[The Era of Uncertainty](#) Francois Trahan, Katherine Krantz, 2011-07-13. *Macroeconomic Investment Strategies for an Era of Economic Uncertainty*. Over the years Francois' insightful analyses of the business cycle has led to market calls that have both benefitted investors on the upside and more important to many protected them from losses on the downside. Francois' incredible track record in successfully interpreting the trends that can be found in leading indicators and other macroeconomic data have also led to his well deserved reputation as an expert in sector rotation providing investors on both the long and short side of the market opportunities to profit from his ideas. In my opinion his most important and influential macro prediction to date was his call in

the middle of the last decade when he predicted that the worst housing crisis in American history would soon be upon us and that it would have far ranging implications for both the global economy and world financial markets **Modern**
