*Phantoms in the Brain* V. S. Ramachandran,1999-08-18 Neuroscientist V S Ramachandran is internationally renowned for uncovering answers to the deep and quirky questions of human nature that few scientists have dared to address His bold insights about the brain are matched only by the stunning simplicity of his experiments using such low tech tools as cotton swabs glasses of water and dime store mirrors In *Phantoms in the Brain* Dr Ramachandran recounts how his work with patients who have bizarre neurological disorders has shed new light on the deep architecture of the brain and what these findings tell us about who we
