LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century. It now lives on at LIFE.com, the largest, most amazing collection of professional photography on the internet. Users can browse, search and view photos of today's people and events. They have free access to share, print and post images for personal use. EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine. New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea. Examines the political cinema of 1968 in relation to global events. The 1968 Democratic Convention, best known for police brutality against demonstrators, has been relegated to a dark place in American historical memory. Battleground Chicago ventures beyond the stereotypical image of rioting protestors and violent cops to reevaluate exactly how—and why—the police attacked antiwar activists at the convention. Working from interviews with eighty former

Chicago police officers who were on the scene, Frank Kusch uncovers the other side of the story of '68, deepening our understanding of a turbulent decade. "Frank Kusch's compelling account of the clash between Mayor Richard Daley's men in blue and anti-war rebels reveals why the 1960s was such a painful era for many Americans. . . . to his great credit, [Kusch] allows 'the pigs' to speak up for themselves."—Michael Kazin "Kusch's history of white Chicago policemen and the 1968 Democratic National Convention is a solid addition to a growing literature on the cultural sensibility and political perspective of the conservative white working class in the last third of the twentieth century."—David Farber, *Journal of American History* The author of *Black Hawk Down* vividly recounts a pivotal Vietnam War battle in this *New York Times* bestseller: "An extraordinary feat of journalism". —Karl Marlantes, *Wall Street Journal* In *Hue 1968*, Mark Bowden presents a detailed, day-by-day reconstruction of the most critical battle of the Tet Offensive. In the early hours of January 31, 1968, the North Vietnamese launched attacks across South Vietnam. The lynchpin of this campaign was the capture of Hue, Vietnam's intellectual and cultural capital. 10,000 troops descended from hidden camps and surged across the city, taking everything but two small military outposts. American commanders refused to believe the size and scope of the siege, ordering small companies of marines against thousands of entrenched enemy troops. After several futile and deadly days, Lieutenant Colonel Ernie Cheatham would finally come up with a strategy to retake the city block by block, in some of the most intense urban combat since World War II. With unprecedented access to war archives in the United States and Vietnam and interviews with participants from both sides, Bowden narrates each stage of this crucial battle through multiple viewpoints. Played out over 24 days and ultimately costing 10,000 lives, the Battle of Hue was by far the bloodiest of the entire war. When it ended, the American debate was never again about winning, only about how to leave. A *Los Angeles Times* Book Prize Finalist in History Winner of the 2018 Marine Corps Heritage Foundation Greene Award for a distinguished work of nonfiction This volume examines the protest movements of 1968 from innovative perspectives. With contributions from leading social theorists the book reflects on the untold narratives of race, gender and sexuality and critically addresses the standard theoretical assumptions of 1968 to discuss overlooked perspectives. The "New York Times" bestselling author of "Cod, Salt" and "The Basque History of the World" looks at this pivotal moment in history. Who murdered the chief engineer of the RUR robotics company of Portland, Oregon, and stole his prototype computer chip? By 2084 atmospheric temperature is up by eight degrees and ocean levels are up by eighteen feet. Both federal and state governments have collapsed, replaced instead by a system of city-states. Carlton Smith, sales manager of RUR, is tasked with finding out who-done-it and saving the company from bankruptcy. Carlton is a widower with an eighteen year old daughter named Tori. The

company provides Carlton with several high tech bugging devices, as well as a custom built vehicle modeled after the old army Humvee. The investigation would lead Carlton and Tori on a dangerous trip through the Wild West back to the ruins of Chicago, which is a Christian Fundamentalist city-state at war with the Black Muslim city-state of Detroit. In Chicago Carlton is kidnapped by Yakuza gangsters and taken to the Roman Catholic city-state of San Antonio, where Tori rescues her father in spectacular fashion. Carlton and Tori travel across the desert toward Los Angeles. But near the ruins of Las Vegas, Tori is kidnapped from the ladies' room of a restaurant. There are no police between Albuquerque and Los Angeles so Carlton continues his trip and reports the crime. He drops into a bar, where he is picked up by a beautiful hostess named Julia O'Brian. Julia works for a politically powerful New Age preacher named the Prophet, whose church is in a political tug-of-war with the American Catholic Church over control of the city. The key to the Prophet's popularity is the fact that he seems to be eternally youthful. How does he do it? What happened to Tori? Will Carlton save the company? Will civilization survive? Read the book to find out! The 1968 Tet Offensive was the decisive battle for Vietnam. Masterminded by the brilliant North Vietnamese General, Vo Nguyen Giap, it was intended to trigger a general uprising in South Vietnam. However, the bloody fighting for Saigon, Hue and other cities actually resulted in a catastrophic defeat for the North. In this excellent assessment of the key battle of the Vietnam conflict, James Arnold details the plans and forces involved and explains how, despite the outcome of the battle, the American people and their leaders came to perceive the war for Vietnam as lost. EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine. During the summer of 1971, in the midst of protests and demonstrations in the United States against the Vietnam War, it became evident that something horrific had happened in the remote South Vietnamese hamlet of My Lai. Three years previously, in March 1968, a unit of American soldiers engaged in seemingly indiscriminate violence against unarmed civilians, killing over 500 people, including women and children. News filtered slowly through the system, but was initially suppressed, dismissed or downplayed by military authorities. By late 1969, however journalists had pursued the rumors, when New York Times reporter Seymour Hirsch published an expose on the massacre, the story became a national outrage. Howard Jones places the events of My Lai and the aftermath in a wider historical context. As a result of the reporting of Hirsch and others, the U.S. army conducted a special

inquiry, which charged Lieutenant William Calley and nearly 30 other officers with war crimes. A court martial followed, but after four months Calley alone was found guilty of premeditated murder. He served four and a half months in prison before President Nixon pardoned him and ordered his release. Jones' compelling narrative details the events in Vietnam, as well as the mixed public response to Calley's sentence and to his defense that he had merely been following orders. Jones shows how pivotal the My Lai massacre was in galvanizing opposition to the Vietnam War, playing a part nearly as significant as that of the Tet Offensive and the Cambodian bombing. For many, it undermined any pretense of American moral superiority, calling into question not only the conduct of the war but the justification for U.S. involvement. Jones also reveals how the effects of My Lai were felt within the American military itself, forcing authorities to focus on failures within the chain of command and to review training methods as well as to confront the issue of civilian casualties - what, in later years, came to be known as "collateral damage." A trenchant and sober reassessment, *My Lai* delves into questions raised by the massacre that have never been properly answered: questions about America's leaders in the field and in Washington; the seeming breakdown of the U.S. army in Vietnam; the cover-up and ultimate public exposure; and the trial itself, which drew comparisons to Nuremberg. Based on extensive archival research, this is the best account to date of one of the defining moments of the Vietnam War. Recognizing the fiftieth anniversary of the protests, strikes, and violent struggles that formed the political and cultural backdrop of 1968 across Europe, the United States, and Latin America, Susana Draper offers a nuanced perspective of the 1968 movement in Mexico. She challenges the dominant cultural narrative of the movement that has emphasized the importance of the October 2nd Tlatelolco Massacre and the responses of male student leaders. From marginal cinema collectives to women's cooperative experiments, Draper reveals new archives of revolutionary participation that provide insight into how 1968 and its many afterlives are understood in Mexico and beyond. By giving voice to Mexican Marxist philosophers, political prisoners, and women who participated in the movement, Draper counters the canonical memorialization of 1968 by illustrating how many diverse voices inspired alternative forms of political participation. Given the current rise of social movements around the globe, in 1968 Mexico Draper provides a new framework to understand the events of 1968 in order to rethink the everyday existential, political, and philosophical problems of the present. From Paris to Peking, from Saigon to Washington, the pillars of the postwar world tottered on the brink of collapse in 1968. This book is the first global analysis of that universal upheaval, from the Tet offensive and the abdication of Lyndon Johnson to the "cultural revolution" in China and the convention and riots in Mayor Daley's Chicago. In August 1968, Democrats gather at their National Convention in Chicago to debate a platform for a deeply divided party. Factions are split over issues such as

civil rights, infrastructure, and the war on poverty—not to mention the war in Vietnam. Meanwhile, crowds of protesters descend upon the city. Impassioned antiwar demonstrators plan sit-ins and marches, while the absurdist Yippies, determined to make a mockery of the convention, intend to nominate a pig for president. Journalists flood the area to cover the stories of the delegates and protesters. Over the course of this game, players will develop a better understanding of the complexities of the social and cultural tumult that has come to be known as "the Sixties." This book offers a critical look at Mexican activism that expands our understanding of social movements during the Global 1960s--Provided by publisher. NATIONAL BESTSELLER • "In this highly opinionated and highly readable history, Kurlansky makes a case for why 1968 has lasting relevance in the United States and around the world."—Dan Rather To some, 1968 was the year of sex, drugs, and rock and roll. Yet it was also the year of the Martin Luther King, Jr., and Bobby Kennedy assassinations; the riots at the Democratic National Convention in Chicago; Prague Spring; the antiwar movement and the Tet Offensive; Black Power; the generation gap; avant-garde theater; the upsurge of the women's movement; and the beginning of the end for the Soviet Union. In this monumental book, Mark Kurlansky brings to teeming life the cultural and political history of that pivotal year, when television's influence on global events first became apparent, and spontaneous uprisings occurred simultaneously around the world. Encompassing the diverse realms of youth and music, politics and war, economics and the media, 1968 shows how twelve volatile months transformed who we were as a people—and led us to where we are today. In *American Maelstrom*, Michael A. Cohen captures the full drama of this watershed election, establishing 1968 as the hinge between the decline of political liberalism and the ascendancy of conservative populism and the anti-government attitudes that continue to dominate the nation's political discourse, taking us to the source of the politics of division. The 1968 struggle for the Presidency of the United States... McCarthy's entrance into the race and Johnson's exit, the tragically brief flare of Robert Kennedy's effort, the fluctuating fortunes of Rockefeller, Wallace, Reagan, Humphrey, and Nixon, the moments of decision in Miami Beach and in Chicago, the post-convention

campaigns, and then the incredibly close election itself... An American Melodrama tells the complete story. Welcome to 1968 — a revolution in a book. Essays, memoirs, and more by fourteen award-winning authors offer unique perspectives on one of the world's most tumultuous years. Nineteen sixty-eight was a pivotal year that grew more intense with each day. As thousands of Vietnamese and Americans were killed in war, students across four continents took over colleges and city streets. Assassins murdered Dr. King and Robert F. Kennedy. Demonstrators turned out in Prague and Chicago, and in Mexico City, young people and Olympic athletes protested. In those intense months, generations battled and the world wobbled on the edge of some vast change that was exhilarating one day and terrifying the next. To capture that extraordinary year, editors Marc Aronson and Susan Campbell Bartoletti created an anthology that showcases many genres of nonfiction. Some contributors use a broad canvas, others take a close look at a moment, and matched essays examine the same experience from different points of view. As we face our own moments of crisis and division, 1968 reminds us that we've clashed before and found a way forward — and that looking back can help map a way ahead. With contributions by: Jennifer Anthony Marc Aronson Susan Campbell Bartoletti Loree Griffin Burns Paul Fleischman Omar Figueras Laban Carrick Hill Mark Kurlansky Lenore Look David Lubar Kate MacMillan Kekla Magoon Jim Murphy Elizabeth Partridge Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. Decolonizing 1968 explores how activists in 1968 transformed university campuses across Europe and North Africa into sites of contestation where students, administrators, and state officials collided over definitions of modernity and nationhood after empire. Burleigh Hendrickson details protesters' versions of events to counterbalance more visible narratives that emerged from state-controlled media centers and ultimately describes how the very education systems put in place to serve the French state during the colonial period ended up functioning as the crucible of postcolonial revolt. Hendrickson not only unearths complex connections among activists and their transnational networks across Tunis, Paris, and Dakar but also weaves together their overlapping stories and participation in France's May '68. Using global protest to demonstrate the enduring links between France and its former colonies, Decolonizing 1968 traces the historical relationships between colonialism and 1968 activism, examining transnational networks that emerged and new human and immigrants' rights initiatives that directly followed. As a result, Hendrickson reveals that 1968 is not merely a flashpoint in the history of left-wing protest but a key turning point in the history of decolonization. Thanks to generous funding from Penn State and its participation in TOME (Toward an Open

Monograph Ecosystem), the ebook editions of this book are available as Open Access volumes from Cornell Open (cornellpress.cornell.edu/cornell-open) and other repositories. In 1948, a group of conservative white southerners formed the States' Rights Democratic Party, soon nicknamed the "Dixiecrats," and chose Strom Thurmond as their presidential candidate. Thrown on the defensive by federal civil rights initiatives and unprecedented grassroots political activity by African Americans, the Dixiecrats aimed to reclaim conservatives' former preeminent position within the national Democratic Party and upset President Harry Truman's bid for reelection. The Dixiecrats lost the battle in 1948, but, as Kari Frederickson reveals, the political repercussions of their revolt were significant. Frederickson situates the Dixiecrat movement within the tumultuous social and economic milieu of the 1930s and 1940s South, tracing the struggles between conservative and liberal Democrats over the future direction of the region. Enriching her sweeping political narrative with detailed coverage of local activity in Alabama, Louisiana, Mississippi, and South Carolina--the flashpoints of the Dixiecrat campaign--she shows that, even without upsetting Truman in 1948, the Dixiecrats forever altered politics in the South. By severing the traditional southern allegiance to the national Democratic Party in presidential elections, the Dixiecrats helped forge the way for the rise of the Republican Party in the region. Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. A vivid collection of texts from the movements and uprisings of the 'long 1968'. The race for the White House in 1968 was a watershed event in American politics. In this brilliantly succinct narrative analysis, Lewis L. Gould shows how the events of that tumultuous year changed the way Americans felt about politics and their national leaders; how Republicans used the skills they brought to Richard Nixon's campaign to create a generation-long ascendancy in presidential politics; and how Democrats, divided and torn after 1968, emerged as only crippled challengers for the White House throughout most of the years until the early twenty-first century. Bitterness over racial issues and the Vietnam War that marked the 1968 election continued to shape national affairs and to rile American society for years afterward. And the election accelerated an erosion of confidence in American institutions that has not yet reached a conclusion. In his lucid account, now revised and updated, Mr. Gould emphasizes the importance of race as the campaign's key issue and examines the now infamous "October surprises" of Lyndon Johnson and Richard Nixon as he describes the extraordinary events of what Eugene McCarthy later called the "Hard Year." EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine. From "a master of narrative

journalism" (New York Times Book Review), the bestselling history of the biggest and bloodiest battle of the Vietnam War LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century. It now lives on at LIFE.com, the largest, most amazing collection of professional photography on the internet. Users can browse, search and view photos of today's people and events. They have free access to share, print and post images for personal use. Now in paperback, a major history of one of the seminal years in the postwar world, when rebellion and disaffection broke out on an extraordinary scale. The year 1968 saw an extraordinary range of protests across much of the western world. Some of these were genuinely revolutionary—around ten million French workers went on strike and the whole state teetered on the brink of collapse. Others were more easily contained, but had profound longer-term implications—terrorist groups, feminist collectives, gay rights activists could all trace important roots to 1968. 1968 is a striking and original attempt half a century later to show how these events, which in some ways still seem so current, stemmed from histories and societies which are in practice now extraordinarily remote from our own time. 1968 pursues the story into the 1970s to show both the ever more violent forms of radicalization that stemmed from 1968 and the brutal reaction that brought the era to an end. The year 1968 was a watershed. Millions of workers in France struck in protest at police violence, the black ghettos in the United States rose in protest at the assassination of Martin Luther King, and it was the year of the Prague Spring when students and workers rose against Stalinism, only to be crushed by Russian Tanks. Substantially revised and updated to coincide with the 30th anniversary of the revolt, this work analyses the period and draws lessons from the events of 1968 that will still have relevance today. From assassinations to student riots, this is "a splendidly evocative account of a historic year—a year of tumult, of trauma, and of tragedy" (Arthur Schlesinger Jr.). In the United States, the 1960s were a period of unprecedented change and upheaval—but the year 1968 in particular stands out as a dramatic turning point. Americans witnessed the Tet offensive in Vietnam; the shocking assassinations of Martin Luther King Jr. and Robert Kennedy; and the chaos at the Democratic National Convention in Chicago. At the same time, a young generation was questioning authority like never before—and popular culture, especially music, was being revolutionized. Largely based on unpublished interviews and documents—including in-depth conversations with Eugene McCarthy and Bob Dylan, among many others, and the late Theodore White's archives, to which the author had sole access—1968 in America is a fascinating social history, and the definitive study of a year when nothing could be taken for granted. "Kaiser aims to convey not only what happened during the period but what it felt like at the time. Affecting touches bring back powerful memories, including strong accounts of the impact of the Tet offensive and of the frenzy aroused by Bobby Kennedy's race for the presidency." —The New York Times Book Review LIFE Magazine
