Stratonauts Manfred "Dutch" von Ehrenfried,2013-12-13 Just what does it take to be a stratonaut soaring to higher and higher altitudes of Earth s atmosphere Brave men and women have reached extreme heights in balloons aircraft and rocket ships over the past two centuries from the first untethered balloon flight to the first flights in the newly defined stratosphere through to the present flights that continue to set new records This book defines the altitudes related to the stratosphere how it changes with latitude and the effects on ascending aviators Also described is how over time technology enabled aircraft and balloons to achieve higher altitudes The book shows the clear influence of the military on designs that initially focused on speed and maneuverability but only later on reaching new altitudes The early flights into the troposphere and eventually the mid to upper reaches of the stratosphere are chronicled with great emphasis on flight operations This includes decompression bailouts inertia coupling ejections catastrophic disintegration crashes and deaths Although the book highlights major altitude attempts and records it also focuses on the life threatening problems confronting the would be stratonaut and the causes of many of their deaths In doing so it tries to define just what it takes to be a stratonaut

Gre Vocab Capacity Vince Kotchian,Brian McElroy,2012-06-12 2015 version published on 12 29 14 Need a good way to remember that the word prodigal means wasteful Just think ofprada gal a girl who spends all of her money on designer clothes Brian McElroy Harvard 02 and Vince Kotchian Boston College 97 two of San Diego s most sought after test prep tutors provide a series of clever unconventional and funny memory devices aimed toward helping you to improve your vocabulary and remember words long term so that you don t ever forget their meanings Brian and Vince combined have been tutoring the test for over 20 years They have analyzed all available official GRE tests to select the words that appear in this book The vocabulary words in this book are best suited for students at a 9th grade level or above The words in this edition are specifically targeted toward the GRE exam but they are also helpful for students who are

preparing for other standardized tests such as the SAT ACT ISEE SSAT GMAT LSAT or MCAT or anyone at any age who simply wants to improve his her knowledge of English vocabulary Disclaimer a few of our mnemonics might not be appropriate for kids some contain adult language or situations Over 950 of the words in this book appear in our other mnemonics book SAT Vocab Capacity So if you re easily offended the SAT version might be a better choice Why This Book Is Different If you re studying for the GRE SAT or for any other standardized test that measures your vocabulary you may be feeling a little bit anxious especially if you ve taken a practice test and encountered words you didn t know or maybe never even saw before Whether you have seven days or seven months to prepare for the test you re going to want to boost your vocabulary But it s not that simple you ve got to remember the words you learn And on many GRE text completion and sentence equivalence questions getting the right answer comes down to knowing the precise definition of the words You could make vocabulary flashcards You could look up words you don t know You could read a book with lots of big words But unless you give your brain a way to hold on to the words you learn it will probably have a harder time remembering them when they appear on the test That s the problem with most vocabulary books the definitions and sentences in the books aren t especially memorable That s where this book is different We ve not only clearly defined the words but we ve also created sentences designed to help you remember the words through a variety of associations using mnemonics Mnemonic Examples A mnemonic is just a memory device It works by creating a link in your brain to something else so that recall of one thing helps recall of the other This can be done in many ways but the strongest links are through senses emotions rhymes and patterns Consider this example Quash verb to completely stop from happening Think squash The best way to quash an invasion of ants in your kitchen is simple squash them Now your brain has a link from the word quash which it may not have known to the word squash which it probably knows Both words sound and look the same so it s easy to create a visual and aural link If you picture someone squashing ants and maybe get grossed out you also have another visual link and an emotional link Here s another example Eschew verb to avoid Think ah choo Eschew people who say ah choo unless you want to catch their colds The word eschew sounds similar to a sneeze ah choo so your brain will now link the two sounds If you picture yourself avoiding someone who is about to sneeze in your face even better Again the more connections you make in your brain to the new word th
