

To Replace the Ram Cylinder Housing to the Tractor

- 1 Position the ram cylinder housing on the rear transmission housing ensuring that the vertical feed pipe (9 ins. long) is correctly positioned and that new seals are fitted at both ends.
- 2 Secure the tail lamp and bracket to the rear transmission housing with bolt and lockwasher.
- 3 Clip up the rear lamp cable and side lamp cables to the transmission housing and fit the remaining ram cylinder retaining bolts.
- 4 Attach the lift rods to the lift arms and fit the clevis pins and split pins.
- 5 Replace the four bolts and washers to retain the seat to the ram cylinder housing.

Fig. 196
Fitting the Ram Cylinder Piston

To Remove and Dismantle the Ram Cylinder and Piston

NOTE.— Can be carried out in situ if required.

- 1 Remove the ram cylinder and piston by unscrewing the valve unit retaining bolts and lockwashers. The ram cylinder may come away as the valve costs are removed. If not, extract the ram cylinder from the transmission housing. (See page 153 for Dismantling the Control Unit.)
- 2 Pull out the oil feed pipe (8½ ins. long) and remove the oil seals at each end (see Fig. 196).

3 Remove the ram cylinder piston after extracting the ring from the front end of the cylinder and the piston out from the rear of the cylinder. Do not remove the piston from the front end of the cylinder as the piston seal may become trapped in the oil seal groove.)

- 4 Dismantle the piston after bending down the tab of the lockwasher, unscrewing the bolt in the centre of the piston head and lift off the retainer and seal.

Fig. 195
Fitting a Lift Arm

To Remove the Lift Arms and Cross-shaft

NOTE.— Can be carried out in situ if required.

- 1 Unscrew the six bolts and lockwashers retaining the cover plate at the rear of the housing. Remove the plate and the gasket (see Fig. 197).
- 2 Remove the lift arms and withdraw the shaft. Support the crank arm during this operation.
- 3 Lift out the crank arm and connecting rod.
- 4 Withdraw the bearings, bearing liners and spacers from the ram cylinder housing.

To Reassemble the Ram Cylinder and Piston

NOTE.— Always fit new oil seals.

- 1 Reassemble the piston by installing the new seal with the lip towards the crown of the piston, then fit the retainer with the flange located in the seal. Secure by means of the bolt and lockwasher, making certain that the tongue of the lockwasher fits in the slot in the piston head and bend the tab to lock the bolt (see Fig. 196).

time when food is becoming increasingly scarce in many parts of the world and food prices are skyrocketing no industry is more important than agriculture Humans have been farming for thousands of years and yet agriculture has undergone more fundamental changes in the past 80 years than in the previous several centuries In 1900 30 million American farmers tilled the soil or tended livestock today there are fewer than 4 5 million farmers who feed a population four times larger than it was at the beginning of the century Fifty years ago the planet could not have sustained a population of 6 5 billion now commercial and industrial agriculture ensure that millions will not die from starvation Farmers are able to feed an exponentially growing planet because the greatest industrial revolution in history has occurred in agriculture since 1929 with U S farmers leading the way Productivity on American farms has increased tenfold even as most small farmers and tenants have been forced to find other work Today only 300 000 farms produce approximately ninety percent of the total output and overproduction largely subsidized by government programs and policies has become the hallmark of modern agriculture

A Revolution Down on the Farm The Transformation of American Agriculture since 1929 charts the profound changes in farming that have occurred during author Paul K Conkin s lifetime His personal experiences growing up on a small Tennessee farm complement compelling statistical data as he explores America s vast agricultural transformation and considers its social political and economic consequences He examines the history of American agriculture showing how New Deal innovations evolved into convoluted commodity programs following World War II Conkin assesses the skills new technologies and government policies that helped transform farming in America and suggests how new legislation might affect farming in decades to come Although the increased production and mechanization of farming has been an economic success story for Americans the costs are becoming increasingly apparent Small farmers are put out of business when they cannot compete with giant non diversified corporate farms Caged chickens and hogs in factory like facilities or confined dairy cattle require massive amounts of chemicals and hormones ultimately ingested by consumers Fertilizers new organic chemicals manure disposal and genetically modified seeds have introduced environmental problems that are still being discovered

A Revolution Down on the Farm concludes with an evaluation of farming in the twenty first century and a distinctive meditation on alternatives to our present large scale mechanized subsidized and fossil fuel and chemically dependent system

Pripps, Brands and Branding Rita Clifton, 2009-04-01 With contributions from leading brand experts around the world this valuable resource delineates the case for brands financial value social value etc and looks at what makes certain brands great It covers best practices in branding and also looks at the future of brands in the age of globalization Although the balance sheet may not even put a value on it a company s brand or its portfolio of brands is its most valuable asset For well known companies it has been calculated that the brand can account for as much as 80 percent of their market value This

book argues that because of this and because of the power of not for profit brands like the Red Cross or Oxfam all organisations should make the brand their central organising principle guiding every decision and every action As well as making the case for brands and examining the argument of the anti globalisation movement that brands are bullies which do harm this second edition of Brands and Branding provides an expert review of best practice in branding covering everything from brand positioning to brand protection visual and verbal identity and brand communications Lastly the third part of the book looks at trends in branding branding in Asia especially in China and India brands in a digital world and the future for brands Written by 19 experts in the field Brands and Branding sets out to provide a better understanding of the role and importance of brands as well as a wealth of insights into how one builds and sustains a successful brand

Grunch* of Giants R. Buckminster Fuller, 1983-04-15 With the appearance of Grunch of Giants R Buckminster Fuller consummates his literary canon his panoramic lifetime survey of all aspects of the responsibility of human beings for their own destiny This book is a modern allegory his long gestated myth of the villainy of capitalism and the fecklessness of classic economics For Fuller the academic discipline of economics is irrelevant since it derives from an invalid assumption of scarcity In fact he has long argued that future historians of our era may subsume our business practices as a branch of mythology thus it is not surprising that the word economic appears nowhere in his text Fuller s myth is no idle fairy tale since he faces his question the question of a technological imperative which only he could raise with the deadly seriousness of satire That question is Can our system of national political sovereignties and corporate profits survive the inevitable technology revolution required to obviate wars by effecting a worldwide rise in the standard of living One of the functions of myth is to resolve contradictions in our culture Grunch of Giants portrays the rising of multinational corporations in the paradoxical role of function both as the epitome of capitalistic selfishness and as the inadvertent vehicle for the dissolution of national political boundaries the last deterrent to a one world economy The result is more subversive of the property and profit values of the capitalist system than anything dreamed of since Karl Marx E J Applewhite collaborator with RBF on Synergetics and Synergetics 2 author of Cosmic Fishing A Memoir of Working With R Buckminster Fuller
