Yvain Chretien de Troyes,1987-09-10 The twelfth century French poet Chr tien de Troyes is a major figure in European literature His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent Yet because of the difficulty of capturing his swift moving style in translation English speaking audiences are largely unfamiliar with the pleasures of reading his poems Now for the first time an experienced translator of medieval verse who is himself a poet provides a translation of Chr tien s major poem Yvain in verse that fully and satisfyingly captures the movement the sense and the spirit of the Old French original Yvain is a courtly romance with a moral tenor it is ironic and sometimes bawdy the poetry is crisp and vivid In addition the psychological and the socio historical perceptions of the poem are of profound literary and historical importance for it evokes the emotions and the values of a flourishing vibrant medieval past

Judaism and Hellenism Martin Hengel,2012-02 This is the fascinating story of a group of reformers who tried to go too fast bungled their reform and so changed the course of history Hengel s thesis is that Hellenistic influences were and had been for centuries smoothly penetrating Judaism even in Jerusalem there was respect on both sides between Jew and Greek Then the Greek party tried to go too fast make Hellenization obligatory and outlaw the Law This occasioned a furious defensive reaction Judaism clammed up became xenophobic and rigoristic producing the attitude which in its turn created the defensive reaction of anti Semitism which has stained so many centuries The defensive rigidity set up in Judaism made it unable to respond to Jesus creative reinterpretation of the Law and so led to the rejection of Christianity This is a truly important scholarly work The exhaustive collection of evidence will make it a fundamental textbook for the period The Tablet A foundation book and essential as a source book and as a guide to trends in present research The Expository Times Martin Hengel was Professor of New Testament and Early Judaism in the University of Tubingen

Wisdom in Israel Gerhard von Rad,1993-07-01 This classic text the last major work by the great Hebrew Bible scholar Gerhard von Rad has long been unavailable in North America It is now being reissued in paperback from to satisfy the continuing demand for copies of the book In brief the subject of von Rad s study of Hebrew wisdom is Israel s willingness to ground faith in encounter with the world as the creation of God Those familiar with the author s Old Testament Theology will recall how he identified two great watersheds in the history of Israel s thought The first was the rise of the prophetic movement which occasioned a radical reinterpretation of Israel s religious traditions as expressed in the earliest credal formulations found in the Pentateuch The second watershed which preceded the prophetic movement and was a basically different assessment of Israel s relation to Yahweh was achieved by wisdom teachers at the start of the monarchy This book studies this first and somewhat novel break with Israel s older sacral traditions Von Rad bases the study on a wide

range of literary materials principally concerned with the books of Proverbs Job Ecclesiastes and the Wisdom of Ben Sirach No finer introduction to the fundamental theological questions raised by the wisdom literature of Israel is available Theology Today Gerhard von Rad was for many years Professor of Old Testament at the University of Heidelberg

**Ethnic Identity and Minority Protection** Thomas W. Simon, 2013-12 In *Ethnic Identity and Minority Protection Designation Discrimination and Brutalization* Thomas W Simon examines a new framework for considering ethnic conflicts In contrast to the more traditional theories of justice Simon's theory of injustice shifts focus away from group identity toward group harms effectively making many problems such as how to define minorities in international law dramatically more manageable Simon argues that instead of promoting legislative devices like proportional representation for minorities it is more fruitful to seek adjudicative solutions to racial and ethnic related conflicts For example resources could be shifted to quasi judicial human rights treaty bodies that have adopted an injustice approach This injustice approach provides the foundation for Kosovo's case for remedial secession and helps to sort out the competing entitlement claims of Malays in different countries Indeed the priority of Thomas W Simon's *Ethnic Identity and Minority Protection* is to ensure the tales of designation and discrimination told at

the beginning of the work do not become the stories of brutalization told at the end In short the challenge tackled in this text is to assure that reason reigns over hate *Envisioning Magic* Peter Schäfer, Hans Hans Gerhard Kippenberg, 1997-01-01 This collection of twelve articles presents a selection of papers delivered in the course of a seminar 1994 95 and its concluding international symposium at the Institute for Advanced Study in Princeton The common theme is the interrelation between magic and religion focussing particularly on the Mediterranean world in Antiquity Egyptian Graeco Roman and Jewish beliefs and customs but also treating the early modern period in Northern Europe the Netherlands and Germany as well as offering more general reflections on elements of magic in language and Jewish mysticism The volume is characterized by an interdisciplinary approach and the use of varied methodologies emphasizing the dynamic nature of the often contradictory forces shaping religious beliefs and practices while dismissing the idea of a linear development from magic to religion or vice versa The contributors are outstanding scholars in their fields Ancient Medieval and Modern History Religious Studies Jewish Studies Classical Studies Early Christianity Islamic Studies Anthropology Egyptology and Comparative Literature Without a doubt this re evaluation of a fascinating age old subject will stimulate scholarly discussion and appeal to educated non specialist readers as well
