Unto a Good Land Feb 17 2024 "Unto a Good Land offers a distinctive narrative history of the American people -- from the first contacts between Europeans and North America's native inhabitants, through the creation of a modern nation, to the standing of the United States as a world power. Written by a team of distinguished historians led by David Edwin Harrell, Jr. and Edwin S. Gaustad, this textbook shows how grasping the uniqueness of the bAmerican experimentb depends on understanding the role of religion as well as social, cultural, political, and economic factors in shaping U.S. history. A common shortcoming of most United States history textbooks is that while, in recent decades, they have expanded their coverage of social and cultural history, they still tend to shortchange the role of religious ideas, practices, and movements in the American past. "Unto a Good Land addresses this shortcoming in a balanced way. The authors recognize that religion is only one of many factors that have influenced our past -- one, however, that has often been neglected in textbook accounts. This volume gives religion its appropriate place in the story. "Unprecedented coverage of the forces that have shaped the history of the United States While none of America's rich history is left out, this volume is the first U.S. history textbook to give serious attention to the religious dimension of American life. This textbook is not a religious history; instead, it offers an account of American history that includes religious ideas, practices, and movements whenever they played a shaping role. "Comprehensive and current This volume traces the American story from the earliest encounters between the first North American inhabitants and Europeans through the 2004 presidential election. Complete and balanced treatment is also given to issues of gender, race, and ethnicity, as well as cultural, political, and economic forces. "A clear and compelling narrative The authors are more than expert historians; they are also talented writers who recognize history to be the retelling of human life. United by a seamless narrative structure, these chapters restore the bstoryb to history. "Multiple formats specially designed for flexible classroom use "Unto a Good Land is available as a single hardcover edition or as two paperback volumes, offering maximum flexibility when adapting curriculum for one- and two-semester courses in U.S. history. The two paperback volumes can be used for U.S. history survey courses divided at 1865 or 1900 -- or at any date in between. "Informative special features to complement the text In addition to the book's exceptional narrative, an array of special features enhances the instructional value of the text and points students to resources for further study. "Includes assistance for teaching and test preparation The instructor's manual for "Unto a Good Land provides helpful suggestions for lesson plans and assignments, and the test bank provides multiple-choice and essay questions for use as study aids, quizzes, or tests. "Suitable for instruction at both secular and religious colleges and universities Drawing on their experience in both secular and religious schools, the authors have ensured that this textbook is suitable for U.S. history classes in a wide variety of settings.

The American Journey Jun 28 2022 For the second semester of a two-semester, freshman/sophomore-level survey courses in U.S. History or for a one semester course that focuses on the period of U.S. History from 1877 to 2005. The American Journey, a cornerstone series for the U.S. History market, successfully blends the coverage of political and social histories of our great nation throughout the series. With this focus, the authors show that our attempt to live up to our American ideals is an ongoing journey. This journey, while still a work in progress, is increasingly more inclusive of different groups and ideas. The Concise Edition offers a trade-like full color narrative format at an economy price for today's price conscious students.

These Truths Jan 16 2024 New York Times Bestseller In the most ambitious one-volume American history in decades, award-winning historian and New Yorker writer Jill Lepore offers a magisterial account of the origins and rise of a divided nation, an urgently needed reckoning with the beauty and tragedy of American history. Written in elegiac prose, Lepore's groundbreaking investigation places truth itself—a devotion to facts, proof, and evidence—at the center of the nation's history. The American experiment rests on three ideas—"these truths," Jefferson called them—political equality, natural rights, and the sovereignty of the people. And it rests, too, on a fearless dedication to inquiry, Lepore argues, because self-government depends on it. But has the nation, and democracy itself, delivered on that promise? *These Truths* tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five centuries has proven the nation's truths, or belied them. To answer that question, Lepore traces the intertwined histories of American politics, law, journalism, and technology, from the colonial town meeting to the nineteenth-century party machine, from talk radio to twenty-first-century Internet polls, from Magna Carta to the Patriot Act, from the printing press to Facebook News. Along the way, Lepore's sovereign chronicle is filled with arresting sketches of both well-known and lesser-known Americans, from a parade of presidents and a rogues' gallery of political mischief makers to the intrepid leaders of protest movements, including Frederick Douglass, the famed abolitionist orator; William Jennings Bryan, the three-time presidential candidate and ultimately tragic populist; Pauli Murray, the visionary civil rights strategist; and Phyllis Schlafly, the uncredited architect of modern conservatism. Americans are descended from slaves and slave owners, from conquerors and the conquered, from immigrants and from people who have fought to end immigration. "A nation born in contradiction will fight forever over the meaning of its history," Lepore writes, but engaging in that struggle by studying the past is part of the work of citizenship. "The past is an inheritance, a gift and a burden," *These Truths* observes. "It can't be shirked. There's nothing for it but to get to know it."

Teaching What Really Happened May 28 2022 "Should be in the hands of every history teacher in the country."—Howard Zinn James Loewen has revised *Teaching What Really Happened*, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retellings of the past. In addition to updating the scholarship and anecdotes throughout, the second edition features a timely new chapter entitled "Truth" that addresses how traditional and social media can distort current events and the historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It will specifically help teachers and students tackle important content areas, including Eurocentrism, the American Indian experience, and slavery. Book Features: An up-to-date assessment of the potential and pitfalls of U.S. and world history education. Information to help teachers expect, and get, good performance from students of all racial, ethnic, and socioeconomic backgrounds. Strategies for incorporating project-oriented self-learning, having students conduct online historical research, and teaching historiography. Ideas from teachers across the country who are empowering students by teaching what really happened. Specific chapters dedicated to five content topics usually taught poorly in today's schools.

United States History I Exam Success Jan 04 2023 Learn the Secret to United States History I Exam success! Learn how to succeed on your United States History Exams. The Teaching of State History in the Public Schools of the United States Jun 16 2021

Historical Outlook Apr 14 2021

A Disability History of the United States Mar 14 2021 The first book to cover the entirety of disability history, from pre-1492 to the present Disability is not just the story of someone we love or the story of whom we may become; rather it is undoubtedly the story of our nation. Covering the entirety of US history from pre-1492 to the present, *A Disability History of the United States* is the first book to place the experiences of people with disabilities at the center of the American narrative. In many ways, it's a familiar telling. In other ways, however, it is a radical repositioning of US history. By doing so, the book casts new light on familiar stories, such as slavery and immigration, while breaking ground about the ties between nativism and oralism in the late nineteenth century and the role of ableism in the development of democracy. *A Disability History of the United States* pulls from primary-source documents and social histories to retell American history through the eyes, words, and impressions of the people who lived it. As historian and disability scholar Nielsen argues, to understand disability history isn't to narrowly focus on a series of individual triumphs but rather to examine mass movements and pivotal daily events through the lens of varied experiences. Throughout the book, Nielsen deftly illustrates how concepts of disability have deeply shaped the American experience—from deciding who was allowed to immigrate to establishing labor laws and justifying slavery and gender discrimination. Included are absorbing—at times horrific—narratives of blinded slaves being thrown overboard and women being involuntarily sterilized, as well as triumphant accounts of disabled miners organizing strikes and disability rights activists picketing Washington. Engrossing and profound, *A Disability History of the United States* fundamentally reinterprets how we view our nation's past: from a stifling master narrative to a shared history that encompasses us all.

The American Journey + MyHistoryLab With Pearson Etext Nov 21 2021 This package contains the following components: -0136060226: MyHistoryLab with Pearson eText -- for US History, 2-semester -0205245951: American Journey, The: A History of the United States, Brief Edition, Combined Volume Reprint

A People's History of the United States May 16 2021 Since its original landmark publication in 1980, A People's History of the United States has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, A People's History is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, A People's History of the United States, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

This America Feb 10 2021 A New York Times Book Review Editors' Choice Selection One of President Bill Clinton's "Best Things I've Read This Year" From the acclaimed historian and New Yorker writer comes this urgent manifesto on the dilemma of nationalism and the erosion of liberalism in the twenty-first century. At a time of much despair over the future of liberal democracy, Jill Lepore makes a stirring case for the nation in *This America*, a follow-up to her much-celebrated history of the United States, *These Truths*. With dangerous forms of nationalism on the rise, Lepore, a Harvard historian and New Yorker staff writer, repudiates nationalism here by explaining its long history—and the history of the idea of the nation itself—while calling for a “new Americanism”: a generous patriotism that requires an honest reckoning with America's past. Lepore begins her argument with a primer on the origins of nations, explaining how liberalism, the nation-state, and liberal nationalism, developed together. Illiberal nationalism, however, emerged in the United States after the Civil War—resulting in the failure of Reconstruction, the rise of Jim Crow, and the restriction of immigration. Much of American history, Lepore argues, has been a battle between these two forms of nationalism, liberal and illiberal, all the way down to the nation's latest, bitter struggles over immigration. Defending liberalism, as *This America* demonstrates, requires making the case for the nation. But American historians largely abandoned that defense in the 1960s when they stopped writing national history. By the 1980s they'd stopped studying the nation-state altogether and embraced globalism instead. “When serious historians abandon the study of the nation,” Lepore tellingly writes, “nationalism doesn't die. Instead, it eats liberalism.” But liberalism is still in there, Lepore affirms, and *This America* is an attempt to pull it out. “In a world made up of nations, there is no more powerful way to fight the forces of prejudice, intolerance, and injustice than by a dedication to equality, citizenship, and equal rights, as guaranteed by a nation of laws.” A manifesto for a better nation, and a call for a “new Americanism,” *This America* reclaims the nation's future by reclaiming its past.

The Status of World History Instruction in American Secondary Schools Dec 03 2022 The one-year course in world history, popular in some quarters, does not seem to have made much headway. High school level courses on world-history are one of the many responses to the World Wars, yet said courses have never been recommended by a committee of national scope on which there were any historians. Opinion surveys among teachers and students indicate that no other part of the typical social studies program is more criticized than the tenth grade level one year elective world history course. These courses are increasing in number, textbooks are multiplying, and a few interesting experiments are being worked out--yet there is no general agreement on organization, scope, objectives, teaching strategies, or assessment in these courses. This document is a summary of historical and recent surveys on curricular trends in social studies with regard to world history, to help educators assess what impact they may have on the teaching of world history in the 1970s.

U.S. History Apr 19 2024 Printed in color. U.S. History is designed to meet the scope and sequence requirements of most introductory courses. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). U.S. History covers key forces that form the American experience, with particular attention to issues of

race, class, and gender.

U.S. History Jul 30 2022 U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class, and gender. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

American Women's History Jul 18 2021 Offers a nuanced account of the multiple aspects of women's lives and their roles in American society American Women's History presents a comprehensive survey of women's experience in the U.S. and North America from pre-European contact to the present. Centering women of color and incorporating issues of sexuality and gender, this student-friendly textbook draws from cutting-edge scholarship to provide a more inclusive and complicated perspective on the conventional narrative of U.S. women's history. Throughout the text, the authors highlight diverse voices such as Matoaka (Pocahontas), Hilleetie van Olinda, Margaret Sanger, and Annelle Ponder. Arranged chronologically, American Women's History explores the major turning points in American women's history while exploring various contexts surrounding race, work, politics, activism, and the construction of self. Concise chapters cover a uniquely wide range of topics, such as the roles of Indigenous women in North American cultures, the ways women participated in the American Revolution, the lives of women of color in the antebellum South and their experiences with slave resistance and rebellion, the radical transformation brought on by Black women during Reconstruction, the activism of women before and after suffrage was won, and more. Discusses how Indigenous women navigated cross-cultural contact and resisted assimilation efforts after the arrival of Europeans Considers the construction of Black female bodies and the implications of the slave trade in the Americas Addresses the cultural shifts, demographic changes, and women's rights movements of the early twentieth century Highlights women's participation in movements for civil rights, workplace justice, and equal educational opportunities Explores the feminist movement and its accomplishments, the rise of anti-feminism, and women's influence on the modern political landscape Designed for both one- and two-semester U.S. history courses, American Women's History is an ideal resource for instructors looking for a streamlined textbook that will complement existing primary sources that work well in their classes. Due to its focus on women of color, it is particularly valuable for community colleges and other institutions with diverse student populations.

Out Many Sep 12 2023 Out of Many is a coherent narrative of American history that offers insight into how diverse communities and different regions have shaped America's past. CLEP, the College-Level Examination Program, gives students the opportunity to receive college credit by earning qualifying scores on any one or more of 34 exams. Nearly 3,000 colleges and universities in the United States will grant credit for CLEP exams. More than seven million students have taken CLEP exams since 1967. Now it's your turn to move ahead in your education and career with CLEP! Book jacket.

U.S. History Sep 19 2021 Printed in color. U.S. History is designed to meet the scope and sequence requirements of most introductory courses. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). U.S. History covers key forces that form the American experience, with particular attention to issues of race, class, and gender.

The History of the Standard Oil Company Mar 18 2024
