Hiroshima Diary The Journal Of A Japanese Physician August 6 September 30 1945 Michihiko Hachiya

Hiroshima Diary Michihiko Hachiya, M.D.,2011-12-01 The late Dr Michihiko Hachiya was director of the Hiroshima Communications Hospital when the world s first atomic bomb was dropped on the city Though his responsibilities in the appalling chaos of a devastated city were awesome he found time to record the story daily with compassion and tenderness His compelling diary was originally published by the UNC Press in 1955 with the help of Dr Warner Wells of the University of North Carolina at Chapel Hill who was a surgical consultant to the Atomic Bomb Casualty Commission and who became a friend of Dr Hachiya In a new foreword John Dower reflects on the enduring importance of the diary fifty years after the bombing

Hiroshima Diary Michihiko Hachiya,1995 This is the diary of the late Dr Michihiko Hachiya who was director of the Hiroshima Communications Hospital when the world s first atomic bomb was dropped on the city Though his responsibilities in the chaos of a devastated city were awesome he found time to record his story daily *Hiroshima Diary* Michihiko Hachiya,1955

Children of the Atomic Bomb James N. Yamazaki,Louis B. Fleming,1995 Children of the Atomic Bomb is Dr Yamazaki s account of a lifelong effort to understand and document the impact of nuclear explosions on children particularly the children conceived but not yet born at the time of the explosions Assigned in 1949 as Physician in Charge of the United States Atomic Bomb Casualty Commission in Nagasaki Yamazaki had served as a combat surgeon at the Battle of the Bulge where he had been captured and held as a prisoner of war by the Germans In Japan he was confronted with violence of another dimension the devastating impact of a nuclear blast and the particularly insidious effects of radiation on children Yamazaki s story is also one of striking juxtapositions an account of a Japanese American s encounter with racism the story of a man who fought for his country while his parents were interned in a concentration camp in Arkansas

Hiroshima Notes Kenzaburō Ōe,1996 Hiroshima Notes is a powerful statement on the Hiroshima bombing and its terrible legacy by the 1994 Nobel laureate for literature Oe s account of the lives of the many victims of Hiroshima and the valiant efforts of those who cared for them both immediately after the atomic blast and in the years that follow reveals the horrific extent of the devastation It is a heartrending portrait of a ravaged city the human face in the midst of nuclear destruction

Hibakusha Gaynor Sekimori,George Marshall,1989-12-15 This book s 25 firsthand accounts by hibakusha survivors of the atomic bombing of Hiroshima and Nagasaki in early August 1945 constitute an indictment of nuclear weapons far more eloquent than any polemic Grim though their stories are understanding what they went through may well be crucial to averting another nuclear tragedy *There is No Such Thing as a Natural Disaster* Gregory Squires,Chester Hartman,2013-01-11 There is No Such Thing as a Natural Disaster is the first comprehensive critical book on the

catastrophic impact of Hurricane Katrina on New Orleans The disaster will go down on record as one of the worst in American history not least because of the government's inept and cavalier response But it is also a huge story for other reasons the impact of the hurricane was uneven and race and class were deeply implicated in the unevenness Hartman and Squires assemble two dozen critical scholars and activists who present a multifaceted portrait of the social implications of the disaster The book covers the response to the disaster and the roles that race and class played its impact on housing and redevelopment the historical context of urban disasters in America and the future of economic development in the region It offers strategic guidance for key actors government agencies financial institutions neighbourhood organizations in efforts to rebuild shattered communities

Hiroshima John Hersey, 2020-06-23 Hiroshima is the story of six people a clerk a widowed seamstress a physician a Methodist minister a young surgeon and a German Catholic priest who lived through the greatest single manmade disaster in history In vivid and indelible prose Pulitzer Prize winner John Hersey traces the stories of these half dozen individuals from 8 15 a m on August 6 1945 when Hiroshima was destroyed by the first atomic bomb ever dropped on a city through the hours and days that followed Almost four decades after the original publication of this celebrated book Hersey went back to Hiroshima in search of the people whose stories he had told and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima

Hara Diagnosis Kiiko Matsumoto, Stephen Birch, 1988 Point names the traditional means of identifying acupoints have meanings that are hard to grasp This text promotes understanding of each point's use in acupuncture practice by considering the meaning context and significance of each The 363 points covered are listed according to the system currently in use in China

First Into Nagasaki George Weller, Anthony Weller, 2006-12-26 George Weller was a Pulitzer Prize winning reporter who covered World War II across Europe Africa and Asia At the war's end in September 1945 under General MacArthur's media blackout correspondents were forbidden to enter both Nagasaki and Hiroshima But instead of obediently staying with the press corps in northern Japan Weller broke away The intrepid newspaperman reached Nagasaki just weeks after the atomic bomb hit the city Boldly presenting himself as a U S colonel to the Japanese military Weller set out to explore the devastation As Nagasaki's first outside observer long before any American medical aid arrived Weller witnessed the bomb's effects and wrote the anatomy of radiated man He interviewed doctors trying to cure those dying mysteriously from Disease X He typed far into every night sending his forbidden dispatches back to MacArthur's censors assuming their importance would make them unstoppable He was wrong the U S government censored every word and the dispatches vanished from history Weller also became the first to enter the nearby Allied POW camps From hundreds of prisoners he gathered accounts of watching the atomic explosions bring an end to years of torture and merciless labor in Japanese mines Their dramatic testimonies sum up one of the least known chapters of the war but those stories too were silenced It is a powerful experience more than 60 years later to walk with Weller through the smoldering ruins of Nagasaki or hear the sagas of prisoners who have just learned that their torment is over and

watch one of the era's most battle-experienced reporters trying to accurately and unsentimentally convey to the American people scenes unlike anything he or anyone else knew. Weller died in 2002 believing it all lost forever. Months later his son found a fragile copy in a crate of moldy papers. This historic body of work has never been published. Along with reports from the brutal POW camps, a stirring saga of the worst of the Japanese hellships which carried U.S. prisoners into murder and even cannibalism, and a trove of Weller's unseen photos, *First into Nagasaki* provides a moving, unparalleled look at the bomb that killed more than 70,000 people and ended WWII. Amid current disputes over the controlled embedding of journalists in war zones and a government's right to keep secrets, it reminds us how such courageous, rogue reporting is still essential to learning the truth.

The Name of the Flower Kuniko Mukoda, 1998-07-01 Mukoda's wonderful stories vividly present the strengths and sorrows of modern Japanese women. Gail Tsukiyama. Superbly rendered into English. Publishers Weekly.

Yoko's Diary Paul Ham, 2013-05-01 The discovered diary of Yoko, a 13-year-old Japanese girl who lived near Hiroshima during the war. Ages 8-12. The diary of Yoko, a 13-year-old Japanese girl who lived near Hiroshima during the war, 1945, was a hard time to be a child in Japan. Many had seen their cities destroyed by US bombers. Food, fuel, and materials were in short supply. Yet spirits remained high. In April 1945, Yoko Moriwaki started high school in Hiroshima, excited to be a prestigious Kenjo girl and full of duty towards her parents, school, and country. But the country was falling apart, and in four months time her city would become the target for the first atomic bomb ever used as a weapon. In her diary, Yoko provides an account of that time when conditions were so poor that children as young as twelve were required to work in industry when fierce battles raged in the Pacific, and children like Yoko believed victory was near. With additions by Yoko's relatives and fellow students, and an introduction by award-winning author Paul Ham, *Yoko's Diary* not only shows us the hopes, beliefs, and daily life of a young girl in wartime Japan, it is a touching account of the consequences of the first nuclear bombing of a city. Ages 8-12. SHORTLISTED in the 2014 CBCA Awards. SHORTLISTED in the 2014 NSW Premier's History Awards. [Japanese Theatre and the International Stage](#)

Hitler's Japanese Confidant Carl Boyd, 1993 In 1940 the US Army Signal Intelligence Service broke the Japanese diplomatic code. In 1975 Oshima Hiroshi, Japan's ambassador to Berlin during World War II, died never knowing that the hundreds of messages he transmitted to Tokyo had been fully decoded by the Americans and whisked off to Washington, providing a major source of information for the Allies on Nazi activities.

High Tartary Owen Lattimore, Orville Schell, 1975 An insightful and recondite chronicle of a journey through Chinese Turkestan, retracing the ancient routes that were once essential to world trade, offers a rich and revealing portrait of one of the world's most unfamiliar and fascinating areas. Reprint.
