A Patriot's History of the United States Larry Schweikart, Michael Patrick Allen, 2004-12-29 For the past three decades many history professors have allowed their biases to distort the way America s past is taught These intellectuals have searched for instances of racism sexism and bigotry in our history while downplaying the greatness of America s patriots and the achievements of dead white men As a result more emphasis is placed on Harriet Tubman than on George Washington more about the internment of Japanese Americans during World War II than about D Day or Iwo Jima more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin *A Patriot s History of the United States* corrects those doctrinaire biases In this groundbreaking book America s discovery founding and development are reexamined with an appreciation for the elements of public virtue personal liberty and private property that make this nation uniquely successful This book offers a long overdue acknowledgment of America s true and proud history

How Propaganda Works Jason Stanley, 2015-05-26 How propaganda undermines democracy and why we need to pay attention Our democracy today is fraught with political campaigns lobbyists liberal media and Fox News commentators all using language to influence the way we think and reason about public issues Even so many of us believe that propaganda and manipulation aren't problems for us not in the way they were for the totalitarian societies of the mid twentieth century In *How Propaganda Works* Jason Stanley demonstrates that more attention needs to be paid He examines how propaganda operates subtly how it undermines democracy particularly the ideals of democratic deliberation and equality and how it has damaged democracies of the past Focusing on the shortcomings of liberal democratic states Stanley provides a historically grounded introduction to democratic political theory as a window into the misuse of democratic vocabulary for propaganda's selfish purposes He lays out historical examples such as the restructuring of the US public school system at the turn of the twentieth century to explore how the language of democracy is sometimes used to mask an undemocratic reality Drawing from a range of sources including feminist theory critical race theory epistemology formal semantics educational theory and social and cognitive psychology he explains how the manipulative and hypocritical declaration of flawed beliefs and ideologies arises from and perpetuates inequalities in society such as the racial injustices that commonly occur in the United States *How Propaganda Works* shows that an understanding of propaganda and its mechanisms is essential for the preservation and protection of liberal democracies everywhere

Combinatorial Lottery Systems (Wheels) with Guaranteed Wins Iliya Bluskov, 2001

Dream a Lottery Win Tonight Larry Vingelman, 2013-10-27 When I host book signings and give lectures on lottery prediction people always ask If lotteries are random draws how can they be predicted I always answer the same way Lotteries are predictable because we have the ability to redirect subtle energy With about 20 to 30 people present I always ask how many are familiar with subtle energies No one has ever raised their hand And why should they It s only been within the last 30 to 40 years that Science discovered subtle energies and their role in manifesting human desire It s only been within the last 10 years that this research and experimentation has been available to the general public in books like Lynne McTaggart s *The Intention Experiment* or Dr Tiller s *Conscious Acts of Creation* As a matter of fact it has only been this year 2013 that Dr Peter Higgs won the Nobel Prize for his work on the God Particle The first subtle energy particle ever found at the new CERN accelerator With these discoveries and experiments on the redirection of subtle energy Scientists believe that a new technology has been born Significantly more powerful than electromagnetic energy significantly more powerful than nuclear energy subtle energy technology will bring about new ways for human populations to interact and new ways to communicate It will significantly change our health care industry and influence the movement towards world peace Most interesting are the time and space attributes of subtle energy that allow the human mind to predict the future and consequently win lotteries In the science of Quantum Mechanics experimenting at the level of subtle energy scientists found that their observations were affecting the outcome of the experiments Somehow the experimenter s consciousness was having an effect on our everyday reality of atoms and elements This led to other experiments many concerning time displacement As it turns out subtle energy does not conform to the way you and I experience sequential time Subtle energy is unbound by time and space giving it predictive potential A few daring researchers now understand subtle energy to be a vast field of potential energy supporting our everyday reality and somehow this energy is intimately interconnected with our minds Consequently at this stage of subtle energy technology research researchers are studying ways that the mind can amplify subtle energies to manifest human desires for better health wealth and abundance world peace lasting vitality and prophetic vision *Dream a Lottery Win Tonight* specializes in the application of subtle energy and its prophetic vision attributes We accomplish this by activating an energized intention near the mind s source of subtle energy In this way we amplify the intention to win a lottery Of course we could amplify any intention including those for better health or world peace We decided on lottery prediction not because it was easy but because it was difficult and because the results are quantitative not subjective In developing the skill of prophetic vision to win a lottery we use an energized intention activated as close to the mind s Source of subtle energy as possible To get close to the Source we use mantras These mantras resonate frequencies that are specific to the results we seek In this case we use the Lakshmi Mantra used since antiquity to enhance ones abilities at games of chance Once close to the source we activate an energized intention The intention is energized with emotion and bright sense visualizations We perform this meditation just before retiring enhancing our dreams allowing us to predict a winning number In this way we use subtle energies to win the lottery Larry Vingelman Author
