Susan Burns,Ilham Nasser,2018-09 Intentional teaching is an active evidence based approach to providing learning opportunities to meet the needs interests and prior knowledge of all children This book offers a field tested professional development model designed to help teachers master intentional teaching and enhance their effectiveness in the classroom The Thinking Teacher Sandra Heidemann,Beth Menninga,Claire Chang,2016 Self directed professional development resource for early childhood teachers Includes self assessment tools to help educators reexamine their teaching philosophy and integrate new knowledge and strategies into their practice Also includes digital content Intentional Teaching Anne Houghton,2013 This book helps educators in all settings to understand the principles of intentional teaching and highlights how intentional teaching practices can support learning outcomes for children The book includes shared understandings of intentional teaching through conversation and reflection with many educators Its purpose is to portray real and meaningful stories to highlight the ways in which educators have been intentional when planning for education and care with children Discussion explores the confusion that seems to exist among some educators They misinterpret it and either think there is no need for intentional teaching think it is formal instruction in a play based curriculum or are unsure of what it looks like in practice Through a shared conversation the author presents practical strategies with insight humour and common sense which will resonate with educators of all levels **Teaching with Intention** Debbie Miller,2008 I believe in the power of collaborative classroom communities where everyone s ideas are valued and respected But had you been in my classroom that day you d have never known it You d have thought I believed that I was the one with all the answers Effective intentional teaching begins with a strong set of beliefs but even the best teachers including Debbie Miller struggle to make sure that their classroom practice consistently reflects their core convictions In Teaching with Intention Debbie shares her process of defining beliefs aligning practice and taking action to ensure that children are the true beneficiaries of her teaching As Peter Johnston writes Through this book we have Debbie s teaching mind on loan She engages us in the details of a teaching life from inside her mind

showing the thinking behind her teaching and the consequences of her actions While Debbie s previous book Reading with Meaning chronicled a year in her own classroom Teaching with Intention brings us into classrooms of teachers and children she has met over the last five years in her work as a literacy consultant From setting up the classroom environment to the intentional use of language from comprehension instruction to lesson design Debbie is explicit about what she does and why At the same time she encourages teachers to develop their own belief statements concerning teaching and learning and includes key questions to guide them in this important process In an environment where the handing down of scripted programs and foolproof curricula is increasingly the norm Teaching with Intention offers a compelling reminder that truly transformative teaching is built from the ground up and is rebuilt every year by every teacher in every classroom with every new group of students
