Anderson P. R. Frost Mike Resnick James Patrick Kelly Lianne Norman Dean Wesley Smith Irene Radford Kristine Kathryn Rusch And more... For all of those who thought that by now that they'd be driving along the skyways in their own personal jet car, who assumed that humans would have established bases on the Moon and Mars, or that diseases would have been conquered, the aging process slowed to a crawl, and war eliminated along with social injustice -- here are sixteen stories of futures that might someday be reality.

Can't Pay, Won't Pay Jul 11 2023 Debtors have been mocked, scolded and lied to for decades. We have been told that it is perfectly normal to go into debt to get medical care, to go to school, or even to pay for our own incarceration. We've been told there is no way to change an economy that pushes the majority of people into debt while a small minority hoard wealth and power. The coronavirus pandemic has revealed that mass indebtedness and extreme inequality are a political choice. In the early days of the

crisis, elected officials drew up plans to spend trillions of dollars. The only question was: where would the money go and who would benefit from the bailout? The truth is that there has never been a lack of money for things like housing, education and health care. Millions of people never needed to be forced into debt for those things in the first place. Armed with this knowledge, a militant debtors movement has the potential to rewrite the contract and assure that no one has to mortgage their future to survive. Debtors of the World Must Unite. As isolated individuals, debtors have little influence. But as a bloc, we can leverage our debts and devise new tactics to challenge the corporate creditor class and help win reparative, universal public goods. Individually, our debts overwhelm us. But together, our debts can make us powerful.

Reparations and Reparatory Justice Aug 12 2023 Changes at the global, federal, state, and municipal level are pushing forward the reparations movement for people of African descent. The distinguished editors of this volume have gathered works that chronicle the historical movement for reparations both in the United States and around the world. Sharing a focus on reparations as an issue of justice, the contributors provide a historical primer of the movement; introduce the philosophical, political, economic, legal and ethical issues surrounding reparations; explain why government, corporations, universities, and other institutions must take steps to rehabilitate, compensate, and commemorate African Americans; call for the restoration of Black people's human and civil rights and material and psychological well-being; lay out specific ideas about how reparations can and should be paid; and advance cutting-edge interpretations of the complex long-lasting effects that enslavement,

police and vigilante actions, economic discrimination, and other behaviors have had on people of African descent. Groundbreaking and innovative, Reparations and Reparatory Justice offers a multifaceted resource to anyone wishing to explore a defining moral issue of our time. Madison Avenue in Asia Oct 22 2021 Dependency theory is used to analyze the significance of the rapidly expanding transnational advertising agencies as they operate in Singapore, China, Indonesia, and Malaysia. The American hegemony over international advertising is discussed, as is the general question of the effectiveness of foreign-influenced advertising.

Repair Nov 15 2023 A compelling case for reparations based on powerful, first-person accounts detailing both the horrors of slavery and past promises made to its survivors. Katherine Franke makes a powerful case for reparations for Black Americans by amplifying the stories of formerly enslaved people and calling for repair of the damage caused by the legacy of American slavery. Repair invites readers to explore the historical context for reparations, offering a detailed account of the circumstances that surrounded the emancipation of enslaved Black people in two unique contexts, the Sea Islands of South Carolina and Davis Bend, Mississippi, Jefferson Davis's former plantation. Through these two critical historical examples, Franke unpacks intergenerational, systemic racism and white privilege at the heart of American society and argues that reparations for slavery are necessary, overdue and possible. Praise for Repair "Essential . . . Franke engages the original debates concerning the conditions upon which newly freed Black people would rebuild their lives after slavery. Franke powerfully illustrates the repercussions of the unfilled promise of land redistribution and other broken promises that consigned African Americans to another one hundred years of second-class citizenship. Franke passionately argues that the continuation of those vast disparities between Black and white people in U.S. society—a product of slavery itself—means that the struggle for reparations remains a relevant demand in the current movements for racial justice." —Keeanga-Yamahtta Taylor, author of From

#BlackLivesMatter to Black Liberation “Repair revisits the revolutionary era of Reconstruction . . . when the redistribution of land and wealth as recompense for unrequited toil could have secured genuine freedom for Black people rather than a future of racial inequality, exploitation, marginalization, and precarity Franke makes a persuasive case for reparations as at least a first step toward creating the conditions for genuine freedom and justice, not only for African Americans but for all of us.” —Robin D. G. Kelley, author of Freedom Dreams: The Black Radical Imagination

“Katherine Franke argues for a type of Black freedom that is material and felt—freedom that is more than a poetic nod to claims of American moral comeuppance. Repair . . . is a critical text for our times that demands an honest reckoning with the consequences, and afterlife, of the sin that was chattel enslavement. It is bold call for reparations and costly atonement.” —Darnell L. Moore, author of No Ashes in the Fire: Coming of Age Black & Free in America

“Katherine Franke is consistently one of the sharpest, most conscientious thinkers in progressive politics. In a time defined by crisis and conflict, Katherine is among that small number of thinkers whom I find indispensable.” —Jelani Cobb, New Yorker columnist and author of The Substance of Hope

From Here to Equality Dec 16 2023 "Racism and discrimination have choked economic opportunity for African Americans at nearly every turn. In 'From Here to Equality,' William Darity Jr. and A. Kirsten Mullen confront these injustices head-on and make the most comprehensive case to date for economic reparations for U.S. descendants of slavery. After opening the book with a stark assessment of the intergenerational effects of white supremacy on black economic well-being, Darity and Mullen look to both the past

and the present to measure the inequalities borne of slavery. Using innovative methods that link monetary values to historical wrongs, they next assess the literal and figurative costs of justice denied in the 155 years since the end of the Civil War. Finally, Darity and Mullen offer a detailed roadmap for an effective reparations program, including a substantial payment to each documented U.S. black descendant of slavery. Taken individually, any one of the three eras of injustice outlined by Darity and Mullen--slavery, Jim Crow, and modern-day discrimination--makes a powerful case for black reparations"--

Atonement and Forgiveness Apr 20 2024 This is a tightly argued book making a case for reparations to the U. S. black community based on a model of atonement and forgiveness.

Solidarity Jun 10 2023 A MOST ANTICIPATED BOOK • From renowned organizers and activists Leah Hunt-Hendrix and Astra Taylor, comes the first in-depth examination of Solidarity—not just as a rallying cry, but as potent political movement with potential to effect lasting change. “A window into what is possible when we reject the politics of division, trade individualism for interconnectedness and prioritize coming together for the greater good.”—Heather McGhee, author of The Sum of Us: What Racism Costs Everyone Solidarity is often invoked, but it is rarely analyzed and poorly understood. Here, two leading activists and thinkers survey the past, present, and future of the concept across borders of nation, identity, and class to ask: how can we build solidarity in an era of staggering inequality, polarization, violence, and ecological catastrophe? Offering a lively and lucid history of the idea—from Ancient Rome through the first European and American socialists and labor organizers, to twenty-first century social movements like

Occupy Wall Street and Black Lives Matter—Hunt-Hendrix and Taylor trace the philosophical debates and political struggles that have shaped the modern world. Looking forward, they argue that a clear understanding of how solidarity is built and sustained, and an awareness of how it has been suppressed, is essential to warding off the many crises of our present: right-wing backlash, irreversible climate damage, widespread alienation, loneliness, and despair. Hunt-Hendrix and Taylor insist that solidarity is both a principle and a practice, one that must be cultivated and institutionalized, so that care for the common good becomes the central aim of politics and social life.

Reparations and Anti-Black Racism Jan 17 2024 Police shootings and incarceration inequalities are two examples of the legacy of slavery in the US and UK. Offering a criminological exploration of the case for slavery and anti-black racism reparations in the context of enduring harms and differential treatment of black citizens, this book refutes the policy perspectives that oppose reparations.

The Illustrated London News Nov 22 2021

The Case for Black Reparations May 21 2024 Originally published in 1972, Boris Bittker's riveting study of America's debt to African-Americans was well ahead of its time. Published by Toni Morrison when she was an editor, the book came from an unlikely source: Bittker was a white professor of law at Yale University who had long been ambivalent about the idea of reparations. Through his research into the history and theory of reparations--namely the

development and enforcement of laws designed to compensate groups for injustices imposed on them--he found that it wasn't a crazy, far-fetched idea. In fact, beginning with post-Civil War demands for forty acres and a mule, African-American thinkers have long made the case that compensatory measures are justified not only for the injury of slavery but for the further setbacks of almost a century of Jim Crow laws and forced school and job segregation, measures that effectively blocked African-Americans from enjoying the privileges of citizenship. The publication of important recent books by black scholars like Randall Robinson and the growth of a highly vocal reparations movement in the beginning of this century make this book, long unavailable, essential reading. Bittker carefully illuminates the historical provision and statutes for legitimate claims to reparations, the national and international precedents for such claims, and most important, the obstacles to a national policy of reparations.

A Misplaced Massacre Dec 24 2021 In the early morning of November 29, 1864, with the fate of the Union still uncertain, part of the First Colorado and nearly all of the Third Colorado volunteer regiments, commanded by Colonel John Chivington, surprised hundreds of Cheyenne and Arapaho people camped on the banks of Sand Creek in southeastern Colorado Territory. More than 150 Native Americans were slaughtered, the vast majority of them women, children, and the elderly, making it one of the most infamous cases of state-sponsored violence in U.S. history. *A Misplaced Massacre* examines the ways in which generations of Americans have struggled to come to terms with the meaning of both the attack and its aftermath, most publicly at the 2007 opening of the Sand Creek Massacre National Historic Site. This site opened after a long and remarkably contentious planning process. Native Americans, Colorado ranchers, scholars, Park Service employees, and politicians alternately argued and allied with one another around the question of whether the nation's crimes, as well as its achievements, should be memorialized. Ari Kelman unearths the stories of those who lived through the atrocity, as well as those who grappled with its troubling legacy, to reveal how the intertwined histories of the conquest and colonization of the American West and the U.S. Civil War left enduring national scars. Combining painstaking research with storytelling worthy of a novel, *A Misplaced Massacre* probes the intersection of history and memory, laying bare the ways differing groups of Americans come to know a shared past.

Should America Pay? Mar 19 2024 Growing interest in reparations for African Americans has prompted a range of responses, from

lawsuits against major corporations and a march in Washington to an anti-reparations ad campaign. As a result, the link between slavery and contemporary race relations is more potent and obvious than ever. Grassroots organizers, lawmakers, and distinguished academics have embraced the idea that reparations should be pursued vigorously in the courts and legislature. But others ask, Who should pay? And could reparations help heal the wounds of the past? This comprehensive collection -- the only of its kind -- gathers together the seminal essays and key participants in the debate. Pro-reparations essays, including contributions by Congressman John Conyers Jr., Christopher Hitchens, and Professor Molefi Asante, are countered with arguments by Shelby Steele, Armstrong Williams, and John McWhorter, among others. Also featured are important documents, such as the First Congressional Reparations Bill of 1867 and the Dakar Declaration of 2001, as well as a new chapter on the current status and future direction of the movement.
