Downward Discipleship Anita Rahma, 2024-03-19 Moving to the Margins with Amy Carmichael Follow in the footsteps of Amy Carmichael whose defiance against injustice shined a light in India's darkest corners Her extraordinary journey reveals the profound impact of unwavering faith when pitted against social wrongs What fierce conviction drove this fiery Irishwoman to forsake the familiar for the forsaken trading comfort for conflict and compassion Downward Discipleship beckons you to learn from Amy's life a beacon that questions the cost of true discipleship in our world of pain and injustice In these pages Amy's fifty year mission to rescue temple bound girls becomes a canvas for seven invitations of discipleship Rahma weaves in her own stirring narrative from Jakarta's slums presenting a model of discipleship that is demanding as it is rewarding challenging as it is inspiring This book calls to all who yearn for a faith that is lovingly courageous and radically sacrificial Rahma points us to a life of downward discipleship While many in the world clamor to climb the ladders of success and financial security she invites the reader on a different journey to follow our savior to unlikely places meet him among the world's poor and experience the joy of abundant life

Good News for Moderns Nero James Pruitt, 2015-06-27 There are many ways to be a Christian In Good News for Moderns author Nero James Pruitt shows that within the pages of the New Testament there is room for a diversity of Christianities This is a diversity that is not talked about often but when properly understood expands the perception of what a Christian is Consider the words of Justin Martyr the second century Christian writer recognized as a saint by the Catholic Church the Anglicans and the Eastern Orthodox in about 150 AD We are taught that Christ is the first born of God and we have shown that He is the reason word of whom the whole human race partake And those who live according to reason are Christians even though they are counted atheists Such were Socrates and Heraclitus among the Greeks and those like them Consider the words of John Adams the second President of the United States in 1816 The Ten Commandments and the Sermon on the Mount contain my religion Consider the words Bill Clinton the forty second President of the United States In 1955 I had absorbed enough of my church's teachings to know that I was a sinner and to want Jesus to save me Finally consider the words of the writer of the small New Testament Book of III John Whoever does good is from God Good News for Moderns is based on Pruitt's reading of the scriptures and over one hundred authors of various points of view In our busy time it is brief slightly more than one hundred thousand words supplemented by slightly less than one hundred thousand words of end notes It recognizes that human life moves by fast in what seems like an infinity of time and space and the book closes this way By listing many who have come before us and the immensity of time and space I have underscored the brevity of our lives because as a Psalmist taught recognizing our own mortality is the path to wisdom

The Lutheran Observer, 1901 *The Western Christian Advocate*, 1902 *The Origins of the Art and Practice of Professional Writing* Kathryn Rosser Raign, 2024-04-01 *The Origins of the Art and Practice of Professional Writing* addresses the classic divide in teaching written skills between rhetoric composition and technical professional communication TPC It explores a body of texts that were created earlier than any yet identified by either field ancient Mesopotamian documents produced in the eighth century BCE The book debunks two myths it shows that rhetoric was practiced consciously and taught systematically long before the Greek civilization existed and because a large swathe of the public while not fully literate had access to the services of scribes not just men but women merchants and even slaves utilized writing as a tool for social justice From their earliest writings humans consciously applied principles of persuasion to the documents that they produced Rather than being two distinct fields rhetoric and professional communication are intertwined in their histories

The Speaking Animal Alison Suen, 2015-10-02 Animals regularly populate philosophical texts as a foil to illustrate what it means to be human How should we understand this human animal divide Not only does it inform us of who we are it also tells us how we should relate to the larger non human world *The Speaking Animal* interrogates the human animal divide by looking at our linguistic differences how the speaking human subject is constructed through its opposition to the dumb animal Alison Suen begins with an analysis of the role of language in animal ethics with an eye toward the voice voiceless opposition that is at work in animal advocacy After offering a critical analysis of the ethical and political significance of speaking for animals the book takes on a more constructive turn going against the usual interpretation of language as a capacity that allows us to reason Instead it argues that our language capacity is also a relational capacity Language is that which enables us to develop kinship with others including animal others
