Downsizing the Federal Government Chris Edwards, 2005-11-25 The federal government is running huge budget deficits spending too much and heading toward a financial crisis. Federal spending soared under President George W Bush and the costs of programs for the elderly are set to balloon in coming years. Hurricane Katrina has made the federal budget situation even more desperate. In *Downsizing the Federal Government* Cato Institute budget expert Chris Edwards provides policymakers with solutions to the growing federal budget mess. Edwards identifies more than 100 federal programs that should be terminated, transferred to the states or privatized in order to balance the budget and save hundreds of billions of dollars. Edwards proposes a balanced reform package of cuts to entitlements, domestic programs and excess defense spending. He argues that these cuts would not only eliminate the deficit but also strengthen the economy, enlarge personal freedom and leave a positive fiscal legacy for the next generation. *Downsizing the Federal Government* discusses the systematic causes of wasteful spending and it overflows with examples of federal programs that are obsolete and mismanaged. The book examines the budget process and shows how policymakers act contrary to the interests of average Americans by favoring special interests.
