*Qualitative Designs and Methods in Nursing (Set)* Mar 20 2023 This is the first series to comprehensively address leading qualitative research designs and methods from a nursing perspective, and is a must-have for every research library. These are practical, how-to guides to conducting research using seven different qualitative designs that encompass new and traditional methodologies. Written by Dr. Mary de Chesnay, a noted qualitative research scholar, and contributing specialists in each of the qualitative methods, each of the seven books discusses the theoretical rationale for using a particular design, describes its components, and delineates a practical plan to conduct studies. Utilizing a practical, problem-solving approach, the books delineate appropriate methods, ethical considerations, critical issues, and potential pitfalls. Examples of published qualitative nursing research worldwide, along with author commentary, support the new researcher in making decisions and facing challenges. Case studies follow a template that includes a description of the study, data collection and analysis, and dissemination. Also included are techniques whereby researchers can ensure high standards of rigor, and an extensive bibliography and list of resources. The book's practical point of view is geared to help novice researchers and specialists alike develop or expand their competencies, engage graduate faculty and students, and aid nursing research staff in larger hospitals and other healthcare institutions, as well as in-service educators and students. Key Features of this One-of-a-Kind Resource Library: Focuses on practical problem solving Reviews the philosophical basis for each qualitative design Disseminates the most current references in each design Provides a plan to conduct studies using the design and discusses appropriate methods, ethical considerations, and potential challenges Showcases the research of international scholars Is peer reviewed by design and method experts

*Nursing Workforce Development* Nov 03 2021 Winner of an AJN Book of the Year Award! This book looks at long-term fixes being developed in response to the nursing shortage, through regional collaborations of government, health care institutions, and schools of nursing. It is based on the premise that factors around the supply and demand for nurses are locally based, since nurses tend to be educated and work in the same geographic area. Successful strategies implemented in many states are provided as exemplars throughout the book, which include collaborations between service and education to provide greater educational mobility and programs for workplace satisfaction. The book grew out of the Robert Wood Johnson-funded Colleagues in Caring Project, which was created to help mobilize regional cooperation around nursing workforce issues. The book includes practical information on: How to Obtain Funding for Nursing Workforce Coalitions Gathering Nursing Workforce Data Redesigning the
