creating easily digestible stereotypes of Indians for popular consumption Literature about Indians was first written and published in order to provoke and sanctify warfare against them Later the focus changed to enlisting public support for civilizing the savages stripping them of their culture and assimilating them into the dominant society Now in the final stages of cultural genocide it is the appropriation and stereotyping of Native culture that establishes control over knowledge and truth The primary means by which this is accomplished is through the powerful publishing and film industries Whether they are the tragically doomed noble savages walking into the sunset of Dances With Wolves or Carlos Castaneda s Don Juan the exotic mythical Indians constitute no threat to the established order Literature and art crafted by the dominant culture are an insidious political force disinforming people who might otherwise develop a clearer understanding of indigenous struggles for justice and freedom This book is offered to counter that deception and to move people to take action on issues confronting American Indians today
