Think about Led Zeppelin and the image coming to mind would be of the band straddling the world as the archetypal 'rock gods', defining the 1970s like no other artist did. Dig deeper though, and there's a lot more to Zeppelin than hard rock and bluster, with folk and blues strongly threading through their catalogue from the very beginning. This book digs into every Led Zeppelin track recorded during their decade-long existence before John Bonham's death brought down the curtain, by way of facts, anecdotes, analysis and a small dose of humour here and there. From the likes of 'Kashmir', 'Stairway To Heaven' and 'Whole Lotta Love' and their ilk, which have entered the public consciousness, down to the deeper cuts which only the fans will know, this book covers them all, while also taking a look into the stories behind the often ground breaking cover art, and the way the albums came to be recorded. Celebrating the triumphs and the arguable lower points, this is an alternative history of the band, told via the most important element - the music itself - which has influenced so many down the years. The history of led Zeppelin is a wild ride. This book shows you why. Steve Pilkington is a music journalist, editor and broadcaster. He was editor in chief for the Classic Rock Society magazine Rock Society and is now co-administrator of the rock website Velvet Thunder as well as presenting a weekly internet radio show called A Saucerful Of Prog. Before taking on this work full-time, he spent years writing for fanzines and an Internet music review site on a part-time basis. He has recently published books on Deep Purple and Rainbow, The Rolling Stones and Iron Maiden, all for Sonicbond, and has also written the official biography of legendary guitarist Gordon Giltrap. He lives in Wigan, Lancashire, UK. Bob Nelson, author of the multimillion-copy bestseller 1001 Ways to Reward Employees, and human performance expert Mario Tamayo

offer hundreds of practical, creative tips for helping employees—and their managers—make work more fun. According to the employees that work for firms listed in Fortune's "100 Best Companies to Work for in America," the most defining characteristic of these organizations is they are all "fun" places to work. Fun is the secret sauce every business needs to better engage and motivate its employees today. *Work Made Fun Gets Done!* gives readers simple, practical ideas for instantly bringing fun into their work and workplace. Based on examples from scores of companies like Zoom, Pinterest, Bank of America, Zappos, Honda, Microsoft, and many more, this book provides clear examples of exactly what managers and employees alike can do to lighten the tone in the work environment and allow employees to have more fun at work. From AAA's "Dump a Dog" program where workers can pass their least-wanted project on to their manager and Houzz's complimentary office slippers to CARFAX's themed-wardrobe Zoom meetings and Google's company-approved Nerf-gun battles and paper airplane contests, you'll find dozens of ideas you can immediately adapt and implement in your own workplace. Work and fun have typically been considered polar opposites, but this book proves they can be integrated in ways that produce more motivated workers—and exceptional results. India has fallen far and fast from the runaway growth rates it enjoyed in the first decade of the twenty-first century. In order to reverse this trend, New Delhi must seriously reflect on its policy choices across a wide range of issue areas. *Getting India Back on Track* broadly coincides with the 2014 Indian elections to spur a public debate about the program that the next government should pursue in order to return the country to a path of high growth. It convenes some of India's most accomplished analysts to recommend policies in every major sector of the Indian economy. Taken together, these seventeen focused and concise memoranda offer policymakers and the general public alike a clear blueprint for India's future. Contents Foreword Ratan N. Raja Mohan (Observer Research Foundation and Carnegie Endowment for International Peace) There are a lot of redundant processes in schools. We need to take a hard look at these and consider whether they are adding value to the core purpose of schools. We need to apply Greg McKeown's 'disciplined pursuit of less' in order to create the time and space to do deep, satisfying work on the curriculum. This means that there will be some hard choices and recognise that if we cannot do everything, we need to move to a space which acknowledges there will be trade offs. This is more than a workload issue, it is about focusing our efforts on the most important agenda item in schools today - the development of an ambitious curriculum for every child, in every school. After finishing as runner-up three times in the drivers' world championship, in 1992 Mansell finally secured the title. It was the crowning achievement of a hugely successful career, in which he won 31 Grand Prix, a record for a British driver that stood until Lewis Hamilton overhauled him in 2014. Always an aggressive driver, his exciting style meant he was hailed as a hero by his millions of fans in the UK and around the world. Out of the car, he was outspoken and charismatic, which merely served to enhance his reputation. Now, 20 years after he retired from F1, Mansell looks back on a stellar career in which he battled against many legends of the sport, from Lauda through the Senna and Prost years and on to Schumacher. He provides vivid insights into what it was like to race against those greats in an era when the risks to drivers were enormous. He explains what motivated him to get to the top, and takes the reader behind the scenes to give an unrivalled insight into the sport and the key moments of his career. Still closely involved in Formula One, Mansell assesses how F1 has changed, and gives his authoritative verdict on the sport, the cars and the drivers. It is an unmissable account from one of Britain's greatest sporting heroes. The legendary Jimi Hendrix has had all kinds of superlatives bestowed on him since his incendiary debut in 1966, but Lou Reed's pithy summation beats the lot: '...he was such a

bitching guitar player'. Jimi Hendrix On Track explores each thrilling song and album, drawing out exactly what made Hendrix not only a great guitarist but also a vocalist, arranger, interpreter, producer and songwriter of genius. Hendrix's revolutionary albums with The Experience and Band of Gypsys are discussed in detail, as are his posthumous releases from First Rays of the Rising Sun to Both Sides of the Sky. His early work as a session player for acts like The Isley Brothers, Little Richard and even Jayne Mansfield is considered, along with his later work as a guest star on albums by Stephen Stills, Robert Wyatt, and McGear and McGough, and not forgetting his blistering work as a producer for Eire Apparent. From psychedelic odysseys to progressive blues to proto-metal to funk-rock, Hendrix mastered them all. Jimi Hendrix On Track is an informative guide to some of the 20th century's most extraordinary recordings. Emma Stott missed out on the 1960s and the 1970s and she still isn't over it, so writing about the greatest decades in rock music helps with her loss. She also writes about literature and education, being an English teacher by day in Manchester, UK, where she forbids any 'dark sarcasm' in her classroom. Paddock Paradise is a revolutionary model for safe, natural horse keeping, hoof care, and the healing and rehabilitation of lame horses. The premise of Paddock Paradise is to stimulate horses to behave and move naturally according to their instincts. On Track tells the story of John Blay's long-distance search for the Bundian Way, an important Aboriginal pathway between Mt Kosciuszko and Twofold Bay near Eden on the New South Wales far south coast. The 360-kilometre route traverses some of the nation's most remarkable landscapes, from the highest place on the continent to the ocean. This epic bushwalking story uncovers the history, country and rediscovery of this significant track. Now heritage-listed, and thanks to the work of Blay and local Indigenous communities, the Bundian Way is set to be one of the great Australian walks. 2021 marks the 50th anniversary of the release of the first Electric Light Orchestra album. The ELO story is one of continued success for over 50 years. From inauspicious beginnings in 1971, where live audiences barely reached double figures, ELO would become one of the most popular bands in the world by the end of the decade, thanks largely to the songwriting and production talents of Jeff Lynne. There were hits such as 'Evil Woman', 'Mr. Blue Sky' and 'Don't Bring Me Down'; multi-platinum albums like Out Of The Blue and Discovery, and, of course, their spectacular stage shows. Although ELO finally called it a day in 1986, they re-emerged in 2014 as Jeff Lynne's ELO, playing a triumphant comeback concert at London's Hyde Park. Since then, they haven't looked back, releasing further albums to critical and public acclaim, culminating in ELO's biggest ever live show at Wembley Stadium and 2019's chart topping album, From Out Of Nowhere. As well as examining all of ELO's recorded catalogue, the author has spoken to many people who have been involved with the band over the decades, uncovering along the way previously unseen photographs and new information about the group and their recordings, making this one of the most comprehensive guides to ELO ever

published. Barry Delve is an author and artist. He is acknowledged as the foremost ELO expert in the Chilterns, if not the whole of South Buckinghamshire. He is married and has managed to hold down a job as a graphic designer for most of his working life. He lives in Buckinghamshire, UK. Forged in a London fire ritual in 1979 and reborn with their original line-up in 2008, Killing Joke have been creating uncompromising music for over 40 years. In addition to their incandescent self-titled debut in 1980, they have released essential albums in each of the past four decades: Night Time (1985), Pandemonium (1994), Killing Joke (2003) and Pylon (2015). But Killing Joke are more than a band; they are a primal force that exerts an intangible gravity on both its members and its fans. They have influenced countless groups across multiple genres - including Metallica, Nirvana and Nine Inch Nails - while their own style ranges across post-punk, dub, industrial, world music, electronica and alt-metal. Their equally eclectic lyrics traverse social alienation, dystopian futures, the folly of hubris, Cold War dread, paganism and the occult. Above all, their work embodies a process of self-discovery whose aim is nothing less than the revelation and integration of our darkest urges. Killing Joke On Track covers the fifteen studio albums and almost 200 songs of Killing Joke's vocation to date, including obscure gems, live albums and compilations. It's a celebration of a band who are often challenging, always provocative, but ultimately life-affirming. Nic Ransome spent most of the past 20 years as a screenwriter and is currently researching toward a PhD. Straight out of school in the mid-1980s, he self-published a rock fanzine then played bass in a short-lived space-punk band, before dabbling in theatre. He spent the next ten years doing a series of bullshit jobs to earn a living before rekindling a teenage obsession with movies, which eventually led to a seven-year stint at legendary British film company Hammer. This book is Nic turning full circle back to his first love as an adult: writing about music, specifically a band of which he's been a fan going on 42 years. He lives in Suffolk, UK. Mention the words 'heavy metal' and chances are one of the first names you'll get back is Iron Maiden. From their early days as front-runners of the New Wave Of British Heavy Metal in 1980, through to their epic and progressive works of more recent times, the band have been 'all things to all men' in the metal world. Such is their profile that even the non-metal fan would probably cite them as a key example of the genre. This book lifts the lid on every single track recorded by the band, album by album, from the punk-ish debut with original vocalist Paul DiAnno, via the glory years fronted by Bruce Dickinson, through to the sprawling double-disc epic Book Of Souls. By way of facts, anecdotes, analysis and a dollop of opinion, Steve Pilkington provides both an informative companion for the die-hard fan and a perfect road-map for the more casual listener to follow. From 'Prowler' to 'Empire Of The Clouds', through each and every line-up change, this is every Number recorded by The Beast - the ultimate recording history of Iron Maiden. Steve Pilkington is a music journalist, editor and broadcaster. He was Editor in Chief for the Classic Rock Society Magazine Rock Society

and is now co-administrator of the rock website Velvet Thunder as well as presenting a weekly internet radio show called A Saucerful Of Prog. Before taking on this work full-time, he spent years writing for fanzines and an Internet music review site on a part-time basis. He has recently published Deep Purple and Rainbow On Track, The Rolling Stones On Track and Monty Python On Screen, all for Sonicbond, and has also written the official biography of legendary guitarist Gordon Giltrap. He lives in Wigan, Lancashire, UK. Research can be a lonely path and there are myriad challenges and problems to face with any research project. In this research methods book, novice and experienced researchers tell stories of when things went wrong in their research projects. Drawing on real life experiences, researchers from post graduate research students to experienced professors will benefit from these insider insights, advice and lessons about the practical difficulties and how they may be addressed. The result is an engaging read and a helpful and reassuring guide to the research process. Arranged as a series of chapters interspersed with vignettes the researchers' stories provide the reader with insights into different facets and stages of the research process from finding a supervisor thorough designing surveys and conducting interviews and analysing data, to re-writing and dealing with feedback. It will be invaluable for doctoral and more experienced researchers grappling with the realities of undertaking research. "Lively and inspiring!" --Hartford Courant "A great feel-good story." --Philadelphia Examiner Just one step at a time. After losing her boyfriend and her job in one fell swoop, Noreen finds it hard to know what the next step is-- never mind take it. For the first time in a great many years, Noreen has time to herself. So she puts on a new pair of sneakers and a seriously outdated pair of exercise pants, and walks. It isn't long before she's joined by neighbors Tess and Rosie, two women as lost as she is. As the Wildwater women walk and talk, and talk and walk, they tally their steps, share their secrets, and begin putting their lives back together. And along the way, they learn what women everywhere are finding out -- time flies, and getting fit is actually fun when you're walking with friends. "Almost daily, we are challenged to consider the concepts of quality, as we evaluate our jobs, the products we produce, or the services we provide, and even as we try to reconcile the outcomes of our lifestyle with its costs. We use terms like quality control, quality assurance, and quality improvements; but, if pressed, most of us world have a hard time explaining what "quality" actually is. In On Track to Quality, you will discover the definition for yourself through the perspective of an entertaining mix of train passengers stranded by a winter snowstorm. As they contemplate the topic of quality, they find that their task turns out to be more complicated than they first imagined. Clearer understanding emerges through the thoughtful, witty dialogue of the snowbound travelers - a discovery that will help you improve the quality of your business, and even help you better recognize quality in your personal life. From Harleys to healthcare, On Track to Quality contains insight for people in all walks of life. All aboard this "train of thought", as conductor Dr. James K. Todd

relates a revealing ride on the rails of quality" -- Dust jacket. Don't let your company run off the rails. A company spread across multiple internal organizations, projects, and time zones can be a little like a train without a conductor-moving, but prone to confusion, communication gaps, and at risk of veering off the rails. If your organization is beset by competing deadlines, inept strategies, and missed milestones, it's time to invest in your own business conductor: a program management office. In this essential field guide to building, staffing, and running a top-notch PMO, software industry executive and program management specialist Paula Dieli shares essential tools, insights, and real-life case studies from major companies such as Zendesk, Adobe, and Macromedia. Aimed at both business leaders and program managers, you'll learn everything you need to know about setting up a PMO-from creating schedules and managing issues, to running effective meetings, to building relationships and people skills. If you're serious about meeting corporate objectives and creating an environment of continued success and achievement, a PMO isn't just a no-brainer: it's a critical component in ensuring you stay on track and hit your strategic goals-reliably, on time, and with finesse. For four decades, Depeche Mode dominated electronic music, from the naïve melodies of 1981's *Speak & Spell* through to 2023's *Memento Mori*. Through changing line-ups featuring Vince Clarke, Alan Wilder, and Andy Fletcher, singer Dave Gahan and main songwriter Martin Gore have been the band's core. Starting as teenagers and now in their 60s, they have survived worldwide fame, addictions to drink and drugs, and near-death experiences, while continuing to innovate as technology and the music business evolved. An acclaimed live band, it is through their fifteen studio albums that Depeche Mode have best expressed themselves, from the industrial darkness of *Black Celebration* (1986) to their popular breakthroughs with *Music For the Masses* (1987) and *Violator* (1990) and the emotional upheaval of 1993's *Songs of Faith and Devotion*. The band survived the chaotic fallout from that album and tour in the mid-1990s, with Gahan experiencing a near-fatal drug overdose, to regroup with *Ultra* (1997). They continued their explorations of love, death, sex, and politics on acclaimed albums *Playing the Angel* (2005), *Delta Machine* (2013), and *Spirit* (2016). Inducted into the Rock and Roll Hall of Fame in 2020, proven survivors Depeche Mode have their story told here in song-by-song detail. Brian J. Robb is the New York Times and Sunday Times bestselling biographer of Leonardo DiCaprio, Johnny Depp, and Brad Pitt. He has also written books on silent cinema, the films of Philip K. Dick, Wes Craven, Laurel and Hardy, the Star Wars movies, Superheroes, Gangsters, and Walt Disney, as well as science fiction television series Doctor Who and Star Trek. His illustrated books include an *Illustrated History of Steampunk* and *Middle-earth Envisioned*, a guide to J.R.R. Tolkien's *The Lord of the Rings* (Winner, Best Book, Tolkien Society Awards). He is a Founding Editor of the *Sci-Fi Bulletin* website and lives near Edinburgh, UK. Following the success of the earlier *Scatalog* - Quick ID guide to southern African animal droppings, here's another quick and quirky

identification guide, this time to tracks of the region's most commonly found mammals, but also includes tracks of reptiles, rodents, birds and insects. A simple key on the inside front cover directs users to any of 11 categories, such as 'cloven hooves', 'paws' or 'tramline-like trails'. Nearly 100 animals or closely related groups of animals are depicted; for each, there's • a silhouette of front and back feet and a colour photograph of the track • the average measurements for each track • a short description of the track • information about the circumstances and likely habitat Concise and to-the-point, this pocket-sized reference will prove indispensable in the field, no matter the experience of the user. Rising to prominence in 1994 on the back of their eponymous debut album, Korn ushered in a new sound within heavy metal which many would try and imitate in the years that followed. Earning themselves the title of 'The Godfathers of Nu Metal', the Bakersfield quintet has sold well over 40 million records, they have topped charts all around the world, and they have also won multiple awards which include two prestigious Grammys. Still firing on all cylinders after three decades, Korn continues to produce powerful and accessible anthems in the present day. *Korn On Track* covers all the band's studio releases thus far - from their 1993 demo tape, *Neidermayer's Mind*, to their thirteenth studio album, *The Nothing*, released in 2018. Reviewing every track and delving into the stories behind many of them, also discussed is Korn's largely unheralded unreleased material, and their B-sides. The book also includes songs exclusively featured on movie soundtracks, making this an essential guide to this groundbreaking nu metal band. An avid music fan, author, and journalist, Matt Karpe has written for multiple print and online magazines over the last decade, including *Powerplay Rock & Metal Magazine* and *Down For Life (Punk & Hardcore)*. As well as releasing four books (*We Own the Night: The Underground of the Modern American Hard Rock Scene*, two volumes of *Nu Metal: Resurgence*, and *Nu Metal: A Definitive Guide*), he is also the creator of the nu metal dedicated zine, *The Nu Zine*, and the owner of the independent record label, *TNZ Records*. He lives in March, Cambridgeshire, UK. Demonstrates how railroad safety evolved from the intersection of market pressures, technology, and public sentiment.--Journal of Southern History Terrible news has reached cat brothers Anton and Cecil: their rodent friend Hieronymus has been captured. Anton and Cecil must set out to rescue the mouse who once saved Anton's life. Boarding one of the monstrous machines the mice call "landships," the brothers travel to the Wild West. Along the way Cecil is tossed out onto the prairie by the train's conductor only to face bison, prairie dogs, and a boy who would make him a pet. Meanwhile, Anton meets a ferret friend who warns of stampeding herds, rattlesnakes, and fierce, enormous cats. Facing such danger can Anton and Cecil find the courage and wit to save Hieronymus? Career derailment, found at all organizational levels in the workplace, is under-documented. Most books examining how careers go off track deal with abstract concepts and focus only on top executives. This book defines 99 potentially career-ending pitfalls, illustrated with real-world examples, and offers

specific advice to employees at all levels in business, nonprofit, military, government and other organizations. Topics include the consequences of power and pleasing, the illusion of immunity, meeting behavior, corrective feedback, ineffective image, nonverbal behavior, self-serving analysis and the perception of management as a science. Perspectives are provided on avoiding the indirect hazards of working with superiors or subordinates who may be on the path to derailment. A reader self-assessment is included. As a kid, Bernie Shakeshaft's mischievous and reckless behaviour led him to become known as the wild one of his devout Catholic family. It isn't surprising that his path led him to the Northern Territory, a place where people often go to either lose themselves or find themselves. Bernie, a searcher for his purpose in life, found himself. He had many jobs, firstly as a ringer on a cattle station owned by the Packer family, and later as a dingo trapper for the Parks and Wildlife Service. Throughout it all, he drank, he swore, he fought, and took chances with his own well-being. But, crucially, he also developed deep connections with the Indigenous people, and it was these connections that helped lay the foundations for what was to come. He worked for youth welfare organisations, and all the while he built up his knowledge about helping wayward youths, particularly those from Indigenous communities. Years later, Bernie was living in Armidale. He'd been visiting too many kids in prison and going to too many funerals. The usual methods weren't working so that reckless, mischievous kid inside him decided he could do better. He started a youth program called *BackTrack*, with three aims: To keep them alive, out of jail and chasing their hopes and dreams. For most, this was their last chance. Combining life skills, education, job preparedness with rural work, Bernie threw in one other factor: dogs! And it works. With the help of these working dogs, the lost boys (and girls) find their way back on track. These days, *Backtrack* youth tour the country competing in dog-jumping trials. Bernie and the *BackTrack* team are now supporting other communities in Lake Cargelligo, Broken Hill, Dubbo and Grafton and have forged a new beginning for over 1000 young people. This one man is making a huge difference. In *Back on Track*, bestselling author James Knight tells Bernie's story and the stories of those whose lives he has saved. It is a powerful reminder that we should never give up on our kids. 'This fella Bernie, he's a good fella, a bit of a genius really. What a great story.' - Russell Crowe "Introduces early learning skills!: Color association, active listening, coordination, reading, counting."--Cover U2 were Formed at a Dublin Secondary School by Adam Clayton, Bono, The Edge and Larry Mullen Jr. Like most bands, they wanted to be among the best in the world. By 1991, with *Achtung Baby* in the pipeline and *War*, *The Unforgettable Fire* and *The Joshua Tree* behind them, they were arguably deserving of that intention. Yet there was more to the band than the stadium records that made their fans deliriously happy and the music's creators artistically and lucratively fulfilled. Their second album, *October*, opened the four piece into a spiritual journey that fed their later work. Their double album *Rattle and*

Hum proved one of the greatest torchbearers of American music of its time. And then there were Zooropa and Pop - dance oriented albums that showed the initially-punk oriented quartet exploring effects, sounds and territories that few of their contemporaries dared contemplate. That they should exist forty years after their debut is testament to the will, fortitude and versatility U2 holds. Their most recent works Songs of Innocence and Songs of Experience have proven their most reflective and perhaps their most autobiographical. What lies next for U2 only the band know, but this book delves into their past work, without leaving a passenger behind. A Washington Post Bestseller An entirely fresh approach to ending the high school dropout crisis is revealed in this groundbreaking chronicle of unprecedented transformation in a city notorious for its "failing schools" In eighth grade, Eric thought he was going places. But by his second semester of freshman year at Hancock High, his D's in Environmental Science and French, plus an F in Mr. Castillo's Honors Algebra class, might have suggested otherwise. Research shows that students with more than one semester F during their freshman year are very unlikely to graduate. If Eric had attended Hancock—or any number of Chicago's public high schools—just a decade earlier, chances are good he would have dropped out. Instead, Hancock's new way of responding to failing grades, missed homework, and other red flags made it possible for Eric to get back on track. The Make-or-Break Year is the largely untold story of how a simple idea—that reorganizing schools to get students through the treacherous transitions of freshman year greatly increases the odds of those students graduating—changed the course of two Chicago high schools, an entire school system, and thousands of lives. Marshaling groundbreaking research on the teenage brain, peer relationships, and academic performance, journalist turned communications expert Emily Krone Phillips details the emergence of Freshman OnTrack, a program-cum-movement that is translating knowledge into action—and revolutionizing how teachers grade, mete out discipline, and provide social, emotional, and academic support to their students. This vivid description of real change in a faulty system will captivate anyone who cares about improving our nation's schools; it will inspire educators and families to reimagine their relationships with students like Eric, and others whose stories affirm the pivotal nature of ninth grade for all young people. In a moment of relentless focus on what doesn't work in education and the public sphere, Phillips's dramatic account examines what does. This story-based course comprehensively prepares learners for the outcomes relevant to the Foundation Phase of the Language, Literacy and Communication learning area. It has been thoroughly tested in a variety of South African schools for its suitability in multi-lingual classrooms. For more than a decade, Marion Jones was hailed as the “the fastest woman on the planet.” At the 2000 Olympic Games in Sydney, Australia, she became the first woman ever to win five medals at one Olympics. That same year, the Associated Press and ESPN named her Athlete of the Year. She was on the cover of Vogue and Time. She seemed to have it all—fame, fortune, talent, and international

acclaim. Now she is a convicted felon. The trouble started in 2003 when she lied to federal agents about her use of a performance-enhancing drug and her knowledge of a check fraud scam. In 2007, no longer able to live with the lies, she admitted the truth. In a sad end to what seemed like a storybook career, she was stripped of her medals, and her track-and-field records were wiped from the books. She was incarcerated at Carswell federal prison in Fort Worth, Texas—a prison known for its violence and abuse. While there, she kept herself in shape and her sanity intact by running on a dirt track and a treadmill in the prison's improvised weight room. But her imprisonment was not the end for Marion Jones. In fact, it marked a new beginning. She is now using her story to change the lives of people the world over and inspire others who, like her, face obstacles that seem insurmountable. On the Right Track is the candidly told story of how Marion came to grips with her lies and the consequences of her actions, and how she found meaning in all of it. What she tells her children and has now applied to her own life is that when you make a mistake, you admit it, you accept the consequences, you move on, you make the wrong a right. She teaches her children and others to take a break and pause before making impulsive and potentially harmful decisions. At the heart of this book are real issues that we all face: learning to grow through pain; making decisions that will help us far into the future; overcoming failure and discouragement; and applying practical principles that point the way to personal and spiritual breakthrough. Track and field champion Sanya Richards-Ross knows what it takes to achieve the impossible. With multiple Olympic gold medals and World Championship accolades, Sanya has long been a role model for young runners around the world. In her first-ever book for young adults, Sanya shares her advice and wisdom when it comes to chasing your dreams. Filled with hands-on success strategies and personal anecdotes, Right on Track: Run, Race, Believe will help readers face wins and losses with grace, strength, and faith. With chapters discussing setting goals, staying focused on the finish line, and being true to yourself, this book is perfect for teens and graduates. Empowering and inspiring, Right on Track encourages teens to dream big and take the ups and downs of life in stride. Train is speeding through the countryside when Dog sees a red signal. There's a fallen tree and the mail train is stuck! How can Train help to keep the mail moving? It's time to get busy with machines that race, vroom and zoom! This vibrant series is designed to excite playful pre-schoolers. Each story features a popular vehicle as the central character, and involves a group of animal characters in a supporting role. A detailed spread on different parts of the vehicle will help children to understand what makes up the machines and help familiarise them with vehicle vocabulary and noises. "Wacky Races meets Candy Crush ... Fizzes with fast-paced fun!" —Mo O'Hara, New York Times bestselling author of the My Big Fat Zombie Goldfish series From creative team Deanna Kent and Neil Hooson comes Glam Prix Racers: Back on Track!, the second full-color adventure in their young graphic novel trilogy about a team of fantasy creatures and their magical vehicles

who use speed, smarts, and friendship to race their way to the top! It's the second race of the Glam Prix Cup on Glittergear Island! This time the racers and their motos are off to Soft Swirl City, where they will have to navigate slippery candy tracks, collect glittergum power balls, and—most importantly—avoid getting caught by the Gummy Mummy! Mio the mermaid, her monster truck Mudwick, and their team are fresh off their win in the first round, but the mischievous Vroombot crew is up to their usual naughty tricks. Can the Glam Prix Racers escape the sticky situation in time to claim another sweet victory? Millions of students of ALL AGES, many with 20/20 eyesight, have "educational near vision" problems that interfere with their school success. EYES ON TRACK™ is a breakthrough book for parents and teachers to identify and help students that struggle with reading. Dr. Kristy Remick shares her 30 years of experience with readers to help students overcome reading difficulties that enable students to reach their full potential. EYES ON TRACK™ features a new Detection Screening, a system that is easy to use in the classroom. Detection Screening identifies left eye dominant students (LEDs), EYE TRACKING issues, and VISION PROCESSING problems. Left eye dominant students (LEDs) often struggle to read. Teachers and parents have not been aware of the role that eye dominance plays in developing reading skills. EYES ON TRACK™ offers 16 innovative VISION PRACTICES that help students of all ages to develop the EYE TRACKING skills and VISION PROCESSING skills necessary to create a solid foundation for successful learning. Tools for Identifying and Developing Spiritual, Social, and Emotional Growth From birth to adulthood, our children's physical and intellectual development is carefully tracked and charted. But what about their hearts? After all, how our children develop emotionally, socially, and spiritually will determine who they become as husbands and wives, fathers and mothers, friends and co-workers. Are My Kids on Track? helps you identify and measure 12 key emotional, social, and spiritual milestones in your children's lives. Moreover, you will discover practical ways to guide your kids through any stumbling blocks they might encounter and help them reach the appropriate landmarks. Along the way the authors pinpoint the different ways boys and girls develop, so you can help your child flourish in his or her own way. Filled with decades of experience from three practicing counselors, speakers, and writers, this book provides you with valuable, current research and user-friendly, hands-on practices to make supporting your kids' soul development a seamless part of family life. Don't just raise smart kids--raise courageous, compassionate, resilient, empathetic, and smart kids.
