Start with Why May 13 2022 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. **START WITH WHY** asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. **START WITH WHY** shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

Built to Last Jan 21 2023 "I loved this delightful romance about makeovers of old homes, old personas, and relationships that never had a chance to launch. A sweet, charming reminder of what you can build with a strong foundation." - Jodi Picoult, #1 New York Times bestselling author of *The Book of Two Ways* Erin Hahn's *Built to Last* is a sparkling second chance romance about owning what you're worth and fighting for the one who got away. Shelby Springfield has spent the last ten years trying to overcome her past, sanding it away like the rough spots on the vintage furniture she makes over. But as a former child star, it's hard to forget a widely documented meltdown and huge public break up with her former co-star Lyle Jessup. It's also hard to forget her other co-star and childhood sweetheart, Cameron Riggs—the one who got away. Anytime Shelby has called, Cameron has come running... And then he runs right off again to chase stories around the world by making documentaries, too scared to admit what he really wants. But when Lyle stirs the pot, getting the two back in the spotlight with a home renovation show, Cameron can't help but get on board. There's something in it for everyone—almost. Cameron wants to set down some roots. Shelby wants to prove she's not the messy party girl anymore. And a jealous Lyle can't help

but try to get in the way. But for his two childhood friends who had more chemistry than he could ever dream of, nothing is getting in the way of their second chance at love. "Thank you, Erin Hahn, for making me laugh and swoon and cry sweet, happy tears. Can I live in this book?" - Jen Doll, author of *Save the Date* and *Unclaimed Baggage*

Leaders Eat Last Apr 04 2024 Finally in paperback: the New York Times bestseller by the acclaimed, bestselling author of *Start With Why* and *Together is Better*. Now with an expanded chapter and appendix on leading millennials, based on Simon Sinek's viral video "Millennials in the workplace" (150+ million views). Imagine a world where almost everyone wakes up inspired to go to work, feels trusted and valued during the day, then returns home feeling fulfilled. This is not a crazy, idealized notion. Today, in many successful organizations, great leaders create environments in which people naturally work together to do remarkable things. In his work with organizations around the world, Simon Sinek noticed that some teams trust each other so deeply that they would literally put their lives on the line for each other. Other teams, no matter what incentives are offered, are doomed to infighting, fragmentation and failure. Why? The answer became clear during a conversation with a Marine Corps general. "Officers eat last," he said. Sinek watched as the most junior Marines ate first while the most senior Marines took their place at the back of the line. What's symbolic in the chow hall is deadly serious on the battlefield: Great leaders sacrifice their own comfort--even their own survival--for the good of those in their care. Too many workplaces are driven by cynicism, paranoia, and self-interest. But the best ones foster trust and cooperation because their leaders build what Sinek calls a "Circle of Safety" that separates the security inside the team from the challenges outside. Sinek illustrates his ideas with fascinating true stories that range from the military to big business, from government to investment banking.

Don't Fear the Spreadsheet Jul 03 2021 Written in a question-and-answer format, this lowest-level beginner book covers the extreme basics of using spreadsheets in Excel. It answers hundreds of common questions, including Can I delete data from a spreadsheet without changing the formatting? How can I merge two cells, columns, or rows? How do I use text-wrapping? How do I create custom functions? and What is a Macro and how do I go about creating it? Intended for the roughly 40 percent of Excel users who have never even entered a formula, this book will demystify the problems and confusion that prevent them from using the program to its potential.

The Last Book Mar 03 2024 Readers familiar with Sam Pickering's delightful essays will certainly hope that the title of his latest collection is not intended as prophecy. A true original, Pickering offers observation on everyday life that never fail to sparkle with wit, insight, amusement, and wonder. Freely blending fact with fiction-"Writing makes liars of us all," he notes-Pickering ranges easily and amiably from his home base in Storrs, Connecticut, to his roots in middle Tennessee, with numerous side trips to observe the natural world to reflect on the bonds of family and friends. One essay finds him playing auctioneer at a local arts council event, jollying the attendees with "tattered country tales" and fanciful, extravagant claims for items being sold. In another piece, his tongue-in-check remarks about the split infinitive, when quoted in a newspaper, ignite a small controversy that lands him on radio talk shows and provokes a flood of sometimes angry e-mail. Yet, whenever the irritations of the human world become a bit too wearying, Pickering finds ready refreshment in the doings of birds and insects and the splash of sunlight on a tree or flower. Throughout these sixteen essays, Pickering implicitly heeds the advice he offers his son just before the boy must meet the parents of his prom date: "The good storyteller, I instructed Francis, heaps paragraph upon paragraph, just like a waitress serving mashed potatoes in a family-style restaurant." Having dined at the table of a master storyteller, readers will depart this collection feeling fully sated-indeed, well nourished. The Author: A native of Nashville, Sam Pickering is a professor of English at the University of Connecticut and author of eleven previous books of essays. His most recent collections are *Living to Prowl*, *Deprived of Happiness*, and *A Little Fling*.

Renewed - Women's Bible Study Participant Workbook with Leader Helps Nov 18 2022 Lessons from Naomi in the Book of Ruth. Few things make us feel as helpless as living with a story we don't like. Maybe one that involves the loss of a loved one, an unwanted transition, a difficult diagnosis, or a dream that fell through. At one time or another, we all deal with disappointments and feelings that life is unfair or that we are being punished. In *Renewed*, a four-week study of the Book of Ruth, women glean wisdom from Naomi's perspective, a woman who lived a story she didn't choose or like. Forced to chart a new path as she mourned the loss of her husband and two sons, Naomi learned that the journey from bitterness to renewed hope and joy was rooted in God's promise of redemption. With insight from her own journey of living with a story that is not easy, Heather teaches women to flourish even as they live hard stories through a willingness to trust that God can transform them and trade their heartache for hope. They will learn to rely on God's movement in the details of their story, even when it can't be seen, gain confidence to act in the part of their stories that they can change, and watch expectantly for God to redeem the parts they can't. Components for this four-week Bible study, available separately, include a Participant Workbook with Leader Helps and a DVD with four 20 to 25-minute segments (with closed captioning).

Built to Last Jul 27 2023 A nomad fashion's a home that's meant to be built and rebuilt. A family tears down an old house and erects a new one in its place. Even the Eiffel Tower wasn't meant to be anything more than temporary. As humans, we don't always build things to endure the test of time. *Built to Last* brings together the award-winning author and artist David Macaulay's creative, exacting thinking about buildings and designs that were crafted with a strength of structure and purpose that defy the everyday: Castle, Cathedral, and Mosque. This gorgeous volume includes newly researched information about each building and how it was built. And, for the first time ever, the Caldecott Honor-winning *Castle and Cathedral* appear in full color—with stunning new drawings that enrich the reader's understanding of these structures, and capture intriguing new perspectives and details. Just as the buildings themselves were created to last, our interest in the structures themselves, the people who created them, and the purposes for which they were made endures as well. This impeccably researched volume—a necessary addition to the bookshelf of anyone interested in architecture—celebrates this spirit of endurance and serves as a reminder that building well and leaving something of consequence behind, whether a building, a design, or an idea, is still of the utmost importance.

The Mindfulness Workbook for Addiction offers readers an effective program for working through their addiction and grief with cognitive behavior therapy (CBT), dialectical behavior therapy (DBT), and acceptance and commitment therapy (ACT). Created by a psychologist who works for the Department of Veterans Affairs and a marriage and family therapist who works for Sharp Mesa Vista Hospital, this mindfulness training workbook is effective for treating the emotion dysregulation, stress, depression, and grief that lie at the heart of addiction. Turning the Flywheel Apr 11 2022 A companion guidebook to the number-one bestselling *Good to Great*, focused on implementation of the flywheel concept, one of Jim Collins' most memorable ideas that has been used across industries and the social sectors, and with startups. The key to business success is not a single innovation or one plan. It is the act of turning the flywheel, slowly gaining momentum and eventually reaching a breakthrough. Building upon the flywheel concept introduced in his groundbreaking classic *Good to Great*, Jim Collins teaches readers how to create their own flywheel, how to accelerate the flywheel's momentum, and how to stay on the flywheel in shifting markets and during times of turbulence. Combining research from his *Good to Great* labs and case studies from organizations like Amazon, Vanguard, and the Cleveland Clinic which have turned their flywheels with outstanding results, Collins demonstrates that successful organizations can disrupt the world around them—and reach unprecedented success—by employing the flywheel concept.

Good to Great Jun 13 2022 The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies

generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

My Last Step Backward Nov 30 2023 After showcasing her talent as the lead in her high schools production of Grease, Tasha Schuh began to dream of a career in theater. No one knew that the stage itself would steal her dream and almost her life during a rehearsal for the next big show. Just days before her opening night performance in The Wizard of Oz, sixteen-year-old Tasha took one step backward and fell sixteen feet through a trap door. On that day, Nov. 11, 1997, she landed on the concrete floor of the historic Sheldon Theater, breaking her neck, crushing her spinal cord, and fracturing her skull. She would never walk again. For the next three days, Tasha prepared for a surgery that would at best leave her a C-5 quadriplegic. Post-op complications turned Tasha's struggle and ultimate triumph into an unbelievable journey. From loss and grief to self-discovery and achievement, Tasha's faith, resilience, and honesty have allowed her to leave the old Tasha behind while she confronts the new Tasha's life from a state of the art wheelchair. Discover Tasha's remarkable spirit in *My Last Step Backward*, a poignant memoir that seeks to inspire you to welcome adversity and face your own trap door of opportunity.
