Over the last two decades environmental hydraulics as an academic discipline has expanded considerably, caused by growing concerns over water

environmental issues associated with pollution and water balance problems on regional and global scale. These issues require a thorough understanding of processes related to environmental flows and transport phenomena, and the development of new approaches for practical solutions. Environmental Hydraulics includes about 200 contributions from 35 countries presented at the 6th International Symposium on Environmental Hydraulics (Athens, Greece, 23-25 June 2010). They cover the state-of-the-art on a broad range of topics, including: fundamentals aspects of environmental fluid mechanics; environmental hydraulics problems of inland, coastal and ground waters; interfacial processes; computational, experimental and field measurement techniques; ecological aspects, and effects of global climate change. Environmental Hydraulics will be of interest to researchers, civil/environmental engineers, and professional engineers dealing with the design and operation of environmental hydraulic works such as wastewater treatment and disposal, river and marine constructions, and to academics and graduate students in related fields.

**WHEN THE WORLDS COLLIDE, THEIR LOVE WILL REWRITE THE FABRIC OF REALITY** In the shocking third installment of the Time Corrector series, super-genius Dr. Vincent Abajian finds himself in an even grander drama, and this time, the fate of his beloved daughter is on the line. The Reset is a culmination of worlds colliding, timelines interweaving, and relationships that seemed indestructible, reaching dire breaking points. Vincent gets in the midst of an international political crisis forged by his adversary, Philip Nardin. As he tirelessly works to offset the impact, Philip kidnaps Nozomi, Vincent’s daughter. In an endgame decision, Vincent relinquishes his time-correcting powers to Philip while the world leaders launch a devastating arms race to weaponize Intreton—the purest energy source that can alter reality if mishandled. The two opponents, Vincent and Philip, unite against political and military forces to save reality from crumbling. Their plan reveals a mind-bending past and the identity of a time-twisted villain Philip calls the Lunatic. Such revelation leads to a dramatic conclusion and opens the possibility of a Reset. As someone close to Vincent shows their true self, Vincent discovers that Nozomi’s complex ties to Emika and Akane may hold the key to the Reset in this time-hopping clash of love, egos, and desires.
