Earth: The Operators' Manual Richard B. Alley, 2011-04-18 The book companion to a PBS series that proves humans are causing global warming and offers a path to the future Since the discovery of fire humans have been energy users and always will be And this is a good thing our mastery of energy is what separates us from the rest of the animal kingdom and has allowed us to be the dominant species on the planet However this mastery comes with a price we are changing our environment in a profoundly negative way by heating it up Using one engaging story after another coupled with accessible scientific facts world authority Richard B Alley explores the fascinating history of energy use by humans over the centuries gives a doubt destroying proof that already high levels of carbon dioxide are causing damaging global warming and surveys the alternative energy options that are available to exploit right now These new energy sources might well be the engines for economic growth in the twenty first century

Transdisciplinary Solutions for Sustainable Development Mark Charlesworth, 2015-05-15 Global environmental issues such as climate change and species loss are intensifying despite our best efforts to combat them The key reason for this is that the drivers of these problems are closely linked to the industrialism and consumerism that are promoted by governments and other organizations

the world over This innovative book identifies the key issues that block progress in sustainable development and proposes transdisciplinary solutions Presenting a review of the epistemology and ethics of this policy field including current policy responses it examines the ethical and policy implications from a multidisciplinary perspective The book explains the current limitations of scientific prediction for global environmental issues and develops innovative approaches to respond to these difficulties drawing out lessons that will make sustainable development policy more democratic plural and open This book will be of great interest to students and researchers in environmental policy development studies politics economics and sustainable development
