How can you shift from a focus on content to the creation of active learning experiences? In this

practical resource, author Jason Kennedy provides a blueprint to help you stop "teaching" and start designing learning, so you can improve students' critical thinking, decision making, problem solving, and collaboration with others, preparing them for their futures beyond school doors. The framework for learning design covers components of planning (learning targets), of instruction (the opening, learning task, skills, tools, and success criteria), and of the work session (choices, pathways, feedback, and assessment). Appropriate for teachers of any subject area, the book also offers wide variety of tools to help you implement the ideas in your own setting. The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government. Supercharge school improvement with instructional coaches! For instructional coaches, no two days are ever the same. This unique companion melds theory and practice to show how coaches can seamlessly integrate themselves into the fabric of the school and help teachers improve their practice from day one. Dean Spaulding and Gail Smith address common challenges of coaches and instructional leadership teams, including: Observing classrooms and providing formative feedback Reaching out to the hesitant or resistant teacher Adapting data and analysis into usable information for the team Recruiting, training, and supporting new instructional

coaches Journal entries based on the real-life experiences give an inside look at the day-to-day work of an instructional coach and the power of coaching to improve teacher effectiveness. The book also includes field-tested activities, materials, and forms for collecting data, navigating busy days, and organizing information. Instructional Coaches and the Instructional Leadership Team is ideal for those wanting to learn best practices to engage educators and support teacher evaluation reform. "This book would have made my life SO much easier. I highly recommend it to new and experienced instructional coaches alike!" —Kathy Ferrell, Instructional Coach Excelsior Springs Middle School, MO "This is a wonderful resource. Even schools without instructional coaches will benefit from the strategies and suggestions included. It's an excellent book even for those who shy away from data analysis!" —Ann Dargon, Assistant Superintendent of Schools Westport Community Schools, MA Popular Science gives our readers the information and tools to improve their technology and their world.
