who started with the same simple-sounding Bible verses, only to end up at a different spot on the globe: Sri Lanka, the Seychelles, the North Pole, Mesopotamia, China, Iraq—and Ohio. Inspired by an Eden seeker in her own family, “Wilensky-Lanford approaches her subjects with respect, enthusiasm and conscientious research” (San Francisco Chronicle) as she traverses a century-spanning history provoking surprising insights into where we came from, what we did wrong, and where we go from here. And it all makes for “a lively journey” (Kirkus Reviews). NATIONAL BESTSELLER • A modern classic of true crime, set in a most beguiling Southern city—now in a 30th anniversary edition with a new afterword by the author “Elegant and wicked . . . might be the first true-crime book that makes the reader want to book a bed and breakfast for an extended weekend at the scene of the crime.”—The New York Times Book Review Shots rang out in Savannah’s grandest mansion in the misty, early morning hours of May 2, 1981. Was it murder or self-defense? For nearly a decade, the shooting and its aftermath reverberated throughout this hauntingly beautiful city of moss-hung oaks and shaded squares. In this sharply observed, suspenseful, and witty narrative, John Berendt skillfully interweaves a hugely entertaining first-person account of life in this isolated remnant of the Old South with the unpredictable twists and turns of a landmark murder case. It is a spellbinding story peopled by a gallery of remarkable characters: the well-bred society ladies of the Married Woman’s Card Club; the turbulent young gigolo; the hapless recluse who owns a bottle of poison so powerful it could kill every man, woman, and child in Savannah; the aging and profane Southern belle who is the “soul of pampered self-absorption”; the uproariously funny drag queen; the acerbic and arrogant antiques dealer; the sweet-talking, piano-playing con artist; young people dancing the minuet at the black debutante ball; and Minerva, the voodoo priestess who works her magic in the graveyard at midnight. These and other Savannahians act as a Greek chorus, with Berendt revealing the alliances, hostilities, and intrigues that thrive in a town where everyone knows everyone else. Brilliantly conceived and masterfully written, *Midnight in the Garden of Good and Evil* is a sublime

and seductive reading experience. Nineteenth-century philologist and Biblical critic William Robertson Smith famously concluded that the sacred status of holy places derives not from their intrinsic nature but from their social character. Building upon this insight, Mecca and Eden uses Islamic exegetical and legal texts to analyze the rituals and objects associated with the sanctuary at Mecca. Integrating Islamic examples into the comparative study of religion, Brannon Wheeler shows how the treatment of rituals, relics, and territory is related to the more general mythological depiction of the origins of Islamic civilization. Along the way, Wheeler considers the contrast between Mecca and Eden in Muslim rituals, the dispersal and collection of relics of the prophet Muhammad, their relationship to the sanctuary at Mecca, and long tombs associated with the gigantic size of certain prophets mentioned in the Quran. Mecca and Eden succeeds, as few books have done, in making Islamic sources available to the broader study of religion. A groundbreaking historical documentation of the secret history of pre-Pharonic Egypt and the race of angels that built it. •By the author of *From the Ashes of Angels and Gateway to Atlantis* (more than 30,000 copies sold in the United Kingdom). •Unlocks the secrets of how the Great Pyramids and the Sphinx were built. •Explains the traces left by the race of Elder gods that founded ancient Egypt through ancient texts of the Hall of Records. •Proves the foundations of ancient astronomy 10,000 years ago. Hidden deep below Egypt's Giza plateau is perhaps the key to unlocking the mysteries of the Great Pyramid, one of the seven wonders of the world. Built using a technology unequaled even today, the ancient Egyptians claimed they inherited their advanced culture from a race of Elder gods who lived during a previous age known as Zep Tepi, the First Time. In his earlier companion book *From the Ashes of Angels*, renowned historical writer Andrew Collins provided historical and scientific evidence showing how these Elder gods, who were the flesh and blood members of a race of fallen angels, founded ancient Egypt. Now, in *Gods of Eden*, he describes the remarkable achievements of their culture. Assembling clues from archaeology, mythology, and religion, Collins shows us how this great society mastered acoustic technology and employed the use of

sound to raise heavy objects into the air and pierce holes through solid rock. It was with this technology that they were able to construct gigantic structures that have marveled adventurers and archaeologists worldwide. With findings based on more than 20 years of research and scholarship, Collins reveals the fascinating historical destiny of this culture of fallen angels and the imprints and legacies they left behind at the genesis of civilization. WHAT DOES GOD LOOK LIKE? Welcome to southeast Michigan and the small town of Carlson where faith, hope, and struggle are defined by the different faces of those who live there. An addict that sits at a bar to forget. A mother whose five-year-old boy has leukemia. Two doctors. An atheist haunted by his past and a brilliant young oncologist that places all her hope in the power of modern medicine. A blind pastor whose son hasn't spoken a single word in thirty-eight years. But the minister sees by faith. He knows there are answers and believes that someone who cares is watching—someone with a greater purpose. Yet there is something he doesn't know... that none of them know. In the midst of the ordinary and the devastating, there is a reason these lives will be changed forever. Lightning is about to strike. The Reason opens with a thunderbolt and never lets up as it introduces us to everyday characters who are wrestling with questions: Where is God when bad things happen? Does God ignore the prayers of the faithful? The answer each character receives will astound readers while offering an unforgettable call to hope, to change, and to believe. The grassroots handbook for Edenizing nursing homes. "Eden by Design is a compelling and fascinating description of a possible Los Angeles that never came to be. Greg Hise and William Deverell have resurrected the Olmsted Brothers' 1930 plan for Los Angeles County, and then, in a wonderful introduction, put the plan in context so that to read it now is to see not only what seemed dangerous and possible in 1930 but also how and why one route to the present was chosen over others. In their hands, the plan acts like a ghost of Los Angeles, reminding us about a vanished past, lost possibilities, and the secrets that our present masks."—Richard White, author of *The Organic Machine* "The Report is not only a vital document in the history of Los Angeles . . . but a lost

classic of a neglected golden age of city planning and landscape architecture. . . . It embodies a truly regional perspective; an ecological perspective; a long-range vision; an integration of design with finance and administration; and a truly grand interpretation of public space. It deserves to be known to every serious student of the American planning tradition."—Robert Fishman, author of *Bourgeois Utopias: The Rise and Fall of Suburbia* "An essential document for understanding the history of the West's largest city. Los Angeles had the opportunity to become an extraordinarily beautiful environment, a Paris in the desert. The editors make clear why, sadly, it did not; but also they hold out hope that portions of this brilliant but neglected plan might still be recovered."—Donald Worster, author of *Nature's Economy: A History of Ecological Ideas* "A welcome addition to the literature of American urban planning history."—Roger Montgomery, Professor of Architecture Emeritus, University of California, Berkeley The American West of the nineteenth century was a world of freedom and adventure for men of every stripe—not least also those who admired and desired other men. Among these sojourners was William Drummond Stewart, a flamboyant Scottish nobleman who found in American culture of the 1830s and 1840s a cultural milieu of openness in which men could pursue same-sex relationships. This book traces Stewart's travels from his arrival in America in 1832 to his return to Murthly Castle in Perthshire, Scotland, with his French Canadian-Cree Indian companion, Antoine Clement, one of the most skilled hunters in the Rockies. Benemann chronicles Stewart's friendships with such notables as Kit Carson, William Sublette, Marcus Whitman, and Jim Bridger. He describes the wild Renaissance-costume party held by Stewart and Clement upon their return to America—a journey that ended in scandal. Through Stewart's letters and novels, Benemann shows that Stewart was one of many men drawn to the sexual freedom offered by the West. His book provides a tantalizing new perspective on the Rocky Mountain fur trade and the role of homosexuality in shaping the American West. "He has spent nearly three decades studying, learning from, crusading for, and thinking about hunter-gatherers, who survive at the margins of the vast, fertile lands

occupied by farming peoples and their descendants, now the great majority of the world's population. In material terms, the hunters have been all but vanquished, yet in this profound and passionate book, Brody utterly dispels the notion that theirs is a lesser way of life."--Jacket. A Franciscan priest tells how he led Peruvian Indians in their battle for survival against Shining Path terrorists, drug traffickers, and government corruption. Among the numerous books written or co-written by the Hoffers are *Midnight Express*, *Not Without My Daughter* and *The Senator*. 24 b/w photos. Endpaper maps. Basing their research on geophysics, oral legends, and archaeology, the authors offer evidence that the flood in the book of Genesis actually occurred.
