This privilege is usually the reserve of the sponsors, team owners and the mechanics and engineers who work for Formula 1 teams. The unique thing about Formula 1 however, is that you don't need to be rich and famous to take part. The television cameras might follow the movie stars and glittering celebrities but walking amongst them are some very ordinary people who just happen to have extraordinary jobs. I should know because I am one of them. Richard Ladbroke is a degree qualified engineer who has worked in Formula 1 and other forms of motor racing both in the UK and America for nearly two decades. From the grease and the glamour to the vital statistics of the sport, this is an action-packed, fact-packed tour of the thrilling world of Grand Prix motor racing. In *The Limit*, Michael Cannell tells the enthralling story of Phil Hill—a lowly California mechanic who would become the first American-born driver to win the Grand Prix—and, on the fiftieth anniversary of his triumph, brings to life a vanished world of glamour, valor, and daring. With the pacing and vivid description of a novel, *The Limit* charts the journey that brought Hill from dusty California lots racing midget cars into the ranks of a singular breed of men, competing with daredevils for glory on Grand Prix tracks across Europe. Facing death at every turn, these men rounded circuits at well over 150 mph in an era before seat belts or roll bars—an era when drivers were "crushed, burned, and beheaded with unnerving regularity." From the stink of grease-smothered pits to the long anxious nights in lonely European hotels, from the tense camaraderie of teammates to the trembling suspense of photo finishes, *The Limit* captures the 1961 season that would mark the high point of Hill's career. It brings readers up close to the remarkable men who surrounded Hill on the circuit—men like Hill's teammate and rival, the soigné and cool-headed German count Wolfgang Von Trips (nicknamed "Count Von Crash"), and Enzo Ferrari, the reclusive and monomaniacal padrone of the Ferrari racing empire. Race by race, *The Limit* carries readers to its riveting and startling climax—the final contest that would decide it all, one of the deadliest in Grand Prix history. Go behind the scenes to explore the history, racing, celebrity fans, and after hours of racing's most glamorous and prestigious round in the F1 championship with *The Life* Monaco Grand Prix. Conducted with the patronage of Monaco's royal family, its beautiful street-circuit has made Monaco the most glamorous setting of any F1 race. But the classic architecture and high-profile spectators belie a course notorious for its complexity and challenges. With no safety barriers until 1969, drivers have twice plunged into the harbor among the spectating yachts. Off the circuit, Monaco is a 24-hour spectacle of expensive boats, high-profile parties, celebrity F1 fans, penthouse spectating, and high-roller lifestyle. From the Monte Carlo casino (integral to numerous James Bond films) to top clubs like Amber Lounge, Jimmy's, and The Black Lounge to F1 racers' luxury homes to the takeoffs and landings of countless private jets, Monaco represents the epitome of the jet-setting

lifestyle long associated with the F1 circus. But F1 Mavericks also focuses on the designers and engineers behind the cars—men like Colin Chapman, Sir Patrick Head, Maurice Philippe, Franco Rocchi, Gordon Murray, and many others. We'll hear directly from many of them, including a foreword from 1978 F1 World Champion, Mario Andretti. Every chapter is a photographic account of key races throughout the period, supplemented with sidebars featuring key designers and technologies, like wings, ground effects, slick tires, turbochargers, and the Brabham “fan” suction car.
