Steps to Personal Revival Helmut HAUBEIL,2020-03-17 On August 14 2011 when I was in Kandergrund in the Bernese Highlands in Switzerland an important connection became very clear to me I recognized a spiritual cause for why we are losing part of our youth I was very shocked I thought of my children and grandchildren Since

then I have been intensively occupied with this subject Now I believe that the same spiritual cause is behind many of our problems specifically the personal problems in the local churches and the world wide church It is the lack of the Holy Spirit If this is the cause then we should urgently address this issue If the cause can be eliminated or considerably reduced then many problems will become superfluous or will be resolved

Through the Language Glass Guy Deutscher,2010-08-31 A masterpiece of linguistics scholarship at once erudite and

entertaining confronts the thorny question of how and whether culture shapes language and language culture Linguistics has long shied away from claiming any link between a language and the culture of its speakers too much simplistic even bigoted chatter about the romance of Italian and the goose stepping orderliness of German has made serious thinkers wary of the entire subject But now acclaimed linguist Guy Deutscher has dared to reopen the issue Can culture influence language and vice versa Can different languages lead their speakers to different thoughts Could our experience of the world depend on whether our language has a word for blue Challenging the consensus that the fundamentals of language are hard wired in our genes and thus universal Deutscher argues that the answer to all these questions is yes In thrilling fashion he takes us from Homer to Darwin from Yale to the Amazon from how to name the rainbow to why Russian water a she becomes a he once you dip a tea bag into her demonstrating that language does in fact reflect culture in ways that are anything but trivial Audacious delightful and field changing Through the Language Glass is a classic of intellectual discovery
