Moon-Face and Other Stories Jack London,2021-07-07 We've all taken a dislike to someone for no real reason. But few of us nurture this hatred like the narrator of Moon Face. The target of his irrational malice is a man named John Claverhouse. With cold precision the narrator sets to planning the man's downfall. Why he has this urge he can't explain. But he knows he'll feel immense satisfaction when John Claverhouse is made to suffer. In this macabre little tale Jack London pinpoints a very common but unpleasant human trait. And then takes it to a horrifying extreme. This short story collection also includes All Gold Canyon which was adapted as part of the Netflix anthology movie The Ballad of Buster Scruggs. Jack London 1876-1916 was one of the first American writers to achieve worldwide celebrity. He did so with rugged adventure stories set in forbidding landscapes. And heroes who survive by embracing their most primal instincts. His breakthrough best seller was The Call of the Wild. Inspired by his time in the Klondike Gold Rush, this hard hitting novel is told from the perspective of a sled dog named Buck. It's inspired many adaptations including a big budget movie starring Harrison Ford. Among London's other notable works are White Fang, also featuring a canine protagonist, as well as The Sea Wolf, Martin Eden, and The Iron Heel.

Battle for the Beetle Karl E. Ludvigsen,2000 Ludvigsen traces the history of the Volkswagen Beetle from its inception as a people's car for Hitler's Germany to its status as a beloved American icon to the arrival of the New Beetle in 1998. He focuses on the car's creation, the industry-wide power struggle following the German defeat in World

A Life Less Ordinary John Hodge,1997 From the author of the TRAINSPOTTING and SHALLOW GRAVE screenplays, a novel about the unpredictable course of fate. An aspiring novelist meets a rich woman with a slender grip on the real world. They are ill-matched but become lovers with a little help from the archangel Gabriel. Tied to the release of a Hollywood feature film.

Ferdinand Porsche - Genesis of Genius Karl Ludvigsen,2009-10-01 In Ferdinand Porsche: Genesis of Genius, author Karl Ludvigsen reveals a dynamic young innovator who helped to chart the course of the automobile through the first decades of the twentieth century. As early as 1900, at the age of 25, Ferdinand Porsche pioneered hybrid technology to power his automobile designs. Once gasoline gained dominance as the power source of choice, Porsche became relentless in his goal to design the fastest and most durable automobiles in Europe. Ferdinand Porsche: Genesis of Genius explores in depth the unique combination of ambition, determination, and genius that were the genesis of an automotive dynasty which has continued to thrive and expand for over a century.
