Business Process Management Wil M.P. van der Aalst, Boualem Benatallah, Fabio Casati, Francisco Curbera, 2005-08-18 This volume contains the proceedings of the 3rd International Conference on Business Process Management BPM 2005 organized by LORIA in Nancy France September 5-8 2005 This year BPM included several innovations with respect to previous editions most notably the addition of an industrial program and of co-located workshops This was the logical result of the significant and still growing industrial interest in the area and of the broadening of the research communities working on BPM topics The interest in business process management and in the BPM conference was demonstrated by the quantity and quality of the paper submissions We received over 176 contributions from 31 countries accepting 25 of them as full papers 20 research papers and 5 industrial papers while 17 contributions were accepted as short papers In addition to the regular industry and short presentations invited lectures were given by Frank Leymann and Gustavo Alonso This combination of research papers industrial papers keynotes and workshops all of very high quality has shown that BPM has become a mature conference and the main venue for researchers and practitioners in this area We would like to thank the members of the Program Committee and the reviewers for their efforts in selecting the papers They helped us compile an excellent scientific program For the difficult task of selecting the 25 best papers 14% acceptance rate and 17 short papers each paper was reviewed by at least three reviewers except some out of scope papers

Business Process Change Management August-Wilhelm Scheer, 2003-03-06 This book shows you how to achieve business process excellence through change management activities with case studies from major corporations such as American Meter and the US Navy The book defines business process change management as information communication and training that enable people to make change and improvements happen Using case studies the text shows how this change management is applied in practice using a framework like the ARIS House of Business Process Excellence or software tools like the ARIS Toolset

Business Process Management Matthias Weske, 2019-06-22 Business process management is usually treated from two different perspectives business administration and computer science While business administration professionals tend to consider information technology as a subordinate aspect in business process management for experts to handle by contrast computer science professionals often consider business goals and organizational regulations as terms that do not deserve much thought but require the appropriate level of abstraction Matthias Weske argues that all communities involved need to have a common understanding of the different aspects of business process management To this end he details the complete business process lifecycle from the modeling phase to process enactment and improvement taking into account all different stakeholders involved After starting with a presentation of general foundations and abstraction models he explains concepts like process orchestrations and choreographies as well as process properties and data dependencies Finally he presents both traditional and advanced business process management architectures covering for example workflow management systems service oriented architectures and data driven approaches In addition he shows how standards like WfMC SOAP WSDL and BPEL fit into the picture This textbook is ideally suited for classes on business process management information systems architecture and workflow management This 3rd edition contains a new chapter on business decision modelling covering the Decision Model and Notation DMN standard the chapter on process choreographies has been streamlined and numerous clarifications have been fetched throughout the book The accompanying website www.bpm-book.com contains further information and additional teaching material

Business Process Management Roger Burlton, 2001 Business processes are the production lines of the new economy When they fail us our products and services fail our customers and our business fails its owners The more businesses change the more they must concern themselves with their stakeholder relationships and manage their processes so that technologies and organization designs have a common business purpose This book shows you how to deliver integral processes and helps you build a fully process managed enterprise LEARN THE CONCEPTS AND TRANSFORM YOUR BUSINESS See why process management is an inevitable trend that won't go away Understand why relationship management needs effective processes to work Define your stakeholders and determine their needs Discover what other organizations have done to manage processes successfully Explore a complete framework for managing business process and human change Apply your knowledge to manage process projects effectively and efficiently Learn what to do and what to avoid in every step Develop processes to align technology organization and facility transformation Gain cross organizational acceptance of process and personal change Anticipate objections and proactively manage stakeholder concerns

Business Process Excellence August-Wilhelm Scheer, 2002-05-13 This book shows how to achieve business process excellence in practice It includes a unique collection of international case studies that show how business process management initiatives are planned and executed in major corporations New component and Internet based software architectures and web services require a solid process management to deliver the expected business success IDS Scheer delivers with ARIS the framework to meet this challenge successfully IDS Scheer has successfully applied its ARIS business process management approach at thousands of organizations worldwide including Intel Siemens Purdue and the US Navy
