Notes on the Death of Culture Oct 07 2023 WINNER OF THE NOBEL PRIZE IN LITERATURE A provocative essay collection that finds the Nobel laureate taking on the decline of intellectual life In the past, culture was a kind of vital consciousness that constantly rejuvenated and revived everyday reality. Now it is largely a mechanism of distraction and entertainment. Notes on the Death of Culture is an examination and indictment of this transformation—penned by none other than Mario Vargas Llosa, who is not only one of our finest novelists but one of the keenest social critics at work today. Taking his cues from T. S. Eliot—whose essay "Notes Toward a Definition of Culture" is a touchstone precisely because the culture Eliot aimed to describe has since vanished—Vargas Llosa traces a decline whose ill effects have only just begun to be felt. He mourns, in particular, the figure of the intellectual: for most of the twentieth century, men and women of letters drove political, aesthetic, and moral conversations; today they have all but disappeared from public debate. But Vargas Llosa stubbornly refuses to fade into the background. He is not content to merely sign a petition; he will not bite his tongue. A necessary gadfly, the Nobel laureate Vargas Llosa, here vividly translated by John King, provides a tough but essential critique of our time and culture.

Eccentric Neighborhoods Jun 03 2023 A “colorful family saga” set against the dramatic historical backdrop of twentieth-century Puerto Rico, from an author nominated for the National Book Award (Kirkus Reviews). Elvira Vernet narrates *Eccentric Neighborhoods* as she attempts to solve the mystery of who her parents truly are. Her mother, the beautiful and aristocratic Clarissa Rivas de Santillana, was born into a rarefied world of privilege, one of five daughters on the family’s sugar plantation. Elvira’s father, Aurelio Vernet, and his three brothers and two sisters were raised by Santiago, a Cuban immigrant who ruled his family with an iron hand. As Puerto Rico struggles for independence—and Aurelio takes his place among the powerful political gentry—a legacy of violence, infidelity, faith, and sacrifice is born. Set against the backdrop of a country coming of age, *Eccentric Neighborhoods* is a lush, transcendent novel, a family saga about mothers and daughters, husbands and wives, parents and children. In this magnificent follow-up

to *The House on the Lagoon*, Rosario Ferré delivers a work of historical fiction influenced by magical realism and infused with forgiveness and love.

This I Believe Jun 22 2022 In this masterly, deeply personal, and provocative book, the internationally renowned Mexican writer Carlos Fuentes, whose work has been called “a combination of Poe, Baudelaire, and Isak Dinesen” (Newsweek), steps back to survey the wellsprings of art and ideology, the events that have shaped our time, and his extraordinary life and fiercest passions. Arranged alphabetically from “Amore” to “Zurich,” *This I Believe* takes us on a marvelous inner journey with a great writer. Fuentes ranges wide, from contradictions inherent in Latin American culture and politics to his long friendship with director Luis Buñuel. Along the way, we find reflection on the mixed curse and blessing of globalization; memories of a sexual initiation in Zurich; a fond tracing of a family tree heavy with poets, dreamers, and diplomats; evocations of the streets, cafés, and bedrooms of Washington, Paris, Santiago de Chile, Cambridge, Oaxaca, and New York; and a celebration of literary heroes including Balzac, Cervantes, Faulkner, Kafka, and Shakespeare. Throughout, Fuentes captivates with the power of his intellect and his prose. Here, too, are vivid, often heartbreaking glimpses into his personal life. “Silvia” is a powerful love letter to his beloved wife. In “Children,” Fuentes recalls the births of his daughters and the tragic death of his son; in “Cinema” he relives the magic of films such as *Citizen Kane* and *The Wizard of Oz*. Further extending his reach, he examines the collision between history and contemporary life in “Civil Society,” “Left,” and “Revolution.” And he poignantly addresses the experiences we all hold in common as he grapples with beauty, death, freedom, God, and sex. By turns provocative and intimate, partisan and universal, this book is a brilliant summation of an international literary career. Revisiting the influences, commitments, readings, and insights of a lifetime, Fuentes has fashioned a magnificently coherent statement of his view of the world, reminding us once again why reading Fuentes is “like standing beneath the dome of the Sistine Chapel. . . . The breadth and enormity of this accomplishment is breathtaking” (The Denver Post).

Environmental History of Water Oct 27 2022 The World Water Development Report 2003 pointed out the extensive problem that: 'Sadly, the tragedy of the water crisis is not simply a result of lack of water but is, essentially, one of poor water governance.' Cross-sectional and historical intra-national and international comparisons have been recognized as a valuable method of study in different sectors of human life, including technologies and governance. Environmental History of Water fills this gap, with its main focus being on water and sanitation services and their evolution. Altogether 34 authors have written 30 chapters for this multidisciplinary book which divides into four chronological parts, from ancient cultures to the challenges of the 21st century, each with its introduction and conclusions written by the editors. The authors represent such disciplines as history of technology, history of public health, public policy, development studies, sociology, engineering and management sciences. This book emphasizes that the history of water and sanitation services is strongly linked to current water management and policy issues, as well as future implications. Geographically the book consists of local cases from all inhabited continents. The key penetrating themes of the book include especially population growth, health, water consumption, technological choices and governance. There is great need for general, long-term analysis at the global level. Lessons learned from earlier societies help us to understand the present crisis and challenges. This new book, Environmental History

of Water, provides this analysis by studying these lessons.

Arabs and Empires Before Islam Feb 11 2024 Arabs and Empires before Islam illuminates the history of the Arabs before the emergence of Islam, collating nearly 250 translated extracts from an extensive array of ancient sources. Drawn from a broad period between the eighth century

BC and the Middle Ages, the sources include texts originally written in Greek, Latin, Syriac, Persian, and Arabic, inscriptions in a variety of languages and alphabets, and discussions of archaeological sites from across the Near East. More than twenty international experts from the fields of archaeology, classics and ancient history, linguistics and philology, epigraphy, and art history provide detailed commentary on and analysis of this diverse selection of material. Richly illustrated with sixteen colour plates, fifteen maps, and over seventy in-text images, the volume provides a comprehensive, wide-ranging, and up-to-date examination of what ancient sources had to say about the politics, culture, and religion of the Arabs in the pre-Islamic period. It offers a full consideration of the traces which the Arabs have left in the epigraphic, literary, and archaeological records, and sheds light on their relationship with their often more-powerful neighbours: the states and empires of the ancient Near East. Arabs and Empires before Islam gathers together a host of material never before collected into a single volume--some of which appears in English translation for the very first time--and provides a single point of reference for a vibrant and dynamic area of research.
