The Beach Beneath the Street McKenzie Wark, 2015-05-05 Over fifty years after the Situationist International appeared its legacy continues to inspire activists artists and theorists around the world Such a legend has accrued to this movement that the story of the SI now demands to be told in a contemporary voice capable of putting it into the context of twenty first century struggles McKenzie Wark delves into the Situationists unacknowledged diversity revealing a world as rich in practice as it is in theory Tracing the group s development from the bohemian Paris of the 50s to the explosive days of May 68 Wark s take on the Situationists is biographically and historically rich presenting the group as an ensemble creation rather than the brainchild and dominion of its most famous member Guy Debord Roaming through Europe and the lives of those who made up the movement including Constant Asger Jorn Mich le Bernstein Alex Trocchi and Jacqueline De Jong Wark uncovers an international movement riven with conflicting passions Accessible to those who have only just discovered the Situationists and filled with new insights *The Beach Beneath the Street* rereads the group s history in the light of our contemporary experience of communications architecture and everyday life The Situationists tried to escape the world of twentieth century spectacle and failed in the attempt Wark argues that they may still help us to escape the twenty first century while we still can

Situationist International Anthology , 2024-10-08 The Situationist International Anthology is the most comprehensive and accurately translated collection of situationist writings in English In 1957 a few European avant

garde groups came together to form the Situationist International Picking up where the dadaists and surrealists had left off the situationists challenged people's passive conditioning with carefully calculated scandals and the playful tactic of d' tournament rerouting hijacking Seeking a more extreme social revolution than was dreamed of by most leftists they developed an incisive critique of the global spectacle commodity system and of its Communist pseudo opposition and their new methods of agitation helped trigger the May 1968 revolt in France Since then situationist theories and tactics have continued to inspire radical currents all over the world This volume presents a rich variety of articles leaflets graffiti and internal documents ranging from experiments in psychogeography to lucid analyses of the Watts riot the Vietnam War the Prague Spring the Chinese Cultural Revolution and other crises and upheavals of the sixties For this new edition all the translations have been fine tuned and the bibliography has been updated to include comments on dozens of newer books by and about the situationists

The Spectacle of Disintegration McKenzie Wark, 2013-03-12 Following his acclaimed history of the Situationist International up until the late sixties *The Beach Beneath the Street* McKenzie Wark returns with a companion volume which puts the late work of the Situationists in a broader and deeper context charting their contemporary relevance and their deep critique of modernity Wark builds on their work to map the historical stages of the society of the spectacle from the diffuse to the integrated to what he calls the disintegrating spectacle *The Spectacle of Disintegration* takes the reader through the critique of political aesthetics of former Situationist T J Clark the Fourierist utopia of Raoul Vaneigem Ren Vienet's earthy situationist cinema Gianfranco Sangunetti's pranking of the Italian ruling class Alice Becker Ho's account of the anonymous language of the Romany Guy Debord's late films and his surprising work as a game designer At once an extraordinary counter history of radical praxis and a call to arms in the age of financial crisis and the resurgence of the streets *The Spectacle of Disintegration* recalls the hidden journeys taken in the attempt to leave the twentieth century and plots an exit from the twenty first The dustjacket unfolds to reveal a fold out poster of the collaborative graphic essay combining text selected by McKenzie Wark with composition and drawings by Kevin C Pyle

Capital Is Dead McKenzie Wark, 2021-02-09 It's not capitalism it's not neoliberalism what if it's something worse In this radical and visionary new book McKenzie Wark argues that information has empowered a new kind of ruling class Through the ownership and control of information this emergent class dominates not only labour but capital as traditionally understood as well And it's not just tech companies like Amazon and Google Even Walmart and Nike can now dominate the entire production chain through the ownership of not much more than brands patents copyrights and logistical systems While techno utopian apologists still celebrate these innovations as an improvement on capitalism for workers and the planet it's worse The new ruling class uses the powers of information to route around any obstacle labor and social movements put up So how do we find a way out *Capital Is Dead* offers not only the theoretical tools to analyze this new world but ways to change it Drawing on the writings of a surprising range of classic and contemporary theorists Wark offers an illuminating overview of the contemporary

condition and the emerging class forces that control and contest it

Quotational Practices Patrick Greaney, 2014-03-01
Literature and art have always depended on imitation and in the past few decades quotation and appropriation have become dominant aesthetic practices. But critical methods have not kept pace with this development. Patrick Greaney reopens the debate about quotation and appropriation, shifting away from naive claims about the death of the author. In interpretations of art and literature from the 1960s to the present, *Quotational Practices* shows how artists and writers use quotation not to undermine authorship and originality but to answer questions at the heart of twentieth-century philosophies of history. Greaney argues that quotation is a technique employed by art and philosophy to build ties to the past and to possible futures. By exploring quotation's links to gender identity and history, he offers new approaches to works by some of the most influential modern and contemporary artists, writers, and philosophers, including Walter Benjamin, Guy Debord, Michel Foucault, Marcel Broodthaers, Glenn Ligon, Sharon Hayes, and Vanessa Place. Ultimately, *Quotational Practices* reveals innovative perspectives on canonical philosophical texts as well as art and literature in a wide range of genres and mediums, from concrete poetry and the artist's book to performance, painting, and video art.

A Hacker Manifesto McKenzie Wark, 2009-06-30
A double is haunting the world: the double of abstraction, the virtual reality of information programming or poetry, math, or music curves or colorings upon which the fortunes of states and armies, companies, and communities now depend. The bold aim of this book is to make manifest the origins, purpose, and interests of the emerging class responsible for making this new world, for producing the new concepts, new perceptions, and new sensations out of the stuff of raw data. *A Hacker Manifesto* deftly defines the fraught territory between the ever more strident demands by drug and media companies for protection of their patents and copyrights and the pervasive popular culture of file sharing and pirating. This vexed ground, the realm of so-called intellectual property, gives rise to a whole new kind of class conflict, one that pits the creators of information—the hacker class of researchers and authors, artists and biologists, chemists and musicians, philosophers and programmers—against a possessing class who would monopolize what the hacker produces. Drawing in equal measure on Guy Debord and Gilles Deleuze, *A Hacker Manifesto* offers a systematic restatement of Marxist thought for the age of cyberspace and globalization. In the widespread revolt against commodified information, McKenzie Wark sees a utopian promise beyond the property form and a new progressive class, the hacker class, who voice a shared interest in a new information commons.

Scandinavians Robert Ferguson, 2017-09-20
An engaging, layered look into a culture complex enough both to produce stylish rain gear and to embrace the foul weather that necessitates it. *The New York Times Book Review*: We fill our homes with Nordic furniture, we envy their humane social welfare system and healthy outdoor lifestyle, we devour their crime fiction. Even their strangely attractive melancholia seems to express a stoic, commonsensical acceptance of life's vicissitudes. But how valid is this outsider's view of Scandinavia, and how accurate is our picture of life in Scandinavia today? *Scandinavians* follows a chronological progression across the Northern centuries: the Vendel era of Swedish prehistory, the age of the

Vikings the Christian conversions of Denmark Norway Sweden and Iceland the unified Scandinavian state of the late Middle Ages the sea change of the Reformation the kingdom of Denmark Norway King Gustav Adolphus and the age of Sweden s greatness the cultural golden age of Ibsen Strindberg and Munch the impact of the Second World War Scandinavia s postwar social democratic nirvana and the terror attack of Anders Behring Breivik Scandinavians is also a personal investigation with award winning author Robert Ferguson as the ideal companion as he explores not only the region s society politics culture and temperament but also wide ranging topics such as the power and mystique of Scandinavian women from the Valkyries to the Vikings from Nora and Hedda to Garbo and Bergman A delightful history in which the author truly captures the soul of the North Kirkus Reviews

Network Aesthetics Patrick Jagoda, 2016-03-22 The term network is now applied to everything from the Internet to terrorist cell systems But the word s ubiquity has also made it a cliché a concept at once recognizable yet hard to explain Network Aesthetics in exploring how popular culture mediates our experience with interconnected life reveals the network s role as a way for people to construct and manage their world and their view of themselves Each chapter considers how popular media and artistic forms make sense of decentralized network metaphors and infrastructures Patrick Jagoda first examines narratives from the 1990s and 2000s including the novel Underworld the film Syriana and the television series The Wire all of which play with network forms to promote reflection on domestic crisis and imperial decline in contemporary America Jagoda then looks at digital media that are interactive nonlinear and dependent on connected audiences to show how recent approaches such as those in the videogame Journey open up space for participatory and improvisational thought Contributing to fields as diverse as literary criticism digital studies media theory and American studies Network Aesthetics brilliantly demonstrates that in today s world networks are something that can not only be known but also felt inhabited and crucially transformed

Lipstick Traces Greil Marcus, 1990 Greil Marcus author of *Mystery Train* widely acclaimed as the best book ever written about America as seen through its music began work on this new book out of a fascination with the Sex Pistols that scandalous antimusical group invented in London in 1975 and dead within two years which sparked the emergence of the culture called punk eoeI am an antichrist e shouted singer Johnny Rotten ewhere in the world of pop music did that come from Looking for an answer with a high sense of the drama of the journey Marcus takes us down the dark paths of counterhistory a route of blasphemy adventure and surprise This is no mere search for cultural antecedents Instead what Marcus so brilliantly shows is that various kinds of angry absolute demands edemands on society art and all the governing structures of everyday life eseeem to be coded in phrases images and actions passed on invisibly but inevitably by people quite unaware of each other Marcus lets us hear strange yet familiar voices of such heretics as the Brethren of the Free Spirit in medieval Europe and the Ranters in seventeenth century England the dadaists in Zurich in 1916 and Berlin in 1918 wearing death masks chanting glossolalia one Michel Mourre who in 1950 took over Easter Mass at Notre Dame to proclaim the death of God the Lettrist International and the Situationist International small groups of Paris ebased artists and writers surrounding Guy Debord who produced blank screen films prophetic graffiti and perhaps the most provocative social criticism of the 1950s and e tm 60s the rioting students and workers of May e tm 68 scrawling cryptic slogans on city walls and bringing France to a halt the Sex Pistols in London recording the savage eoeAnarchy in the U K e and eoeGod Save the Queen e Although the Sex Pistols shape the beginning and the end of the story *Lipstick Traces* is not a book about music it is about a common voice discovered and transmitted in many forms Working from scores of previously unexamined and untranslated essays manifestos and filmscripts from old photographs dada sound poetry punk songs collages and classic texts from Marx to Henri Lefebvre Marcus takes us deep behind the acknowledged events of our era into a hidden tradition of moments that would seem imaginary except for the fact that they are real a tradition of shared utopias solitary refusals impossible demands and unexplained disappearances Written with grace and force humor and an insistent sense of tragedy and danger *Lipstick Traces* tells a story as disruptive and compelling as the century itself *Telesthesia* McKenzie Wark, 2012-09-04 The telegraph telephone and television not to mention the Internet and mobile telephony are all forms of communication that move information faster than the speed at which objects move Both labor and capital and armies and commodities once moved at the same speed as the information organizing them Over the last two centuries social space has developed a strange folded quality where physical space comes more and more to be doubled by a space of the movement of information Telesthesia or perception at a distance comes increasingly to characterize how we see and hear and know the world How does the evolution of different communication forms affect how we can perceive and act How can the underlying

infrastructure of communication forms be detected in the events of everyday life These are the central questions animating this book McKenzie Wark first explores relations between metropolitan and peripheral cultures or postcolonial relations with close attention to the texture of events that can happen when perception is mediated He then examines what were once called postmodern experiences and how relations of communication create new kinds of class relations and experiences of everyday life from 9 11 to Occupy Wall Street

Artificial Hells Claire Bishop, 2012-07-24 Since the 1990s critics and curators have broadly accepted the notion that participatory art is the ultimate political art that by encouraging an audience to take part an artist can promote new emancipatory social relations Around the world the champions of this form of expression are numerous ranging from art historians such as Grant Kester curators such as Nicolas Bourriaud and Nato Thompson to performance theorists such as Shannon Jackson *Artificial Hells* is the first historical and theoretical overview of socially engaged participatory art known in the US as social practice Claire Bishop follows the trajectory of twentieth century art and examines key moments in the development of a participatory aesthetic This itinerary takes in Futurism and Dada the Situationist International Happenings in Eastern Europe Argentina and Paris the 1970s Community Arts Movement and the Artists Placement Group It concludes with a discussion of long term educational projects by contemporary artists such as Thomas Hirschhorn Tania Bruguera Pawe Althamer and Paul Chan Since her controversial essay in *Artforum* in 2006 Claire Bishop has been one of the few to challenge the political and aesthetic ambitions of participatory art In *Artificial Hells* she not only scrutinizes the emancipatory claims made for these projects but also provides an alternative to the ethical rather than artistic criteria invited by such artworks *Artificial Hells* calls for a less prescriptive approach to art and politics and for more compelling troubling and bolder forms of participatory art and criticism

General Intellects McKenzie Wark, 2017-05-16 A guide to the thinkers and the ideas that will shape the future What happened to the public intellectuals that used to challenge and inform us Who is the Sartre or De Beauvoir of the internet age *General Intellects* argues that we no longer have such singular figures but we do have general intellects whose writing could if read together explain our times Covering topics such as culture politics work technology and the Anthropocene each chapter is a concise account of an individual thinker providing useful context and connections to the work of the others McKenzie Wark's distinctive readings are appreciations but are also critical of how neoliberal universities militate against cooperative intellectual work to understand and change the world The thinkers included are Amy Wendling Kojin Karatani Paolo Virno Yann Moulier Boutang Maurizio Lazzarato Franco Bifo Berardi Angela McRobbie Paul Gilroy Slavoj Žižek Jodi Dean Chantal Mouffe Wendy Brown Judith Butler Azumi Hiroki Paul Bracado Wendy Chun Timothy Morton Quentin Meillassoux Isabelle Stengers and Donna Haraway

Japan Story Christopher Harding, 2019 This is a fresh and surprising account of Japan's culture from the opening up of the country in the mid nineteenth century to the present How much I admired it what a lot I learned from it and above all how very much I enjoyed it Masterly Neil MacGregor It is

told through the eyes of people who greeted this change not with the confidence and grasping ambition of Japan's modernizers and nationalists but with resistance conflict distress We encounter writers of dramas ghost stories and crime novels where modernity itself is the tragedy the ghoul and the bad guy surrealist and avant garde artists sketching their escape rebel kamikaze pilots and the put upon urban poor hypnotists and gangsters men in desperate search of the eternal feminine and feminists in search of something more than state sanctioned subservience Buddhists without morals Marxist terror groups couches full to bursting with the psychological fall out of breakneck modernization These people all sprang from the soil of modern Japan but their personalities and projects failed to fit They were dark blossoms both East West hybrids and home grown varieties that wreathed probed and sometimes penetrated the new structures of mainstream Japan
