Homeworld Aug 25 2022 After leaving Earth's orbit behind, the spaceship Velocity and its crew hurtle through the galaxy toward their alien ancestor's homeworld, Dwynna Major. Trouble arises when Chief Engineer Claire Gordon's neural interface device malfunctions, and she secretly struggles to retain the knowledge desperately needed to keep the Velocity running. Adding to her fear of failing, Claire's falling in love with the only crew member who's untouchable—Captain Holly Crowe. Holly's only priority is to keep the crew safe as they face the unknowns of interstellar space. Maintaining the strict rules and regulations of her captaincy is the only way she can lead, even if it distances her from the rest of the crew. When Claire's failing interface puts them all in danger, however, Holly's rigid approach to command is called into question. Will Holly and Claire continue their mission to Dwynna Major even if it puts their lives and their hearts at risk?

Odyssey Works Dec 09 2023 Odyssey Works infiltrates the life of one person at a time to create a customtailored, life-altering performance. It may last for one day or a few months and consists of experiences that blur the boundaries of life and art—is that subway mariachi band, used book of poetry, or meal with a new friend real or a part of the performance? Central to this book is their 2013 performance for Rick Moody, author of *The Ice Storm*. His Odyssey lasted four months and included a fake children's book, introducing the themes of his performance, and a cello concert in a Saskatchewan prairie (which Moody almost missed after being stopped at customs with, suspiciously, no idea why he was traveling to Canada). The book includes Moody's interviews with Odyssey Works, an original short story by Amy Hempel, and six proposals for a new theory of making art.

Fargo Rock City Jul 24 2022 The year is 1983, and Chuck Klosterman just wants to rock. But he's got problems. For one, he's in the fifth grade. For another, he lives in rural North Dakota. Worst of all, his parents aren't exactly down with the long hairstyle which rocking requires. Luckily, his brother saves the day when he brings home a bit of manna from metal heaven, SHOUT AT THE DEVIL, Motley Crue's seminal paean to hair-band excess. And so Klosterman's twisted odyssey

begins, a journey spent worshipping at the heavy metal altar of Poison, Lita Ford and Guns N' Roses. In the hilarious, young-man-growing-up-with-a-soundtrack-tradition, FARGO ROCK CITY chronicles Klosterman's formative years through the lens of heavy metal, the irony-deficient genre that, for better or worse, dominated the pop charts throughout the 1980s. For readers of Dave Eggers, Lester Bangs, and Nick Hornby, Klosterman delivers all the goods: from his first dance (with a girl) and his eye-opening trip to Mandan with the debate team; to his list of 'essential' albums; and his thoughtful analysis of the similarities between Guns 'n' Roses' 'Lies' and the gospels of the New Testament.

Odyssey Dec 29 2022 Since their composition almost 3,000 years ago the Homeric epics have lost none of their power to grip audiences and fire the imagination: with their stories of life and death, love and loss, war and peace they continue to speak to us at the deepest level about who we are across the span of generations. That being said, the world of Homer is in many ways distant from that in which we live today, with fundamental differences not only in language, social order, and religion, but in basic assumptions about the world and human nature. This volume offers a detailed yet accessible introduction to ancient Greek culture through the lens of Book One of the *Odyssey*, covering all of these aspects and more in a comprehensive Introduction designed to orient students in their studies of Greek literature and history. The full Greek text is included alongside a facing English translation which aims to reproduce as far as feasible the word order and sound play of the Greek original and is supplemented by a Glossary of Technical Terms and a full vocabulary keyed to the specific ways that words are used in *Odyssey* I. At the heart of the volume is a full-length line-by-line commentary, the first in English since the 1980s and updated to bring the latest scholarship to bear on the text: focusing on philological and linguistic issues, its close engagement with the original Greek yields insights that will be of use to scholars and advanced students as well as to those coming to the text for the first time.

The Universal One Oct 27 2022 THE UNIVERSAL ONE was originally published in 1927 and distributed to the top scientists in the country. It is being republished at this crucial period for the sole purpose of again releasing vital new scientific knowledge to this new age- of new comprehension. Today the whole world is in a state of chaos fighting against the forces of greed, envy, jealousy and fear. Disharmony is rife. All of our human relations are in a state of violent upheaval. Civilization is in reverse. Science is being used to destroy instead of to build. We talk of world peace, yet those who are to plan the new world do not know the answer, the solution. Present knowledge of man's relation to Nature and Natural Law which controls his human relations is, as yet, inadequate to meet the situation. Man is still too near his jungle to either know the law which inexorably governs his every action and that of everything in Nature or to comprehend that he must obey Nature or be self-destroyed. Still dominated by jungle habits, he settles his human relations by jungle

methods. Wars and world chaos will continue until new knowledge applicable to the coming new cycle in man's evolution is acquired by him. What is this new knowledge? A consistent cosmogony is sorely needed for this newly dawning day of man's exaltation which is to come. Walter Russell spent a full seven years in writing this book. When it was first published in 1927, it won more condemnation than favor from a world which was not then as ready for it as now. The book mixed science and metaphysics in a manner which nullified its impression upon physicists. Gradually, however, many of its then radical statements have been verified by some of the world's greatest scientists and have won him many followers. The physicist draws a sharp line between things which he can in some way detect by the evidence of his senses and things which lie beyond that evidence. There is no denial of a "something" beyond the range of his senses and his sensed instruments, but what may be there is conjectural and, therefore, inadmissible as scientific data of a reliable nature. In other words, material evidence which lies within the narrow limits of man's sense-range is the only admissible evidence to science. But what about that vast range which will not respond to our sensed bodies and sensed instruments? Down the ages a rare few have been permitted to sever the senses which connect matter with its motivated Source in the consciousness of Universal Mind. These few have become conscious of the cosmos and have tried to tell the world of its simplicity. Each of these has faced an impossible task. The generalities and symbols which they did set down have been discounted and relegated to poetry or metaphysics or mysticism.

Situations Matter Apr 20 2022 Discusses the decision making process and how it is influenced by the environment.

Driven May 22 2022 In the mid-20th century, the Heldmans were tennis royalty. Julie was a volatile and gutsy tennis star, twice ranked number 5 in the world. Her mother Gladys was broadly admired for her unique magazine, *World Tennis*, and for engineering the women's tennis revolution. No one guessed that Gladys's hidden emotional abuse was the source of Julie's powerful drive. *Driven* is a highly readable insider's account of a pivotal time in women's tennis history; an in-depth look at Gladys's complex character; and the revealing story of Julie's interior journey, both on and off the court.

The Lincoln Highway Jun 10 2021 #1 NEW YORK TIMES BESTSELLER More than ONE MILLION copies sold A TODAY Show Read with Jenna Book Club Pick A New York Times Notable Book, and Chosen by Oprah Daily, Time, NPR, The Washington Post, Bill Gates and Barack Obama as a Best Book of the Year "Wise and wildly entertaining . . . permeated with light, wit, youth." —The New York Times Book Review "A classic that we will read for years to come." —Jenna Bush Hager, Read with Jenna book club "Fantastic. Set in 1954, Towles uses the story of two brothers to show that our personal journeys are never as linear or predictable as we might hope." —Bill Gates "A real joyride . . . elegantly constructed and compulsively readable." —NPR The bestselling author of *A Gentleman in Moscow* and *Rules of Civility*

and master of absorbing, sophisticated fiction returns with a stylish and propulsive novel set in 1950s America. In June, 1954, eighteen-year-old Emmett Watson is driven home to Nebraska by the warden of the juvenile work farm where he has just served fifteen months for involuntary manslaughter. His mother long gone, his father recently deceased, and the family farm foreclosed upon by the bank, Emmett's intention is to pick up his eight-year-old brother, Billy, and head to California where they can start their lives anew. But when the warden drives away, Emmett discovers that two friends from the work farm have hidden themselves in the trunk of the warden's car. Together, they have hatched an altogether different plan for Emmett's future, one that will take them all on a fateful journey in the opposite direction—to the City of New York. Spanning just ten days and told from multiple points of view, Towles's third novel will satisfy fans of his multi-layered literary styling while providing them an array of new and richly imagined settings, characters, and themes. "Once again, I was wowed by Towles's writing—especially because *The Lincoln Highway* is so different from *A Gentleman in Moscow* in terms of setting, plot, and themes. Towles is not a one-trick pony. Like all the best storytellers, he has range. He takes inspiration from famous hero's journeys, including *The Iliad*, *The Odyssey*, *Hamlet*, *Huckleberry Finn*, and *Of Mice and Men*. He seems to be saying that our personal journeys are never as linear or predictable as an interstate highway. But, he suggests, when something (or someone) tries to steer us off course, it is possible to take the wheel." – Bill Gates

Warrior King Apr 01 2023 Battle-weary after a desperate fight to save Earth from the Drasin alien onslaught, Confederation Captain Eric Weston is tasked with a perilous new mission. He and the crew of the *Odysseus* must hunt down those who unleashed the hellish attack on his homeworld and that of Earth's Priminae allies. But the situation turns dire when they catch sight of a ship belonging to the mysterious beings who orchestrate the fearsome Drasin's depredations. This powerful Empire, it seems, has two primary aims: to conquer new worlds and settle old scores. Weston's ultimate objective: keep humanity from becoming collateral damage as the Drasin war expands to engulf the galaxy.

Atom May 02 2023 The story of matter and the history of the cosmos from the perspective of a single oxygen atom, told with the insight and wit of one of the most dynamic physicists and writers working today. Through this astonishing work, he manages to stoke wonder at the powers and unlikely events that conspired to create our solar system, our ecosystem, and us.

Stray Feb 16 2022 From the author of the international bestseller *Sweetbitter*, a memoir of survival, starting over, and love in all its complicated guises. Even after achieving her dream of selling her debut novel, Stephanie Danler feels adrift in

New York. Struggling in the throes of a doomed relationship and haunted by her tumultuous childhood, something nameless compels her to return home to Southern California. In a cottage in Laurel Canyon, as a new life begins to shape itself, she finally succumbs to memories of the past that have proved impossible to escape. A father who swung in and out of her life erratically, charming and mercurial and prone to addiction. A mother now disabled by years of alcoholism and an aneurysm, who cannot remember the abuse she inflicted. The looming, desolate mountains of Colorado, and a teenage freedom that nearly killed her. And above all, the painful love and forgiveness for those who failed her over and over again. 'It's such a thrill to watch a writer open up her greediest thoughts, to slice open little pockets of her skin and root around underneath her flesh.' New York Times Book Review 'A compulsive, neck-breaking masterpiece.' Lisa Taddeo 'This is a story of triumph: the triumph of grit, talent, grace, and beauty over the dark pull of inner demons.' Dani Shapiro

Out of the Black Mar 08 2021 To keep the light of his life, he'll have to do some dark things. After Matt Caine loses his wife in a car accident, all he has left is his daughter, Anna. But just as the little girl--who survived the accident--finally starts thriving, Matt's former in-laws threaten to take her away via a bitter custody battle. Desperate to keep Anna and in debt to some dangerous local thugs, Matt has no good options. But he does have Jay, one very bad friend. Just out of jail and plagued by drug addiction, Jay tempts Matt with a foolproof kidnapping scheme. But what sounds like the perfect solution to all his problems eventually leads Matt through a nightmarish maze of betrayals and reversals, pushing him to his breaking point--and beyond. Now, with his entire life hanging in the balance, Matt makes a pledge of brutal payback.

Archangel One May 10 2021 An elite squadron must go undercover behind enemy lines in this thrilling new space adventure from the author of the Odyssey One series. Humanity has reached an uneasy truce with the Empire--but unless the allies bring the fight to the enemy, extinction is all but assured. In preparation for the inevitable next war, Commander Stephen Michaels is at the helm of the Archangel Squadron, and his orders are simple: go rogue. Disguised as mercenaries, Commander Michaels and the Archangels seek valuable intelligence on their imposing foe. Their mission takes them deep into uncharted territory, where they make inroads with the Empire, fiercely guarding their true identities and purpose. Fighting for the enemy goes against everything they stand for, but these are desperate times. As their deception increases, so does the risk. With the Empire's deadliest secrets within reach, Commander Michaels and the Archangels accept a mission that will take them even deeper into the Imperial fold. They know all too well that one wrong step won't just end their lives--it could end their entire civilization.

The Last Odyssey Jun 22 2022 To save the world and our future, Sigma Force must embark on a dangerous odyssey into an ancient past whose horrors are all too present in this page-turning thriller from #1 New York Times bestselling

author James Rollins that combines cutting-edge science, historical mystery, mythology, and pulse-pounding action. For eons, the city of Troy—whose legendary fall was detailed in Homer's Iliad—was believed to be myth, until archaeologists in the nineteenth century uncovered its ancient walls buried beneath the sands. If Troy was real, how much of Homer's twin tales of gods and monsters, curses and miracles—The Iliad and The Odyssey—could also be true and awaiting discovery? In the frozen tundra of Greenland, a group of modern-day researchers stumble on a shocking find: a medieval ship buried a half-mile below the ice. The ship's hold contains a collection of even older artifacts—tools of war—dating back to the Bronze Age. Inside the captain's cabin is a magnificent treasure that is as priceless as it is miraculous: a clockwork gold map imbedded with an intricate silver astrolabe. The mechanism was crafted by a group of Muslim inventors—the Ban? M?s? brothers—considered by many to be the Da Vincis of the Arab world—brilliant scientists who inspired Leonardo's own work. Once activated, the moving map traces the path of Odysseus's famous ship as it sailed away from Troy. But the route detours as the map opens to reveal a fiery river leading to a hidden realm underneath the Mediterranean Sea. It is the subterranean world of Tartarus, the Greek name for Hell. In mythology, Tartarus was where the wicked were punished and the monstrous Titans of old, imprisoned. When word of Tartarus spreads—and of the cache of miraculous weapons said to be hidden there—tensions explode in this volatile region where Turks battle Kurds, terrorists wage war, and civilians suffer untold horrors. The phantasmagoric horrors found in Homer's tales are all too real—and could be unleashed upon the world. Whoever possesses them can use their awesome power to control the future of humanity. Now, Sigma Force must go where humans fear to tread. To prevent a tyrant from igniting a global war, they must cross the very gates of Hell.

An Odyssey: A Father, A Son and an Epic: SHORTLISTED FOR THE BAILLIE GIFFORD PRIZE 2017 Jan 30 2023
SHORTLISTED FOR THE BAILLIE GIFFORD PRIZE 2017 SHORTLISTED FOR THE LONDON HELLENIC PRIZE 2017
WINNER OF THE PRIX MÉDITERRANÉE 2018 From the award-winning, best-selling writer: a deeply moving tale of a father and son's transformative journey in reading – and reliving – Homer's epic masterpiece.

Odysseus Awakening Jul 04 2023 Defy the inevitable. Such is the stance of Confederation captain Eric Weston and the crew of the starship *Odysseus*, patrolling the outer limits of Priminae space, anticipating the Empire's next attacks. Connected with the Terran FTL tech--the transition drive--humanity might stand a chance against the overwhelming forces. Until the entire planetary system goes dark. Outnumbered and outgunned, the *Odysseus* arrives to find the Empire securing critical intelligence from Priminae ships--data that could prove disastrous in the wrong hands. As the *Odysseus* enters the fray, the ship's systems exhibit increasingly chaotic glitches, while haunting apparitions stalk the crew. As they

struggle to control their own ship--and their sanity--against the tide of battle, how can they hope to grasp victory when the Odysseus itself appears to be coming to life?

One Day We'll All Be Dead and None of This Will Matter Sep 25 2022 One of NPR's Best Books of the Year A DEBUT COLLECTION OF FIERCE, FUNNY ESSAYS ABOUT GROWING UP THE DAUGHTER OF INDIAN IMMIGRANTS IN WESTERN CULTURE, ADDRESSING SEXISM, STEREOTYPES, AND THE UNIVERSAL MISERIES OF LIFE In *One Day We'll All Be Dead and None of This Will Matter*, Scaachi Koul deploys her razor-sharp humor to share all the fears, outrages, and mortifying moments of her life. She learned from an early age what made her miserable, and for Scaachi anything can be cause for despair. Whether it's a shopping trip gone awry; enduring awkward conversations with her bikini waxer; overcoming her fear of flying while vacationing halfway around the world; dealing with Internet trolls, or navigating the fears and anxieties of her parents. Alongside these personal stories are pointed observations about life as a woman of color: where every aspect of her appearance is open for critique, derision, or outright scorn; where strict gender rules bind in both Western and Indian cultures, leaving little room for a woman not solely focused on marriage and children to have a career (and a life) for herself. With a sharp eye and biting wit, incomparable rising star and cultural observer Scaachi Koul offers a hilarious, scathing, and honest look at modern life.

Earth Odyssey Jul 12 2021 Like many of us, Mark Hertsgaard has long worried about the declining health of our environment. But in 1991, he decided to act on his concern and investigate the escalating crisis for himself. Traveling on his own dime, he embarked on an odyssey lasting most of the decade and spanning nineteen countries. Now, in *Earth Odyssey*, he reports on our environmental predicament through the eyes of the people who live it. From the gilded boardrooms of Paris to the traffic-clogged streets of Bangkok, we travel from the deep human past to our still unfolding future. Much of the story revolves around people like Zhenbing, Hertsgaard's charismatic interpreter in China, whose desire to escape poverty leaves him indifferent to his country's horrific air and water pollution. We also meet Garang, a proud Dinka tribesman whose response to Sudan's famine shows the difficulty of building an environmentally sustainable future without bridging the gap between rich and poor. Drawing on interviews with Václav Havel, Al Gore, Jacques Cousteau, and numerous other prominent figures, Hertsgaard offers fresh insight into such complex issues as humanity's growing addiction to the automobile, the insidious spread of nuclear technology, and the inevitable tension between unfettered capitalism and the health of the biosphere. *Earth Odyssey* is a vivid, passionate narrative about one man's journey around the world in search of the answer to the most important question of our time: Is the future of the human species at risk? Combining first-rate reportage with irresistible storytelling, Mark Hertsgaard has written an essential--and

ultimately hopeful--book about the uncertain fate of humankind.

Why Some Like It Hot Oct 15 2021 Do your ears burn whenever you eat hot chile peppers? Does your face immediately flush when you drink alcohol? Does your stomach groan if you are exposed to raw milk or green fava beans? If so, you are probably among the one-third of the world's human population that is sensitive to certain foods due to your genes' interactions with them. Formerly misunderstood as "genetic disorders," many of these sensitivities are now considered to be adaptations that our ancestors evolved in response to the dietary choices and diseases they faced over millennia in particular landscapes. They are liabilities only when we are "out of place," on globalized diets depleted of certain chemicals that triggered adaptive responses in our ancestors. In *Why Some Like It Hot*, an award-winning natural historian takes us on a culinary odyssey to solve the puzzles posed by "the ghosts of evolution" hidden within every culture and its traditional cuisine. As we travel with Nabhan from Java and Bali to Crete and Sardinia, to Hawaii and Mexico, we learn how various ethnic cuisines formerly protected their traditional consumers from both infectious and nutrition-related diseases. We also bear witness to the tragic consequences of the loss of traditional foods, from adult-onset diabetes running rampant among 100 million indigenous peoples to the historic rise in heart disease among individuals of northern European descent. In this, the most insightful and far-reaching book of his career, Nabhan offers us a view of genes, diets, ethnicity, and place that will forever change the way we understand human health and cultural diversity. This book marks the dawning of evolutionary gastronomy in a way that may save and enrich millions of lives.

The Lost Books of the Odyssey Feb 11 2024 A BRILLIANT AND BEGUILING REIMAGINING OF ONE OF OUR GREATEST MYTHS BY A GIFTED YOUNG WRITER Zachary Mason's brilliant and beguiling debut novel, *The Lost Books of the Odyssey*, reimagines Homer's classic story of the hero Odysseus and his long journey home after the fall of Troy. With brilliant prose, terrific imagination, and dazzling literary skill, Mason creates alternative episodes, fragments, and revisions of Homer's original that taken together open up this classic Greek myth to endless reverberating interpretations. *The Lost Books of the Odyssey* is punctuated with great wit, beauty, and playfulness; it is a daring literary page-turner that marks the emergence of an extraordinary new talent.

The One-Eyed Giant Feb 28 2023 Retells a part of the *Odyssey* in which King Odysseus fights the cyclops.

Dark Matter Mar 12 2024 NEW YORK TIMES BESTSELLER • COMING SOON TO APPLE TV+ • A "mind-blowing" (Entertainment Weekly) speculative thriller about an ordinary man who awakens in a world inexplicably different from the reality he thought he knew—from the author of *Upgrade*, *Recursion*, and the *Wayward Pines* trilogy "Are you happy with your life?" Those are the last words Jason Dessen hears before the kidnapper knocks him unconscious. Before he

awakens to find himself strapped to a gurney, surrounded by strangers in hazmat suits. Before a man he's never met smiles down at him and says, "Welcome back, my friend." In this world he's woken up to, Jason's life is not the one he knows. His wife is not his wife. His son was never born. And Jason is not an ordinary college professor but a celebrated genius who has achieved something remarkable. Something impossible. Is it this life or the other that's the dream? And even if the home he remembers is real, how will Jason make it back to the family he loves? From the bestselling author Blake Crouch, *Dark Matter* is a mind-bending thriller about choices, paths not taken, and how far we'll go to claim the lives we dream of.

Why Homer Matters Aug 05 2023 "Adam Nicolson writes popular books as popular books used to be, a breeze rather than a scholarly sweat, but humanely erudite, elegantly written, passionately felt...and his excitement is contagious."—James Wood, *The New Yorker* Adam Nicolson sees the *Iliad* and the *Odyssey* as the foundation myths of Greek—and our—consciousness, collapsing the passage of 4,000 years and making the distant past of the Mediterranean world as immediate to us as the events of our own time. *Why Homer Matters* is a magical journey of discovery across wide stretches of the past, sewn together by the poems themselves and their metaphors of life and trouble. Homer's poems occupy, as Adam Nicolson writes "a third space" in the way we relate to the past: not as memory, which lasts no more than three generations, nor as the objective accounts of history, but as epic, invented after memory but before history, poetry which aims "to bind the wounds that time inflicts." The Homeric poems are among the oldest stories we have, drawing on deep roots in the Eurasian steppes beyond the Black Sea, but emerging at a time around 2000 B.C. when the people who would become the Greeks came south and both clashed and fused with the more sophisticated inhabitants of the Eastern Mediterranean. The poems, which ask the eternal questions about the individual and the community, honor and service, love and war, tell us how we became who we are.

The Second Kind of Impossible Jan 10 2024 *Shortlisted for the 2019 Royal Society Insight Investment Science Book Prize* One of the most fascinating scientific detective stories of the last fifty years, an exciting quest for a new form of matter. "A riveting tale of derring-do" (*Nature*), this book reads like James Gleick's *Chaos* combined with an Indiana Jones adventure. When leading Princeton physicist Paul Steinhardt began working in the 1980s, scientists thought they knew all the conceivable forms of matter. *The Second Kind of Impossible* is the story of Steinhardt's thirty-five-year-long quest to challenge conventional wisdom. It begins with a curious geometric pattern that inspires two theoretical physicists to propose a radically new type of matter—one that raises the possibility of new materials with never before seen properties, but that violates laws set in stone for centuries. Steinhardt dubs this new form of matter "quasicrystal." The rest of the

scientific community calls it simply impossible. *The Second Kind of Impossible* captures Steinhardt's scientific odyssey as it unfolds over decades, first to prove viability, and then to pursue his wildest conjecture—that nature made quasicrystals long before humans discovered them. Along the way, his team encounters clandestine collectors, corrupt scientists, secret diaries, international smugglers, and KGB agents. Their quest culminates in a daring expedition to a distant corner of the Earth, in pursuit of tiny fragments of a meteorite forged at the birth of the solar system. Steinhardt's discoveries chart a new direction in science. They not only change our ideas about patterns and matter, but also reveal new truths about the processes that shaped our solar system. The underlying science is important, simple, and beautiful—and Steinhardt's firsthand account is “packed with discovery, disappointment, exhilaration, and persistence...This book is a front-row seat to history as it is made” (Nature).

The Genome Odyssey Jan 18 2022 In *The Genome Odyssey*, Dr. Euan Ashley, Stanford professor of medicine and genetics, brings the breakthroughs of precision medicine to vivid life through the real diagnostic journeys of his patients and the tireless efforts of his fellow doctors and scientists as they hunt to prevent, predict, and beat disease. Since the Human Genome Project was completed in 2003, the price of genome sequencing has dropped at a staggering rate. It's as if the price of a Ferrari went from \$350,000 to a mere forty cents. Through breakthroughs made by Dr. Ashley's team at Stanford and other dedicated groups around the world, analyzing the human genome has decreased from a heroic multibillion dollar effort to a single clinical test costing less than \$1,000. For the first time we have within our grasp the ability to predict our genetic future, to diagnose and prevent disease before it begins, and to decode what it really means to be human. In *The Genome Odyssey*, Dr. Ashley details the medicine behind genome sequencing with clarity and accessibility. More than that, with passion for his subject and compassion for his patients, he introduces readers to the dynamic group of researchers and doctor detectives who hunt for answers, and to the pioneering patients who open up their lives to the medical community during their search for diagnoses and cures. He describes how he led the team that was the first to analyze and interpret a complete human genome, how they broke genome speed records to diagnose and treat a newborn baby girl whose heart stopped five times on the first day of her life, and how they found a boy with tumors growing inside his heart and traced the cause to a missing piece of his genome. These patients inspire Dr. Ashley and his team as they work to expand the boundaries of our medical capabilities and to envision a future where genome sequencing is available for all, where medicine can be tailored to treat specific diseases and to decode pathogens like viruses at the genomic level, and where our medical system as we know it has been completely revolutionized.

Odysseus Ascendant Nov 27 2022 The Empire's next target is Earth, whose denizens have proven themselves effective

allies of the Priminae, and therefore enemies of the Empire.

Into the Black May 14 2024 "Beyond the confines of our small world, far from the glow of our star, lies a galaxy and universe much larger and more varied than anyone on Earth can possibly imagine. For the new NAC spacecraft *Odyssey* and her crew, the unimaginable facets of this untouched world are about to become reality. The *Odyssey's* maiden voyage is an epic adventure destined to make history. Captain Eric Weston and his crew, pushing past the boundaries of security, encounter horrors, wonders, monsters, and people, all of which will test their resolve, challenge their abilities, and put in sharp relief what is necessary to be a hero. A first-rate military science fiction epic that combines old-school space opera and modern storytelling, *Into the Black: Odyssey One* is a riveting, exhilarating adventure with vivid details, rich mythology, and relentless pacing"--P. [4] of cover.

The Chosen One Dec 17 2021 This memoir filled with "overwhelming emotions and power" (The Mary Sue) testifies to the disappointments and triumphs of a Black first-generation college student in this exploration of the first-year experience. There are many watchers and they are always white. That's the first thing Echo notices as she settles into Dartmouth College. Despite graduating high school in Cleveland as valedictorian, Echo immediately struggles to keep up in demanding classes. Dartmouth made many promises it couldn't keep. The campus is not a rainbow-colored utopia where education lifts every voice. Nor is it a paradise of ideas, an incubator of inclusivity, or even an exciting dating scene. But it might be a portal to different dimensions of time and space—only accessible if Echo accepts her calling as a Chosen One and takes charge of her future by healing her past. This remarkable challenge demands vulnerability, humility, and the conviction to ask for help without sacrificing self-worth. In mesmerizing personal narrative and magical realism, Echo Brown confronts mental illness, grief, racism, love, friendship, ambition, self-worth, and belonging as they steer the fates of first-generation college students at Dartmouth. *The Chosen One* is an unforgettable coming-of-age story that bravely unpacks the double-edged college transition—as both catalyst for old wounds and a fresh start. Finalist for the Ohioana Book Award A Mary Sue Best YA Novel of the Year 2022 Catalyst Award Nominee for Best Memoir A Junior Library Guild Selection ? "Powerful and vulnerable"—Booklist, starred review?

The Heart of Matter Jun 15 2024 "Being the second voyage of the NACS odyssey."

The Fallen Odyssey Oct 07 2023 Lost in a parallel universe of swords, shields, magic, and monsters, a young man searches for a way home. When seventeen-year-old Justin Holmes wakes up in a strange, fantastic world, all he wants is to find a way back to his ordinary life in small-town America. But his search for answers takes an unexpected turn when he and a band of unlikely allies are attacked by dark forces wielding otherworldly power. Forced to flee into the

wilderness, Justin feels farther than ever from discovering how he accidentally arrived in this strange realm. Can he help his new friends in their desperate quest? Will he ever see home again? And was his transportation from Earth an accident at all? Ancient secrets are revealed that could shake the foundations of this alternate world... and might unlock Justin's portal home. The start of a four-book epic fantasy series that readers call FUN, ENGROSSING, and JAW-DROPPING.

A Personal Odyssey Nov 15 2021 This is the gritty story of one man's lifelong education in the school of hard knocks, as his journey took him from Harlem to the Marines, the Ivy League, and a career as a controversial writer, teacher, and economist in government and private industry. It is also the story of the dramatically changing times in which this personal odyssey took place.

A Private Family Matter Nov 08 2023 "This is a story about how I was saved by love at a time when most people considered me beyond rescue," begins Victor Rivas Rivers in this powerful chronicle of how he escaped the war zone of domestic violence -- too often regarded as a "private family matter" -- and went on to become a good man, a film star, and a prominent activist. The Cuban-born author begins by recalling when he was kidnapped, along with three of his siblings, by his own father, who abandoned Victor's pregnant mother and took the children on a cross-country hell-ride that nearly ended in a fatal collision. This journey of survival portrays with riveting detail how, instead of becoming a madman like his father, Victor was saved by a band of mortal angels. Miraculously, seven families stepped forward, along with teachers and coaches, to empower him on his road from gang member to class president, through harrowing and hilarious football adventures at Florida State and with the Miami Dolphins, to overcoming the Hollywood odds and becoming a champion for all those impacted by domestic violence. Though at times Victor's odyssey is heartbreaking and disturbing, *A Private Family Matter* is ultimately a triumphant testament to humanity, courage, and love. Profound and poignant, it is a compelling memoir with a cause. Victor Rivers's way of thanking all the angels and advocates who made a difference in his life is by trying to make a difference in all of ours.

When Life Blows Up Sep 06 2023 "Filled with forgiveness and love, and a story of rebirth and transformation that recognizes our deepest fears and hurt, and offers a path to healing." --John de Graaf, co-author of *AFFLUENZA* and co-founder of the Happiness Alliance In *When Life Blows Up*, Cylvia takes the reader on an intimate, vulnerable journey through a devastating public shaming that destroyed her business, countless relationships and even her personal sense of identity. Through the long annihilation of who she believed herself to be she discovered the True Self she hadn't yet met and opened to new opportunities she hadn't known existed. This book offers insights and practical tools for anyone experiencing loss, grief, and unexpected life upheaval, and who may be struggling with personal identity and purpose. It

offers proven strategies for: • MANAGING FEAR EVEN IN CRISIS • FINDING POWER IN SURRENDER • HARNESSING FORGIVENESS • RELEASING SHAME AND GUILT • REENTERING CAREER, COMMUNITY AND LIFE WITH INTENTION AND POWER This book is an inspiring guide for moving from surviving to thriving, from breaking down to breaking open. It is for all those phoenixes on the rise committed to harnessing hardship to grow into more peaceful, powerful beings. “This book can serve as an inspiration for anyone who feels that they can’t possibly get up after life has knocked them down.” -- John Kitzhaber, former Oregon Governor “When Life Blows Up” is a living testimony to the power of forgiveness and the healing available when we allow Wholly Spirit to guide our lives. ... I think many readers will be in turn relating, wondering, and hopeful.” -- Rev. Jane Hiatt, Senior Minister, Unity Community of Central Oregon CYLVIA HAYES is an award winning public speaker, empowerment coach, new economy strategist, professional environmentalist and former First Lady of Oregon. She is founder and CEO of 3Estrategies and Cylvia Hayes Enterprises. She is also a minister-in-training with Unity Worldwide Ministries. Cylvia lives in Bend, Oregon with a home and backyard like a wildlife sanctuary. Her greatest loves are her life partner, John, her son, Jonathan, dogs, horses, hiking and camping and all things Nature.

One in a Billion Jun 03 2023 This heart-wrenching story immerses readers in the dramatic survival of one outspoken man who illuminates the souls of a billion ordinary Chinese citizens. An Wei—a stubborn, hardworking peasant who has lived by his values and stood up for his convictions—has succeeded against all odds in the authoritarian environment of China. Despite grinding poverty, hunger, reeducation campaigns, and attacks from jealous peers, An Wei continues to inspire with his daring achievements, such as launching a democratic congress in his own village. His compelling life provides a vivid backdrop for understanding the development of modern China from the unique perspective of an outspoken citizen. Through his audacious determination and survival skills forged in rural poverty, An Wei’s unstoppable drive to improve himself and rural China will captivate and enthrall readers. Her website can be found at <https://nancypine.info/>
Sister Wendy's Odyssey Feb 04 2021 Sister Wendy Beckett describes the paintings and sculpture she studied during her visits to six art museums in Great Britain.

The Defining Decade Mar 20 2022 The Defining Decade has changed the way millions of twentysomethings think about their twenties—and themselves. Revised and reissued for a new generation, let it change how you think about you and yours. Our "thirty-is-the-new-twenty" culture tells us the twentysomething years don't matter. Some say they are an extended adolescence. Others call them an emerging adulthood. In *The Defining Decade*, Meg Jay argues that twentysomethings have been caught in a swirl of hype and misinformation, much of which has trivialized the most

transformative time of our lives. Drawing from more than two decades of work with thousands of clients and students, Jay weaves the latest science of the twentysomething years with behind-closed-doors stories from twentysomethings themselves. The result is a provocative read that provides the tools necessary to take the most of your twenties, and shows us how work, relationships, personality, identity and even the brain can change more during this decade than at any other time in adulthood—if we use the time well. Also included in this updated edition: Up-to-date research on work, love, the brain, friendship, technology, and fertility What a decade of device use has taught us about looking at friends—and looking for love—online 29 conversations to have with your partner—or to keep in mind as you search for one A social experiment in which "digital natives" go without their phones A Reader's Guide for book clubs, classrooms, or further self-reflection

Bright Galaxies, Dark Matter, and Beyond Aug 13 2021 How Vera Rubin convinced the scientific community that dark matter might exist, persevering despite early dismissals of her work. We now know that the universe is mostly dark, made up of particles and forces that are undetectable even by our most powerful telescopes. The discovery of the possible existence of dark matter and dark energy signaled a Copernican-like revolution in astronomy: not only are we not the center of the universe, neither is the stuff of which we're made. Astronomer Vera Rubin (1928–2016) played a pivotal role in this discovery. By showing that some astronomical objects seem to defy gravity's grip, Rubin helped convince the scientific community of the possibility of dark matter. In *Bright Galaxies, Dark Matter, and Beyond*, Ashley Jean Yeager tells the story of Rubin's life and work, recounting her persistence despite early dismissals of her work and widespread sexism in science. Yeager describes Rubin's childhood fascination with stars, her education at Vassar and Cornell, and her marriage to a fellow scientist. At first, Rubin wasn't taken seriously; she was a rarity, a woman in science, and her findings seemed almost incredible. Some observatories in midcentury America restricted women from using their large telescopes; Rubin was unable to collect her own data until a decade after she had earned her PhD. Still, she continued her groundbreaking work, driving a scientific revolution. She received the National Medal of Science in 1993, but never the Nobel Prize—perhaps overlooked because of her gender. She's since been memorialized with a ridge on Mars, an

asteroid, a galaxy, and most recently, the Vera C. Rubin Observatory—the first national observatory named after a woman.

Your Story Matters Sep 13 2021 Your Story Matters presents a dynamic and spiritually formative process for understanding and redeeming the past in order to live well in the present and into the future. Leslie Leyland Fields has used and taught this practical and inspiring writing process for decades, helping people from all walks of life to access memory and sift through the truth of their stories. This is not just a book for writers. Each one of us has a story, and understanding God's work in our stories is a vital part of our faith. Through the spiritual practice of writing, we can "remember" his acts among us, "declare his glory among the nations," and pass on to others what we have witnessed of God in this life: the mysterious, the tragic, the miraculous, the ordinary. With a companion video curriculum from RightNow Media, this is a "why not" book as opposed to a "how to" book. Leslie asks each of us an important question: "Why not learn to tell your story, in the context of the grander story of God?"
